**Independent Auditors' Report on
Internal Control Required by SEC Rule 17a-5**

The Board of Directors
Mellon Financial Markets, LLC:

In planning and performing our audit of the financial statements of Mellon Financial Markets, LLC (the Company), a wholly owned subsidiary of Mellon Financial Corporation, for the year ended December 31, 2001, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (the SEC), we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g): (1) in making the periodic computations of aggregate debits and net capital under Rule 17a-3(a)(11) and reserve required by Rule 15c3-3(e); (2) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by Rule 17a-13; (3) in complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System; and (4) in obtaining and maintaining physical possession or control of all fully paid securities of customers as required by Rule 15c3-3.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and the transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

The Board of Directors
Mellon Financial Markets, LLC
Page 2

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the SEC's objectives.

This report is intended solely for the information and use of the board of directors, management, the National Association of Securities Dealers, Inc., the Securities and Exchange Commission and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.

Independent Auditors' Report

The Board of Directors
Mellon Financial Markets, LLC:

We have audited the accompanying statement of financial condition of Mellon Financial Markets, LLC (the Company), a wholly owned subsidiary of Mellon Financial Corporation, as of December 31, 2001. This statement of financial condition is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Mellon Financial Markets, LLC as of December 31, 2001 in conformity with accounting principles generally accepted in the United States of America.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

(1) Organization

Mellon Financial Markets, LLC (the Company) is a registered broker/dealer in securities with the Securities and Exchange Commission (SEC) and is a member of the National Association of Securities Dealers, Inc. (NASD). The Company is a wholly owned subsidiary of Mellon Financial Corporation (MFC).

The Company deals in a broad range of products, including U.S. treasury and federal agency securities, asset-backed and mortgage-related securities, corporate debt securities, municipal securities and money market instruments. The Company also acts as agent for Mellon Bank, N.A. (the Bank) and MFC in distributing various other investment products including deposits.

The Company also engages in the underwriting of certain securities including federal agency securities, municipal securities, corporate debt, asset-backed and mortgage-related securities and equity securities.

(2) Significant Accounting Policies

(a) *Security Transactions*

Securities owned and securities sold, but not yet purchased, are reported on a trade date basis and stated at market value. Interest on securities owned is accrued as earned.

(b) *Repurchase and Resale Agreements*

Securities purchased under agreements to resell and securities sold under agreements to repurchase are recorded at amounts at which the securities will be resold or reacquired, plus accrued interest, as specified in the respective agreements. It is the Company's policy to take possession of securities purchased under agreements to resell and to obtain possession of collateral with a market value equal to or in excess of the principal amount loaned under resale agreements.

(c) *Income Taxes*

The Company is a single member limited liability company. A single member limited liability company generally is treated as a disregarded entity for federal tax purposes. As the Company is considered a division of MFC, federal tax expense will continue to be recorded by the Company. For state tax purposes, liabilities arising from the operations of the Company are the responsibility of MFC.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

The Company's results for the year ended December 31, 2001 will be included in the consolidated MFC federal tax return for the year ended December 31, 2001. Pursuant to a tax-sharing agreement with MFC, the current tax liability is determined on a separate return basis with benefits for net losses and credits recorded when realized in the consolidated MFC tax return. Deferred income taxes are computed on a separate entity basis.

Deferred tax assets and liabilities are recognized for the expected future tax consequences attributable to differences between the financial statement carrying amount and the tax basis of assets and liabilities. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(d) Use of Estimates

The preparation of the statement of financial condition in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the statement of financial condition and accompanying notes. Actual results could differ from those estimates.

(3) Regulatory Requirements

(a) Cash and Securities Segregated Under Federal and Other Regulations

Cash of \$11,000 has been segregated in a special reserve bank account for the benefit of customers under Rule 15c3-3 of the Securities and Exchange Commission.

