Independent Auditors' Report

The Members
Jefferies Employees Opportunity Fund, LLC:

We have audited the accompanying statement of financial condition of Jefferies Employees Opportunity Fund, LLC (the Fund) as of December 31, 2001. This financial statement is the responsibility of the Fund's management. Our responsibility is to express an opinion on this statement of financial condition based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit of a statement of financial condition includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Jefferies Employees Opportunity Fund, LLC as of December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

KPMG LLP

January 24, 2002, except as to Note 8
of the notes to the statement of financial
condition, which is as of February 15, 2002.

Notes to Statement of Financial Condition

(1) Summary of Significant Accounting Policies

Jefferies Employees Opportunity Fund, LLC (the "Fund") is a Delaware limited liability company. The Fund commenced operations on July 1, 2000. The investment objective of the Fund is to generate returns for its members by making, holding and disposing of a diverse portfolio of primarily below investment grade debt and equity investments. The Fund was established to offer members the opportunity to participate in the trading, investment and brokerage activities of the High Yield Department of Jefferies & Company, Inc. ("Jefferies"). The Fund employs a trading and investment strategy substantially similar to that historically employed by Jefferies' High Yield Department. The Fund acquires, actively manages and trades a diverse portfolio of primarily non-investment grade investments consisting of the following three asset groups: High Yield Debt, Special Situation Investments, and, to a lesser extent, Bank Loans. The Fund has appointed Jefferies to serve as manager to the Fund (the "Manager"). The Fund participates in the trading and investment activities of the High Yield Department on an equivalent basis with Jefferies. To permit such participation, the Fund has been registered as a broker dealer under the Securities Exchange Act of 1934 and with the National Association of Securities Dealers.

The Fund will be in effect until January 18, 2007, unless extended for up to three successive one-year terms by the vote of the Manager and a majority of the member interests.

The Fund, in connection with its activities as a broker-dealer, does not hold funds or securities for customers. Accordingly, the computation for determination of reserve requirements pursuant to Rule 15c3-3 has been omitted.

(a) *Securities Transactions*

The Fund records its securities transactions on a trade-date basis. Securities owned and securities sold, not yet purchased, are valued at market.

(b) *Fair Value of Financial Instruments*

Substantially all of the Fund's financial instruments are carried at fair value or amounts approximating fair value. Assets, including cash and cash equivalents, securities borrowed and certain receivables, are carried at fair value or contracted amounts which approximate fair value due to the short period to maturity. Similarly, liabilities, including certain payables, are carried at amounts approximating fair value. Securities owned and securities sold, not yet purchased, are valued at quoted market prices, if available. For securities without quoted prices, the reported fair value is estimated by using various sources of information, including quoted prices for comparable securities.

(c) *Federal and State Income Taxes*

Under current federal and applicable state limited liability company laws and regulations, limited liability companies are treated as partnerships for tax reporting purposes and, accordingly, are not subject to income taxes. Therefore, no provision for income taxes has been made in the Fund's financial statements. For tax purposes, income or losses are included in the tax returns of the members.

(d) Cash and Cash Equivalents

Cash equivalents consist of money market funds, which are part of the cash management activities of the Fund, and generally mature within 90 days. At December 31, 2001, such cash equivalents amounted to \$13,662,812.

(e) Allocation of Income and Expense

Income and expense are allocated 100% to the members based on the pro rata share of their capital contributed to the Fund.

(f) Use of Estimates

Management of the Fund has made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenues and expenses to prepare these financial statements in conformity with generally accepted accounting principles. Actual results could differ from those estimates.

(2) Receivable from, and Payable to, Brokers and Dealers

The following is a summary of the major categories of receivable from, and payable to, brokers and dealers as of December 31, 2001:

Receivable from brokers and dealers:		
Securities borrowed	\$	195,937
Other		<u>3,486,165</u>
	\$	<u>3,682,102</u>
Payable to brokers and dealers – other	\$	<u>4,413,373</u>

The Fund borrows securities to cover short sales, from which the Fund derives interest revenue. Receivable from, and payable to, brokers and dealers are with affiliates. See note 5.

