New Officers Appointed

Calgary, Alberta-- Tyler Resources Inc. is pleased to announce the recent appointment of Mr. Jean-Pierre Jutras, P.Geol, as a new member of its Board of Directors and as President and Chief Operating Officer. Mr. Jutras is a Professional Geologist who graduated with honors in Geology from the University of Alberta in 1991. He has been actively employed in many facets of the exploration industry for the last 10 years in over 9 countries. Mr. Jutras also serves as a director and officer of a number of publicly listed companies and served as Interim President for Tyler Resources from June to November, 2001.

The Company would also like to welcome Mr. Regan Chernish, P.Geol, as Vice-President of Exploration. Mr. Chernish brings to the Company a wealth of "hands-on" experience in diamond exploration from his last 10 years of work in Canada's Northwest Territories. During that time, Mr. Chernish has worked extensively as a Consultant with Covello Bryan and Associates, providing services to companies exploring for diamonds in Canada's North before working as Project Geologist for Diavik Diamond Mines Inc. from 1997 to 2001. Mr. Chernish will be instrumental in the future exploration and expansion of the Tyler Diamond Property portfolio.

Mr. James Devonshire has been appointed the Chairman and Chief Executive Officer of the Company.

Tyler Resources Inc. is an exploration company with a promising diamond exploration portfolio in the Northwest Territories and Coronation Gulf, base and precious metal prospects in Mexico and a gold property in Saskatchewan.

All statements, other than statements of historical fact, in this news release are forward-looking statements that involve various risks and uncertainties, including, without limitation, statements regarding the potential extent of mineralization and reserves, exploration results and future plans and objectives of Tyler Resources Inc. These risks and uncertainties include, but are not restricted to, the amount of geological data available, the uncertain reliability of drilling results and geophysical and geological data and the interpretation thereof and the need for adequate financing for future exploration and development efforts. There can be no assurance that such statements will prove to be accurate. Actual results and future events could differ materially from those anticipated in such statements. These and all subsequent written and oral forward-looking statements are based on the estimates and opinions of management on the dates they are made and are expressly qualified in their entirety by this notice. The Company assumes no obligation to update forward-looking statements should circumstances or management's estimates or opinions change.
