CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITOR'S REPORT

Board of Directors
Euro American Capital Corporation

We have audited the accompanying statement of financial condition of Euro American Capital Corporation as of December 31, 2001, and the related statements of income, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Euro American Capital Corporation as of December 31, 2001, and the results of its operations and its cash flows for the year then ended, in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained in Schedules I and II is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by rule 17a-5 under the Securities Exchange Act of 1934. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Supplemental Disclosures of Cash Flow Information:

There was no cash paid during the year for interest or income taxes.

EURO AMERICAN CAPITAL CORPORATION
Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies

Nature of Business:

Euro American Capital Corporation (Company) was incorporated in July 1997 as a Texas corporation. The Company is a wholly-owned subsidiary of Richard & Stout, Inc. (Parent).

The Company is a broker/dealer in securities registered with the Securities and Exchange Commission (SEC) under the exemptive provisions of SEC rule 15c3-3 (k)(2)(ii). These provisions require that all the funds and securities belonging to the Company's customers be handled by a clearing broker-dealer.

The Company's securities business consists primarily of the sale of interests in private placement offerings only on a best effort subscription basis. The Company had no general securities revenue during the year. The Company's customers are individuals located throughout the United States.

Significant Accounting Policies:

Basis of Accounting

The Company operates under the provisions of Paragraph (k)(2)(ii) of Rule 15c3-3 of the SEC and, accordingly, is exempt from the remaining provisions of that Rule. Essentially, the requirements of Paragraph (k)(2)(ii) provide that the Company clear all transactions on behalf of customers on a fully-disclosed basis with a clearing broker/dealer, and promptly transmit all customer funds and securities to the clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers and maintains and preserves all related books and records as are customarily kept by a clearing broker/dealer.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Property and Equipment

Property and equipment are carried at cost less accumulated depreciation. Depreciation is calculated using the straight-line method over estimated useful lives of five years.

EURO AMERICAN CAPITAL CORPORATION
Notes to Financial Statements

Note 1 - Nature of Business and Summary of Significant Accounting Policies (Continued)

Underwriting Revenue

The Company recognizes revenue on the sale of interests in private placement offerings when customer subscriptions to such offerings are funded.

Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at year-end rates of exchange, while the income statement accounts are translated at average rates of exchange for the year. Gains or losses resulting from foreign currency transactions are reflected in other expenses in the accompanying statement of income and totaled approximately \$4,700 for 2001.

Note 2 - Transactions with Clearing Broker/Dealer

The agreement with the clearing broker/dealer provides for clearing charges at a fixed rate multiplied by the number of tickets traded by the Company. The agreement also requires the Company to maintain a minimum of \$9,000 as a deposit in an account with the clearing broker/dealer.

Note 3 - Net Capital Requirements

The Company is subject to the SEC uniform net capital rule (Rule 15c3-1), which requires the maintenance of a minimum amount of net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1. Rule 15c3-1 also provides that equity capital may not be withdrawn or cash dividends paid if the resulting net capital ratio would exceed 10 to 1. At December 31, 2001, the Company had net capital and net capital requirements of \$87,757 and \$5,000, respectively. The Company's net capital ratio was .81 to 1.

Note 4 - Property and Equipment

Property and equipment consists of office equipment carried at a cost of \$2,131, less accumulated depreciation of \$1,691. Depreciation expense for the year was \$426 and is reflected in occupancy and equipment costs in the accompanying statement of income.

Note 5 - Income Taxes

The Company files its income tax return on the cash basis method. The Company has approximately \$63,000 in future deductible expenses due to the cash basis method of accounting used for income taxes. These future deductible expenses create a deferred tax asset of approximately \$9,500; however, the entire amount has been offset by valuation allowance.

EURO AMERICAN CAPITAL CORPORATION
Notes to Financial Statements

Note 6 - Related Party Transactions

The Company is under the control of its Parent and the existence of that control creates operating results and financial position significantly different than if the Companies were autonomous.

The Parent has a management and consulting agreement (Agreement) with the Company. The Agreement requires the Parent to provide management and other services to the Company for a term of five years beginning May 1998 and expiring April 2003, unless terminated by either party with 30 days written notice. Monthly fees for such services are \$25,000. The Agreement allows the Company to waive any such portion of the monthly fees in order for the Company to remain in compliance with the minimum net capital requirements. (See Note 3) The Agreement states that all monthly fees waived are not to be payable and there is no recourse to the Company. The total fees incurred during 2001 under this Agreement totaled \$84,519. Management fees waived during 2001 totaled \$215,481. The Agreement was not consummated on terms equivalent to arms length transactions.

The Parent paid \$264,124 in consulting fees to the Company during 2001.

Note 7 - Off-Balance-Sheet Risk

As discussed in Note 1, the Company's customers' securities transactions are introduced on a fully disclosed basis with its clearing broker/dealer. The clearing broker/dealer carries all of the accounts of the customers of the Company and is responsible for execution, collection and payment of funds, and receipt and delivery of securities relative to customer transactions. Off-balance-sheet risk exists with respect to these transactions due to the possibility that customers may be unable to fulfill their contractual commitments wherein the clearing broker/dealer may charge any losses it incurs to the Company. The Company seeks to minimize this risk through procedures designed to monitor the credit worthiness of its customers and that customer transactions are executed properly by the clearing broker/dealer.

Aggregate indebtedness on Schedule I	<u>\$ 70,914</u>

PHILLIP V. GEORGE, PLLC
CERTIFIED PUBLIC ACCOUNTANT

**INDEPENDENT AUDITOR'S REPORT
ON INTERNAL CONTROL**

Board of Directors
Euro American Capital Corporation

In planning and performing our audit of the financial statements and supplemental schedules of Euro American Capital Corporation (the Company) for the year ended December 31, 2001, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001 to meet the SEC's objectives.

This report is intended solely for use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc. and other regulatory agencies that rely on rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
