NOTES TO CONSOLIDATED FINANCIAL STATEMENT
DECEMBER 31, 2001**

NOTE 1 - ORGANIZATION AND NATURE OF BUSINESS

Lek Securities Corporation (The "Company"), formerly known as Lek, Schoenau & Company, Inc., was incorporated January 5, 1990 under the laws of the State of Delaware. The Company is a registered broker-dealer with the Securities and Exchange Commission and is a member of the New York Stock Exchange and other principal exchanges. The Company is also a self-clearing member of the Depository Trust and Clearing Corporation and the Options Clearing Corporation.

The Company is engaged in both providing order management and clearing services to institutions and professional traders.

Lek Securities Europe B.V., wholly owned foreign subsidiary, formed in 2001, is organized under the laws of Amsterdam. This subsidiary is awaiting approval by the Amsterdam authorities to conduct business as a registered broker-dealer. At this time, operations have not commenced.

NOTE 2 - SIGNIFICANT ACCOUNTING PRINCIPLES

- (a) The consolidated financial statements include the accounts of Lek Securities Corporation and its wholly owned subsidiary, Lek Securities Europe B.V. All significant intercompany accounts and transactions have been eliminated. Assets and liabilities in foreign currencies are translated at year-end rates of exchange, while the income statement accounts for the subsidiary are translated at average rates of exchange for the year.
- (b) Cash and cash equivalents represent cash and highly liquid investments with maturity dates of three months or less from the date of acquisition.
- (c) Securities transactions (and related commission revenue and expense) are recorded on a trade date basis, which is generally three business days before settlement date.
- (d) Securities owned are valued at quoted market prices with the resulting unrealized gains and losses reflected in the statement of operations. Securities not readily marketable are valued at fair value as determined by management.
- (e) The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

NOTE 2 - CONTINUED

- (f) Furniture, equipment and leasehold improvements are stated at cost less accumulated depreciation and amortization. Depreciation and amortization is computed on a straight line basis over the estimated useful lives of the assets.
- (g) The Company maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits.

**NOTE 3 - RECEIVABLE FROM CLEARING ORGANIZATION AND OTHER
BROKER - DEALERS**

The Company clears certain of its proprietary and customer transactions through other broker-dealers on a fully disclosed basis. The receivable from clearing organization and other broker-dealers represents primarily cash held by these organizations for commissions generated in December 2001 and received in January 2002.

The Company is engaged in various trading and brokerage activities whose counterparties include broker-dealers, banks, and other financial institutions. In the event counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparty or issuer of the instrument. It is the Company's policy to review, as necessary, the credit standing of each counterparty with which it conducts business.

As stated in Note 2, the Company records securities transactions, commission revenue and related expenses on a trade date basis. In the normal course of business the Company's customer activities involve the execution, settlement, and financing of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss. Subsequent to the balance sheet date, all unsettled trades at December 31, 2001 settled with no resulting liability to the Company.

NOTE 4 - LOAN TO SHAREHOLDER

The loan to shareholder is supported by a promissory note bearing 11% interest. The note matures on January 1, 2006.

**LEK SECURITIES CORPORATION
AND SUBSIDIARY
NOTES TO CONSOLIDATED FINANCIAL STATEMENT
DECEMBER 31, 2001**

NOTE 5 - INCOME TAXES

For income tax purposes, the shareholders have elected that the Company be treated as an "S" corporation under Subchapter S of the Internal Revenue Code and as a Small Business Corporation under New York State Corporate Franchise Tax Law. Accordingly, no provision has been made for Federal income taxes since the net income or loss of the Company is to be included in the tax returns of the individual shareholders. The provision for income taxes represents primarily local taxes for the year ended December 31, 2001.

NOTE 6 - SUBORDINATED BORROWINGS

At December 31, 2001, the Company had borrowings of \$1,982,714 from shareholders pursuant to written subordination agreements. The subordination agreements are subject to the rules and regulations of the Securities and Exchange Commission and as such are available in computing net capital under the Securities and Exchange Commission's uniform net capital rule. The agreements mature on various dates through January 31, 2004, unless extended. The loans are interest bearing at a rate of 10% per annum. To the extent that such borrowing are required for the Company's continued compliance with the minimum net capital requirements, they may not be repaid.

NOTE 7 - STOCK OPTION PLAN

In March 1999, the Company established a plan to grant stock options to employees allocating 10% ownership of the Company to the plan. The plan provides that the option price be determined by the Board of Directors at its discretion. The term of the option shall not be more than ten years from the date the option is granted. At December 31, 2001, the maximum number of options available under the plan is 65.27. At that date, 56 options had been granted and none had been exercised.

NOTE 8 - PROFIT SHARING PLAN

The Company has a qualified, noncontributory defined-benefit retirement plan covering substantially all of its employees. This plan is based on each employee's years of service. An employee becomes fully vested upon completion of five years of qualifying service. During 2001, the Company contributed \$198,450 to the plan.
