NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Description of Business

CliftonLarsonAllen Wealth Advisors, LLC (the Company), a Minnesota limited liability company, was organized on February 15, 1995 and registered with the Securities and Exchange Commission (SEC). Effective October 27, 1995, the Company registered with the Financial Industry Regulatory Authority, Inc. (FINRA) as a broker/dealer.

The Company is a wholly owned subsidiary of CliftonLarsonAllen LLP (Member). The Company is engaged in investment advisory, financial and estate planning, and other financial services throughout the United States.

Cash and Cash Equivalents

Cash and cash equivalents consist principally of money market instruments having an original maturity of three months or less and bank accounts. At times such deposits may exceed federally insured limits.

Accounts Receivable and Work in Process, Net

Accounts receivable from customers and unbilled work in process relate to services provided. The Company does not customarily require collateral for providing such services. Accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to earnings and a credit to valuation allowance based on its assessment of the collections risk inherent within such accounts. Balances still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable. The composition of Accounts Receivable and Work in Process, Net as of December 31, 2021 as follows:

	<u>December 31, 2021</u>
Accounts Receivable	\$ 915,191

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Depreciation

Property and equipment are depreciated over their estimated useful lives by use of the straight-line method.

Description of Useful Lives

The estimated useful lives of the property and equipment are as follows:

Equipment	3-10 Years
Software	3 Years

Revenue Recognition

The revenue streams in the discussion below and in Note 4 include those that are within the scope of Accounting Standards Codification (ASC) 606. Interest income is deemed out of scope and is excluded. In all cases for all revenue streams discussed below, the revenue generated is from a single transaction price, and there is no need to allocate the amounts across more than a single revenue stream. The customer for all revenues derived from open-end and closed-end funds described in detail below has been determined to be the fund itself and not the ultimate underlying investor in the fund.

Significant Judgments that affect the amounts and timing of revenue recognition:

The Company's analysis of the timing of revenue recognition for each revenue stream is based upon an analysis of current contract terms. Performance obligations could, however, change from time to time if and when existing contracts are modified or new contracts are entered into. These changes could potentially affect the timing of satisfaction of performance obligations, the determination of the transaction price, and the allocation of the price to performance obligations. In the case of the revenue streams discussed below, the performance obligation is satisfied either at a point in time or over time. For performance correlated and conditional revenues, the performance obligation (advising a client portfolio) is satisfied over time, while recognition of revenues effectively occurs at the end of the measurement period as defined within the contract, as such amounts are subject to reduction to zero on the date where the measurement period ends even if the performance benchmarks were exceeded during the intervening period. The judgments outlined below, where the determination as to these factors is discussed in detail, are continually reviewed and monitored by the Company when new contracts or contract modifications occur. Transaction price is in all instances formulaic and not subject to significant (or any) judgment at the current time. The allowance for bad debts is subject to judgment. At December 31, 2021, Management's estimate for the allowance for bad debts was \$40,000.

Investment advisory fees - The Company provides investment advisory services on a daily basis. The Company believes the performance obligation for providing advisory services is satisfied over time because the customer is receiving and consuming the benefits as they are provided by the Company. Fee arrangements are based on a pre-determined percentage applied to the customer's assets under management at the previous quarter-end. Fees are received quarterly and are recognized as revenue at that time as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDING DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Private placement agent fees - The Company earns private placement fees for investments in equity securities. The Company records revenue at the point in time when the services for the transactions are completed under the terms of each engagement. The Company believes the performance obligation is satisfied when the investment is settled by the customer.

Distribution fees - The Company enters into arrangements with managed accounts or other pooled investment vehicles (funds) to distribute shares to investors. The Company may receive distribution fees paid by the fund up front or over time. The Company believes that its performance obligation is the sale of securities to investors and as such this is fulfilled on the trade date. Any fixed amounts are recognized on the trade date and variable amounts are recognized to the extent it is probable that a significant revenue reversal will not occur once the uncertainty is resolved. For variable amounts, as the uncertainty is dependent on the value of the shares at future points in time as well as the length of time the investor remains in the fund, both of which are highly susceptible to factors outside the Company's influence, the Company does not believe that it can overcome this constraint until the market value of the fund and the investor activities are known, which are usually quarterly. Distribution fees recognized in the current period are primarily related to performance obligations that have been satisfied in prior periods.

