Calgary, Alberta – January 30, 2002 – (Nasdaq: TCLPZ) – TC PipeLines, LP today announced that the Federal Energy Regulatory Commission has issued a final certificate, approving the proposed expansion of Tuscarora Gas Transmission Company's pipeline system. TC PipeLines holds a 49% general partner interest in Tuscarora. The Tuscarora expansion consists of three compressor stations and a 14-mile pipeline extension from the current terminus of the Tuscarora pipeline system near Reno, Nevada to Wadsworth, Nevada.

"We are very pleased to have achieved this important milestone," said Ron Turner, President and Chief Executive Officer of TC PipeLines GP, Inc., general partner of TC PipeLines, LP. "The Tuscarora expansion provides TC PipeLines with another opportunity to grow through our existing asset base."

The expansion is expected to cost US\$60 million and will increase Tuscarora's capacity from 127 million cubic feet per day to 220 million cubic feet per day. Approximately two-thirds of the capital budget is expected to be spent in 2002. Commercial operations are targeted to begin in November of this year with approximately 40% of the expansion volumes flowing.
