1. Line of business and summary of significant accounting policies

Line of business

SKB Securities, LLC (the "Company"), is a broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). The Company is located in Portland, Oregon and provides real estate investment banking services to customers throughout the United States.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates based on assumptions about current and, for some estimates, future economic and market conditions that affect the reported amounts of assets and liabilities and related disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although the Company's estimates contemplate current conditions and how management expects them to change in the future, as appropriate, it is reasonably possible that future conditions could be different than anticipated in those estimates, which could materially affect the Company's results of operations and financial position.

Revenue recognition

Placement fee & contingent placement fee revenue are fees earned for the private placement of debt and equity securities and related back-end commissions earned on those placements and are recorded based upon the terms of the agreement for each transaction. Placement fees are generally earned at a rate of 3% of equity raised from outside investors and are recognized by and paid to the Company upon the closing of an investment project and corresponding purchase of a real estate asset. Contingent placement fee revenue is earned at varying rates and is recognized by and paid to the Company upon the closing of a sale of a real estate asset. The Company believes that the participation income and related back-end commissions are not known nor do they exist until the closing of a real estate asset sale because that is when the real estate sales price is determined. This in turn determines whether any participation income and related back-end commissions are earned, as well as the amount, if any.

During the year ended December 31, 2021, the Company recognized placement fee revenue of \$155,100 and contingent placement fee revenue of \$109,078.

Concentration of credit risk

The Company has cash in bank deposit accounts which may exceed depository insurance limits from time-to-time. The Company has not experienced any losses in such accounts. The Company's cash balance did not exceed insurance limits in 2021.

Income taxes

The Company is a single member LLC and as such, it does not file a separate tax return; rather, its income and expenses are included in the tax returns of its member. The Company records income taxes following the separate return allocation method. This method allocates income taxes for the Company as if it were a separate taxpayer from its member. With the exception of local income taxes, the Company is not subject to Income taxes. Management evaluates tax positions taken by the Company and recognizes a tax liability (or asset) if the Company has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities.

YEAR ENDED DECEMBER 31, 2021

Subsequent events

The Company has evaluated subsequent events through February 8, 2022 which is the date these financial statements were available to be issued. Events, if any, are disclosed within the notes to these financial statements.

2. Net capital requirements

The Company is subject to the SEC Uniform Net Capital Rule 15c3-1, which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. At December 31, 2021, the Company had net capital of \$37,661, which was \$32,661 in excess of its required net capital of \$5,000. The Company's ratio of aggregate indebtedness to net capital was .03 to 1.

3. Related party transactions

The Company is a single member LLC, wholly-owned by ScanlanKemperBard Companies ("SKB"). SKB is engaged in real estate merchant banking, development and investment. During 2021, the Company earned 100% of its placement fees in deals in which SKB was the operating manager.

Under a facilities-sharing agreement, SKB provides the Company with administrative services, computer equipment and software, facilities, equipment and supplies. In consideration of the services and resources, the Company either pays SKB a monthly payment or accepts a capital contribution based upon mutually agreed pro rata amounts as described in the facilities sharing agreement. SKB charged the Company approximately \$264,000 in 2021 of which \$220,000 was treated as capital contributions to the Company. During the year ended December 31, 2021, SKB incurred a commission of approximately \$28,000 on behalf of the Company. This transaction was treated as a capital contribution to the Company.

4. Going concern and related party support

The Company has experienced operating losses and negative cash flows from operations for six consecutive years. The major part of the Company's working capital requirements is provided by SKB. SKB is reliant upon the Company's function as a broker dealer in order to continue with its primary operations. SKB has committed to fund the Company's net capital needs, should it be required. Having considered this and made due inquiries, the Company's management has determined SKB possesses the financial capabilities to fulfill its commitment and continues using the going concern basis of accounting in preparing the financial statements which assumes the Company will continue in operation for the foreseeable future.