(3) Securities Owned and Securities Sold, Not Yet Purchased

The following is a summary of the market value of major categories of securities owned and securities sold, not yet purchased, as of December 31, 2001:

	<u>Securities owned</u>	<u>Securities sold, not yet purchased</u>
Corporate debt securities	\$ 27,077,023	325,202
Corporate equity securities	<u>4,191,205</u>	<u>89,587</u>
	\$ <u>31,268,228</u>	<u>414,789</u>

(4) Revolving Credit Facility

In June 2001, the Fund entered into a revolving credit facility agreement to be used in connection with the Fund's investing activities. At December 31, 2001, \$23,300,000 was available under the terms of the revolving credit facility agreement. The revolving credit facility expires June 2002, but provides for annual extensions. Loans under this facility bear interest at 15 to 25 basis points plus LIBOR. The Fund incurs a liquidity fee on the total amount available under the revolving credit facility. At December 31, 2001, there was no outstanding balance under the revolving credit facility.

The Fund incurred costs in securing the revolving credit facility. These costs have been capitalized and are being amortized over seven years. Net unamortized costs of \$108,397 are included in other assets.

(5) Related Party Transactions

Included in members' capital is an investment in the Fund by Jefferies of \$9,525,000.

Included in receivable from brokers and dealers is \$3,486,165 due from Jefferies and \$195,937 due from Helfant Group, Inc. (formerly W&D Securities, Inc.), an affiliate of Jefferies.

The Fund receives interest income from Helfant Group, Inc. related to stock borrow transactions.

Included in payable to brokers and dealers is \$4,370,423 due to Jefferies.

Payable to Jefferies of \$301,632 is for amounts due for direct trading expenses and general and administrative expenses.

Jefferies, in its capacity as Manager, receives management fees equal to 3% per annum of the sum of 100% of the average balance of securities owned and 98% of average balance of securities sold, not yet purchased.

Jefferies provides general and administrative services for the Fund and is reimbursed by the Fund.

(6) Financial Instruments

(a) *Off-Balance Sheet Risk*

The Fund has contractual commitments arising in the ordinary course of business for securities sold, not yet purchased. These financial instruments contain varying degrees of off-balance sheet risk whereby the market values of the securities underlying the financial instruments may be in excess of, or less than, the contract amount. The settlement of these transactions is not expected to have a material effect upon the Fund's financial statements.

(b) Credit Risk

In the normal course of business, the Fund is involved in the execution, settlement and financing of various principal securities transactions. Securities transactions are subject to the risk of counterparty nonperformance. However, transactions are collateralized by the underlying security, thereby reducing the associated risk to changes in the market value of the security through settlement date.

The Fund seeks to control the risk associated with these transactions by establishing and monitoring collateral and transaction levels daily.

(c) Concentration of Credit Risk

The Fund's activities are executed exclusively with Jefferies. Concentrations of credit risk can be affected by changes in economic, industry or geographical factors. The Fund seeks to control its credit risk and the potential risk concentration through a variety of reporting and control procedures including those described in the preceding discussion of credit risk.

(7) Net Capital Requirement

The Fund is subject to the Securities and Exchange Commission (SEC) Uniform Net Capital Rule (Rule 15c3-1), which requires the maintenance of minimum net capital. The Fund has elected to use the alternative method permitted by Rule 15c3-1, which requires that the Fund maintain minimum net capital, as defined, equal to the greater of \$250,000 or 2% of aggregate debit balances arising from customer transactions, as defined.

At December 31, 2001, the Fund had net capital of \$19,701,819, which was \$19,451,819 in excess of required net capital.

(8) Subsequent Events

On February 15, 2002, the Fund borrowed \$4,200,000 under the revolving credit facility. Also on February 15, 2002, the Fund made a distribution of income to the Fund members of \$9,270,380.