(b) Net Capital Requirement

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1) which requires the maintenance of minimum net capital. The Company has elected to compute its net capital under the alternative method, permitted by the rule, which requires that the Company maintain minimum net capital, as defined, equal to the greater of \$1,000,000 or 2% of aggregate debit balances arising from customer transactions, as defined, and any additional capital requirements for resale agreements. At December 31, 2001, the Company had net capital of \$31,735,535 which was \$30,735,535 in excess of required net capital.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

(4) **Related Party Transactions**

In conducting its business, the Company engages in transactions with affiliated entities of MFC. Under operating agreements, certain affiliates provide the Company with services related to trading activities. The significant affiliate amounts at December 31, 2001 are as follows:

Accounts receivable	\$	2,461,965
Securities sold under agreements to repurchase		49,371,919
Subordinated borrowings		20,000,000

(5) **Securities Owned and Securities Sold, But Not Yet Purchased**

Marketable securities owned and securities sold, but not yet purchased, at market values, as of December 31, 2001 consist of the following:

	<u>Securities owned</u>	<u>Securities sold, but not yet purchased</u>
U.S. government and agency obligations	\$ 9,461,940	\$ 3,013,125
State and municipal government obligations	50,939,198	—
Asset-backed securities	18,329,777	—
Corporate debt securities	33,706,880	—
Commercial paper	5,762,172	—
	<u>\$ 118,199,967</u>	<u>\$ 3,013,125</u>

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

Securities not readily marketable include investment securities (a) for which there is no market on a securities exchange or no independent publicly quoted market, (b) that cannot be publicly offered or sold unless registration has been effected under the Securities Act of 1933, or (c) that cannot be offered or sold because of other arrangements, restrictions, or conditions applicable to the securities or to the Company. At December 31, 2001, these securities not readily marketable had an estimated fair value of:

Asset-backed securities	\$	3,898,991	
Corporate debt securities		446,225	—
		4,345,216	—
	\$	4,345,216	

(6) Receivable From and Payable to Customer and Broker-Dealer

		<u>Receivable</u>		<u>Payable</u>
Customer	\$	2,219,152	\$	—
Customer trades pending settlement		1,619,855		29,499,324
Broker-dealer		3,001,875		637,201
Broker-dealer trades pending settlement		213,578		1,105,977

Accounts receivable from and payable to customer and broker-dealer include amounts due on trading securities. Securities owned by customer and broker-dealer are held as collateral for the receivable. Such collateral is not reflected in the financial statements.

Customer and broker-dealer trades pending settlement represent the contract price of securities to be delivered or received by the Company. Should the counterparty fail to deliver the securities to the Company, the Company may be required to purchase identical securities on the open market. The value of such securities at December 31, 2001 approximates the amounts owed. Trades pending settlement at December 31, 2001 were settled without an adverse effect of the Company's statement of financial condition.

(7) Securities Sold Under Agreement to Repurchase

At December 31, 2001, the market value of the securities sold subject to repurchase was \$49,769,986 and the average effective interest rate was 2.68%.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

(8) **Income Taxes**

The tax effect of temporary differences that give rise to significant portions of deferred tax assets and liabilities at December 31, 2001 are as follows:

Deferred tax assets:	
Deferred management incentive	\$ 1,305,585
Intangible assets	<u>777,499</u>
Gross deferred tax asset	2,083,084
Deferred tax liabilities:	
Fixed assets	<u>10,270</u>
Gross deferred tax liabilities	<u>10,270</u>
Net deferred tax asset	2,072,814
Valuation allowance	<u>—</u>
Net deferred tax asset, net of valuation allowance	<u>\$ 2,072,814</u>

The Company determined that it was not required to establish a valuation allowance for deferred tax assets in accordance with Statement of Financial Accounting Standards (SFAS) No. 109 since it is more likely than not that the deferred tax asset will be realized through carryback to taxable income in prior years, future reversals of existing taxable temporary differences and, to lesser extent, future taxable income.

As noted in note 4, the Company realized a federal tax benefit of \$226,806 recorded directly to members' capital as a result of the Company's employees exercising stock of Mellon Financial Corporation.

