Notes to Statement of Financial Condition December 31, 2021 (Dollars in thousands)

1. Organization

MML Distributors, LLC (the “Company”) is a limited liability company organized on November 10, 1994 under the Connecticut Limited Liability Act. The Company is owned by two members: Massachusetts Mutual Life Insurance Company (“MassMutual”) with a 99% interest, and MassMutual Holding LLC, whose sole member is MassMutual, with a 1% interest. The Company’s primary purpose is to provide principal underwriting, distribution, and other broker-dealer services to MassMutual and its subsidiaries. The Company is registered as a broker-dealer with the Securities and Exchange Commission (“SEC”), is a member of the Financial Industry Regulatory Authority, Inc. (“FINRA”), and is licensed as a broker-dealer in all 50 states, Puerto Rico, and the District of Columbia.

On December 31, 2020, MassMutual completed the sale of its retirement plan business to Great-West Life & Annuity Insurance Company (a.k.a. Empower). The Company continued to provide distribution services associated with these retirement plans in 2021.

2. Significant Accounting Policies

The significant accounting policies are as follows:

Basis of Presentation

The Company’s financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (“GAAP”). The preparation of financial statements in conformity with GAAP requires the use of estimates. Accordingly, certain amounts in these financial statements contain estimates made by management. Actual results could differ from those estimates.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with an original maturity of three months or less to be cash and cash equivalents. The Company maintains its operating cash in bank deposit accounts, which may exceed federally insured limits. The Company has not experienced any losses on such accounts. The Company invests excess cash in money market mutual funds managed by unrelated third parties, which are classified as cash equivalents. At December 31, 2021, there was \$611 invested in money market mutual funds, which are classified as Level 1 in the fair value hierarchy.

Revenue Recognition and Related Expense

The Company recognizes revenue from customers when it satisfies the performance obligation of transferring control over a service to a customer. A performance obligation may be satisfied over time or at a point in time. Revenue from a performance obligation satisfied over time is recognized by measuring the Company's progress in satisfying the performance obligation in a manner that depicts the transfer of the services to the customer. Revenue from a performance obligation satisfied at a point in time is recognized at the point in time that the Company determines the customer obtains control over the promised service.

The amount of revenue recognized reflects the consideration to which the Company expects to be entitled in exchange for those promised services (i.e., the "transaction price"). In determining the transaction price, the Company considers multiple factors, including the effects of variable consideration. Variable consideration is included in the transaction price only to the extent it is probable that a significant reversal of cumulative revenue will not occur. This arises when there are no significant uncertainties with the transaction price. When variable consideration is included in the transaction price, the Company considers the range of possible outcomes, the predictive value of its past experiences, the time period of when uncertainties expect to be resolved and its susceptibility to factors outside of the Company's control, such as market volatility or the actions of its customers (see Note 3).

Fair Value of Financial Instruments

The reported carrying values of financial instruments, (including cash equivalents, receivables, and payables) approximate their fair values because of the short maturities of these assets and liabilities.

Income Taxes

The Company is treated as a disregarded entity for tax reporting purposes and is included in consolidated U.S. federal and state income tax returns with MassMutual and its eligible U.S. subsidiaries. The Company is not subject to the written tax allocation agreement between MassMutual and its eligible subsidiaries and certain affiliates. Certain states require the Company to file limited liability company returns. The Company has no uncertain tax positions.

3. Revenue from Contracts with Customers

The following provides detailed information on the recognition of the Company's revenue from contracts with customers.

MML Distributors, LLC

Notes to Statement of Financial Condition December 31, 2021 (Dollars in thousands)

Commission revenue is earned as the broker-dealer intermediary for the administration, supervision, and distribution of variable products issued by MassMutual through sales agreements with third-party independent broker-dealers. This revenue, as well as the related commission costs to fulfill, is recorded at a point in time as the performance obligation is satisfied when the variable product is issued or renewed (see Note 4). Commissions payable to the independent broker-dealers associated with the variable product sales is accrued concurrently using the actual payout rate.

Trail commission revenue, which represents asset-based 12b-1 service fees earned by the Company from open-end mutual fund companies, as well as insurance carriers for variable annuities, are determined based upon a percentage of average assets under management and represent a series of distinct services that are substantially the same and have the same pattern of transfer. Services are provided on a daily basis, which represents a performance obligation that is satisfied over time. The Company uses the same measure of progress to determine consideration. Trail revenues are a form of variable consideration since the fees the Company is entitled to vary based upon the customer maintaining assets in their account. Related commission expenses are recognized as the revenue is earned. The Company estimates its accruals for revenues earned in based upon historical cash receipts or assets under management in current and prior periods, as applicable.

Distribution fees represent fees paid to the Company by MassMutual in connection with underwriting and servicing related to the promotion, offering, marketing, and distribution of MassMutual proprietary variable products. Services are provided on a daily basis, which represents a performance obligation that is satisfied over time. Fees are calculated based on actual expenses incurred and are billed and received monthly in the month the services are performed (see Note 4).

Contract Assets

The timing of the Company's revenue recognition may differ from the timing of payment by its customers. The Company records receivables when revenue is recognized prior to payment and it has an unconditional right to payment.

The Company recorded the following contract assets at December 31, 2021 and 2020:

	<u>2021</u>	<u>2020</u>
Trail commissions receivable from brokers or dealers	\$ 15,316	\$ 16,488
Commissions receivable from related parties	<u>1,089</u>	<u>1,144</u>
Total contract assets	<u>\$ 16,405</u>	<u>\$ 17,632</u>

Changes in contract assets are the result of ordinary business activities.

The Company earned unaffiliated Trail commissions in 2021 related to these programs and incurred distribution support costs from services provided by MassMutual equal to these revenues.

Invesco Distributors, Inc. (“IDI”) is a related party of the Company, per Accounting Standards Codification (“ASC”) 850, *Related Party Disclosures*, through MassMutual’s ownership and influence over IDI’s parent Invesco, Ltd. The Company, MML Investors Services, LLC (“MMLIS”), and MML Strategic Distributors, wholly owned subsidiaries of MassMutual, have a reciprocal agreement whereby they mutually agree to reimburse each other for the amount of any 12b-1 fees inadvertently paid to either firm by the Fund Companies.

Pursuant to the distribution agreements noted above with MassMutual and C.M. Life, the Company is compensated for expenses it incurs.

The Company has administrative services agreements with MassMutual and MMLIS, which provide for the performance by MassMutual and MMLIS of certain services for the Company including, but not limited to, accounting, legal, cash management, and other general corporate services. Under these service agreements, the Company pays a management fee to MassMutual and MMLIS as reimbursement for the services noted above. While management believes that these fees are calculated on a reasonable basis, they may not be indicative of the costs that would have been incurred on a stand-alone basis.
