Form 10-K for the Fiscal Year Ended December 31, 2008
Filed February 27, 2009
File No. 1-10702

Dear Mr. DeFeo:

We have limited our review of your filing to disclosure relating to your contacts with countries that have been identified as state sponsors of terrorism, and we have the following comments. Our review with respect to this issue does not preclude further review by the Assistant Director group with respect to other issues. At this juncture, we are asking you to provide us with supplemental information, so that we may better understand your disclosure. Please be as detailed as necessary in your response. After reviewing this information, we may raise additional comments.

Please understand that the purpose of our review process is to assist you in your compliance with the applicable disclosure requirements and to enhance the overall disclosure in your filings. We look forward to working with you in these respects. We welcome any questions you may have about our comments or on any other aspect of our review. Feel free to call us at the telephone numbers listed at the end of this letter.

General

1. We note from disclosure on page 10, page 26 and elsewhere in your Form 10-K that you currently operate in the Middle East, Africa, and Latin America, regions generally understood to include Iran, Syria, Sudan and Cuba, and that you intend to increase your operations in those regions. We note also that it appears from your website that nationals of Cuba, Iran, Sudan, and Syria can register as your suppliers, and that you sell products and provide service and support for your Terex Atlas brand in Iran. We are aware of a March 2006 news report that your joint venture, Inner Mongolia North Hauler Co. Ltd., sold products into Iran. We also are aware of a March 2007 news report that Terex Equipment Middle East LLC, the sales and marketing office for your Aerial Work Platforms segment, serves the market demand for your equipment in Iran and Syria, among other countries.

- Cuba, Iran, Sudan, and Syria are identified by the State Department as state sponsors of terrorism, and are subject to U.S. economic sanctions and export controls. We note that your Form 10-K does not include disclosure regarding contacts with Cuba, Iran, Sudan, and Syria. Please describe to us the nature and extent of any past, current, and anticipated contacts with the referenced countries, whether through subsidiaries, joint ventures, resellers, or other direct or indirect arrangements. Your response should describe any products, components, equipment, technology, or services you have provided to those countries, directly or indirectly, and any agreements, commercial arrangements, or other contacts you have had with the governments of those countries or entities controlled by those governments.
2. Please discuss the materiality of any contacts with Cuba, Iran, Sudan, and Syria described in response to the foregoing comment, and whether those contacts constitute a material investment risk for your security holders. You should address materiality in quantitative terms, including the approximate dollar amounts of any associated revenues, assets, and liabilities for the last three fiscal years and any subsequent period. Also, address materiality in terms of qualitative factors that a reasonable investor would deem important in making an investment decision, including the potential impact of corporate activities upon a company's reputation and share value. As you may be aware, various state and municipal governments, universities, and other investors have proposed or adopted divestment or similar initiatives regarding investment in companies that do business with U.S.-designated state sponsors of terrorism. Your materiality analysis should address the potential impact of the investor sentiment evidenced by such actions directed toward companies that have business contacts associated with Cuba, Iran, Sudan, or Syria.
