Concentration of Credit Risk

The Company is engaged in various investment and brokerage activities in which counterparties primarily include broker-dealers, banks, and other financial institutions. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
