ITEM 2. Acquisition or Disposition of Assets.

On February 24, 2003, the Registrant and Norco, Inc. (“Norco”), its wholly owned subsidiary, completed the previously announced sale of the power transmission products and specialty mechanical systems business of Norco, along with substantially all of the assets of Norco (the “Norco Sale”), to Marathon Power Technologies Company (“Marathon”) for approximately \$51 million in cash and an approximately \$1 million reimbursement for certain state income taxes due as a result of the Norco Sale. Marathon, headquartered in Waco, Texas, is a leading producer of vented nickel cadmium batteries widely used in commercial, corporate and military aircraft, and is a wholly-owned subsidiary of TransDigm, Inc.

The purchase price for the Norco Sale was determined based on arms-length negotiations between the parties. The Registrant used the proceeds of the Norco Sale to retire and reduce existing debt obligations.

As part of the Norco Sale, Norco also leased all of the real property that directly relates to the Norco business (the “Real Property”) to Marathon. The lease agreement contains a one (1)-year term with an option under which Marathon may elect to purchase the Real Property from Norco at the end of the term for a purchase price of \$1.8 million. In the event Marathon opts to not purchase the Real Property, the term of the lease agreement shall automatically be extended for an additional six (6)-month period, after which time Marathon must vacate the Real Property.