(9) **Subordinated Borrowings**

The borrowings under subordination represent cash subordination agreements with an affiliate. The subordinated borrowings bear a rate of one month LIBOR (London Interbank Offered Rate) plus 35 basis points, to be reset on the first business day of each month, maturing December 30, 2004. The subordinated borrowings have been approved by the NASD and are available in computing net capital under the SEC's uniform net capital rule. To the extent that such borrowings are required for the Company's continued compliance with minimum net capital requirements, they may not be repaid.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

(10) Pension and Employee Benefit Plans

The Company participates in a noncontributory defined benefit pension plan, sponsored by MFC, which covers substantially all employees. Because the Company participates in the plan with other subsidiaries of MFC, an analysis setting forth the plan's funded status at December 31, 2001, cannot be separately determined for the Company. At December 31, 2001, the plan was overfunded.

The Company participates in a defined contribution retirement savings plan, sponsored by MFC, covering substantially all employees. Employees become eligible to participate upon first day of employment. If a participant decides to contribute, a portion of the contribution is matched by MFC.

The Company participates in other employee benefit plans, sponsored by MFC, that provide healthcare, life insurance and other post-retirement benefits covering substantially all retired employees. The plans include participant contributions, deductibles, co-insurance provisions and service-related eligibility requirements. Since the Company participates in the plans with other subsidiaries of MFC, an analysis setting forth the funded status of the plans at December 31, 2001 cannot be separately determined for the Company.

(11) Fair Value of Financial Instruments

SFAS No. 107, "Disclosures about Fair Value of Financial Instruments," requires the disclosure of the estimated fair value of on- and off-balance-sheet financial instruments. Substantially all of the Company's financial instruments are recorded at their current fair value.

(12) Commitments and Financial Instruments With Off-Balance Sheet Risk and Concentrations of Credit Risk

The Company is engaged in various trading and brokerage activities with counterparties, which are primarily domestic financial institutions and the U.S. government and its agencies. In the event counterparties do not fulfill their obligations, the Company may be exposed to credit risk. The risk of default depends on the credit worthiness of the counterparty or issuer of the instrument. The Company manages credit risk by dealing only with approved counterparties under specific credit limits and by monitoring the amount of outstanding contracts by customer and in the aggregate against such limits. Counterparty limits are monitored on an ongoing basis.

Market risk arises should the value of the securities committed to be underwritten by the company decline before the closing of the transaction and changes in the market value of contracts as a result of the fluctuations in interest and currency rates. The Company limits its exposure to market risk by generally entering into matching or offsetting positions and by establishing and monitoring limits on unmatched positions. The overall level of market risk from financial instruments the Company is exposed to, is often limited by other financial instruments recorded both on- and off-balance-sheet.

MELLON FINANCIAL MARKETS, LLC

Notes to Statement of Financial Condition

December 31, 2001

As an overall trading strategy to control market risk, the Company may enter into transactions in derivative financial instruments, which include forward and future contracts and options. These derivative financial instruments are typically used by the Company to hedge various trading products.

Forward and futures contracts provide for the delayed delivery or purchase of securities at a specified future date at a specified price or yield. Futures contracts are exchange traded, and cash settlement is made on a daily basis for market movements. The clearing organization acts as the counterparty to specific transactions and bears the risk of delivery to and from counterparties for specific positions.

Options on futures contracts allow the owner of the option to purchase or sell the underlying futures contract at a specified price and within a specified period of time. Options on U.S. government securities are contracts that allow the owner of the option to purchase or sell U.S. government securities at a specified price within a specified period of time. The clearing organization acts as the counterparty to specific transactions and bears the risk of delivery to and from counterparties for specific positions. The Company had no options purchased or options written at December 31, 2001.

At December 31, 2001, the Company had sold futures contracts with a notional amount of \$8,000,000.

Additionally, the Company's business involves the participation in underwriting activities, primarily with public entities in and contiguous to the state of Pennsylvania. As part of this activity, the Company executes commitments to acquire securities as part of the underwriting and executes security sale transactions with customers. The Company had no securities committed to be underwritten at December 31, 2001.