Brokerage commissions - The Company buys and sells securities on behalf of its customers. Each time a customer enters into a buy or sell transaction, the Company charges a commission. Commissions and related clearing expenses are recorded on the trade date (the date that the Company fills the trade order by finding and contracting with a counterparty and confirms the trade with the customer). The Company believes that the performance obligation is satisfied on the trade date because that is when the underlying financial instrument or purchaser is identified, the pricing is agreed upon and the risks and rewards of ownership have been transferred to/from the customer.

Insurance commissions - The Company arranges insurance policies on behalf of its customers with various insurance providers. When the customer purchases an insurance policy the Company receives a percentage of the premium as a commission. Commissions are substantially recognized on the effective date of the associated insurance policy.

Variable annuity commissions - The Company purchases variable annuity policies on behalf of its customers. Each time a customer enters into an agreement to purchase a variable annuity policy the Company receives a commission. Commissions are based on a pre-determined percentage applied to the customer's annuity balance at quarter-end. Fees are received quarterly and are recognized as revenue at that time as they relate specifically to the services provided in that period, which are distinct from the services provided in other periods.

Investment banking revenue - The Company provides advisory services for investment banking transactions. Revenue for advisory and consulting arrangements is generally recognized at the point in time that performance under the arrangement is completed (the closing date of the transaction). However, for certain contracts, revenue is recognized over time for advisory arrangements in which the performance obligations are simultaneously provided by the Company and consumed by the customer.

FOR THE YEAR ENDING DECEMBER 31, 2021

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Other fees – These services are recognized in the period the service is provided. Work in process represents unbilled amounts for services performed. Deferred revenue represents amounts collected in excess of services performed to date.

Income Taxes

The Company is not a taxpaying entity for federal and state income tax purposes; therefore, no income tax expense has been recorded in the accompanying financial statements. Income from the Company is passed through to the Member and is taxed to the partners of the Member in their respective returns. The Company's tax years 2020, 2019, and 2018 and the twelve months ended December 31, 2021 are open for examination by federal and state taxing authorities.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Commitments, Contingencies, Guarantees

Except as discussed elsewhere within these Notes to Financial Statements, there are no other material commitments, contingencies or guarantees that require additional disclosure.

Subsequent Events

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through February 25, 2022, the date of the financial statements were available to be issued.

NOTE 2 RETIREMENT PLAN

The Company participates in the CliftonLarsonAllen LLP 401(k) Retirement Plan which allows eligible employees to make contributions from their compensation. The plan covers employees who meet certain eligibility requirements and allows employees to defer a portion of their eligible compensation, up to the maximum dollar limit set by law. To be an eligible participant, the employee must meet minimum age and service requirements outlined in the Plan. The plan requires the Company to contribute 50% for each dollar contributed by the participant. The Company's matching contribution is limited to the first 4% of employee contributions each plan year. The Company may also make a discretionary contribution to the plan. A discretionary contribution of 3% was accrued for the year ended December 31, 2021 based on an estimation of management, which totaled \$406,499. At the date the financial statements were issued, final approval by the board of directors was pending and is expected to be approved at 3%. The Company recorded contribution expense of \$612,318 for the plan for the year ended December 31, 2021.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of CliftonLarsonAllen Wealth Advisors, LLC

We have reviewed management's statements, included in the accompanying Exemption Report for the year ended December 31, 2021, in which (1) CliftonLarsonAllen Wealth Advisors, LLC (the "Company") did not claim an exemption under paragraph (k) of 17 C.F.R. §240.15c3-3, and the Company is filing this Exemption Report relying on Footnote 74 of the SEC release No. 34-70073 adopting amendments of 17 C.F.R. §240.17a-5 because the Company did not directly or indirectly receive, hold, or otherwise owe funds or securities for or to customers; did not carry accounts of or for customers; and did not carry PAB accounts and (2) the Company stated that the Company met the identified exemption provisions throughout the most recent fiscal year without exceptions. The Company's management is responsible for compliance with the exemption provisions and its statements.

Our review was conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States) and, accordingly, included inquiries and other required procedures to obtain evidence about the Company's compliance with the exemption provisions. A review is substantially less in scope than an examination, the objective of which is the expression of an opinion on management's statements. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to management's statements referred to above for them to be fairly stated, in all material respects, based on the Company's business activity contemplated in Footnote 74 of the SEC Release No. 34-70073 adopting amendment to 17 C.F.R. §240.17a-5, and related SEC Staff Frequently Asked Questions.
