## NEWS RELEASE

### AMERICAN INDEPENDENCE CORP. ANNOUNCES 2010 FIRST-QUARTER RESULTS

New York, New York, May 17, 2010. American Independence Corp. (NASDAQ: AMIC) today reported 2010 first-quarter results. This press release contains both GAAP and non-GAAP financial information for which reconciliations can be found at the end of this release.

#### ***Financial Results***

Net income decreased to \$0.8 million (\$.10 per share, diluted), for the three months ended March 31, 2010, compared to \$1.4 million (\$.16 per share, diluted), for the three months ended March 31, 2009.

The Company's operating income<sup>1</sup> for the three months ended March 31, 2010 was \$1.3 million (\$.15 per share, diluted), as compared to \$2.0 million (\$.23 per share, diluted) for the three months ended March 31, 2009.

Revenues decreased to \$22.8 million for the three months ended March 31, 2010, compared to revenues of \$26.7 million for the three months ended March 31, 2009, primarily due to a reduction of premiums.

#### ***Chief Executive Officer's Comments***

Roy Thung, Chief Executive Officer, commented, "The decrease in our financial results in the first quarter is largely due to a reduction in premiums and an increase in loss ratios due to the global economic crisis, but we believe both are beginning to stabilize. Sequentially, our operating income per share increased to \$.15 per share from \$.10 per share for the quarter ended December 31, 2009. Our financial condition remains strong as we have grown our book value to \$10.61 at March 31, 2010 from \$10.46 per share at December 31, 2009, and our investment portfolio continues to be rated, on average, AA."

---

<sup>1</sup> Operating income is a non-GAAP measure and is defined as net income excluding non-cash charges related to the amortization of certain intangible assets recorded in purchase accounting, net realized investment losses, losses from discontinued operations and the federal income tax charge related to deferred taxes. The Company believes that the presentation of operating income may offer a better understanding of the core operating results of the Company. A reconciliation of net income to operating income is presented as an attachment to this press release.

### ***Non-GAAP Financial Measures***

The Company provides non-GAAP financial measures to complement its consolidated financial statements presented in accordance with GAAP: (i) Operating income is net income excluding non-cash charges related to the amortization of intangible assets recorded in purchase accounting, net realized investment gains (losses), net income attributable to the non-controlling interest, and the federal income tax charge related to deferred taxes due to its federal net operating loss carryforwards, and (ii) Operating income per share is operating income (loss) on a per share basis. These non-GAAP financial measures are intended to supplement the user's overall understanding of the Company's current financial performance and its prospects for the future. Specifically, the Company believes the non-GAAP results provide useful information to both management and investors by identifying certain expenses that, when excluded from the GAAP results, may provide additional understanding of the Company's core operating results or business performance. However, these non-GAAP financial measures are not intended to supersede or replace the Company's GAAP results. A reconciliation of the non-GAAP results to the GAAP results is provided in the "Reconciliation of GAAP Income from Continuing Operations to Non-GAAP Operating Income from Continuing Operations" schedule below.

### ***About American Independence Corp.***
