*b) Income Taxes*

The Company has elected to be treated as an "S" Corporation under the provisions of the Internal Revenue Code and New York State tax regulations. Under the provisions, the Company does not pay federal or state corporate income taxes on its taxable income. Instead, the stockholder is liable for individual income taxes on his respective share of the Company's taxable income. The Company continues to pay New York City general corporation taxes.

*c) Cash and Cash Equivalents*

The Company considers demand deposited money market funds to be cash equivalents.

*d) Equipment*

Equipment is carried at cost and is depreciated over a useful life of 5-7 years using accelerated methods.

*e) Use of Estimates*

Management uses estimates and assumptions in preparing financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, and the reported amounts of revenues and expenses.

**Note 3 - Profit Sharing Plan**

The Company is a sponsor of a defined contribution profit sharing plan for its eligible employees. Contributions to the plan if any are determined by the employer and come out of its current accumulated profits. The employer's contribution for any fiscal year shall not exceed the maximum allowable as a deduction to the employer under the provisions of the IRS Code Section 404, as amended, or replaced from time to time. The Company's liability to the plan for the year ended December 31, 2001 was \$541,276.

**JNK SECURITIES CORP.**  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2001

**Note 8- Financial Instruments With Off-Balance Sheet Credit Risk**

As a securities broker, the Company is engaged in buying and selling securities for a diverse group of institutional and individual investors. The Company introduces these transactions for clearance to another broker-dealer on a fully disclosed basis.

The Company's exposure to credit risk associated with non-performance of customers in fulfilling their contractual obligations pursuant to securities transactions can be directly impacted by volatile trading markets which may impair customers' ability to satisfy their obligations to the Company and the Company's ability to liquidate the collateral at an amount equal to the original contracted amount. The agreement between the Company and its clearing broker provides that the Company is obligated to assume any exposure related to such non-performance by its customers.

The Company seeks to control the aforementioned risks by requiring customers to maintain margin collateral in compliance with various regulatory requirements and the clearing broker's internal guidelines. The Company monitors its customer activity by reviewing information it receives from its clearing broker on a daily basis, and requiring customers to deposit additional collateral, or reduce positions, when necessary.

**Note 9- Stockholders' Equity**

Exchanged 5 shares of non-voting stock for 5 shares of voting stock.

Purchased 5 shares of its voting stock for \$644,250.

**Note 10- Net Capital Requirement**

At December 31, 2001, the Company had net capital of \$5,135,345, which was \$4,976,139 in excess of its required net capital of \$159,206. The Company's net capital ratio was 46.50%.

We have audited the accompanying statement of financial condition of JNK Securities Corp. as of December 31, 2001. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. To the Officers and Directors of  
JNK Securities Corp.

Gentlemen:

In planning and performing our audit of the financial statements of JNK Securities Corp. for the year ended December 31, 2001, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion of the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5 (g) (1) and (2) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by JNK Securities Corp. that we considered relevant to the objectives stated in Rule 17a-5 (g), (1) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3 (a) (II); (2) in complying with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company (1) in making the quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by rule 17a-13; (2) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (3) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by Rule 15c3-3, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives.

Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) Lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that may be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for determining compliance with the exemption provisions of Rule 15c3-3, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the Commission's objectives.

This report recognizes that it is not practicable in an organization the size of JNK Securities Corp. to achieve all the divisions of duties and cross checks generally included in a system of internal accounting control and that alternatively greater reliance must be placed on surveillance by management.

Further, that no material differences existed between our computations of your net capital, or determination of the reserve requirements, and your corresponding Focus Report Part IIA filing, except as noted in Schedule 1.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies, which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.

Respectfully submitted,
