INDEPENDENT AUDITORS' REPORT

Board of Directors
Ziv Investment Company

We have audited the accompanying statement of financial condition of Ziv Investment Company as of December 31, 2001 that you are filing pursuant to rule 17a-5 under the Securities and Exchange Act of 1934. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Ziv Investment Company as of December 31, 2001, in conformity with accounting principles generally accepted in the United States of America.

ZIV INVESTMENT COMPANY

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2001

NOTE 1 - SIGNIFICANT ACCOUNTING POLICIES

Organization - The Company was incorporated under the laws of the state of Delaware on October 29, 1969. The Company is registered as a broker/dealer with the Securities and Exchange Commission and is also a member of the National Association of Securities Dealers, Inc., the Chicago Stock Exchange, Inc. and the Chicago Board of Options Exchange, Inc. The Company's primary activity is the sale of securities.

Customers Transactions - Customers' securities transactions are recorded on a settlement date basis. Commission revenue and related expense are recorded on a trade date basis which is the same business day as the transaction date.

Firm Securities Transactions - Securities transactions of the Company are recorded on a trade date basis. Securities in firm trading accounts are carried at market value or estimated fair value as determined by management for book purposes. The resulting difference between cost and market (or fair value) is included in income.

Depreciation - Depreciation is provided for using the straight-line method over estimated useful lives of three, five and seven year periods.

Leasehold Improvements - Amortization is provided using the straight-line method over 39.5 years.

Cash Equivalents - Cash equivalents are defined as certificates of deposit and U.S. government obligations with a maturity date, when acquired by the Company, of less than 90 days and those securities registered under the Investment Company Act of 1940 that are comprised of cash and other short-term debt instruments and which are commonly referred to as "money market funds."

Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Present value of net minimum lease payments	<u>\$ 56,247</u>

NOTE 8 - LIABILITIES SUBORDINATED TO CLAIMS OF GENERAL CREDITORS

The borrowing under a subordination agreement at December 31, 2001 is listed below. The subordinated lender is a shareholder of the Company.

Liability Pursuant to Secured Demand Note Collateral Agreement	
5%, due 12-31-03	<u>\$ 175,000</u>

The subordinated borrowing is covered by an agreement approved by the NASD and is thus available in computing net capital under the Securities and Exchange Commission's Uniform Net Capital Rule. To the extent that such a borrowing is required for the Company's continued compliance with minimum net capital requirements, it may not be repaid.

ZIV INVESTMENT COMPANY

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2001

NOTE 9 - NET CAPITAL REQUIREMENTS

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (rule 15c3-1), which requires the Company to maintain the greater of minimum net capital of \$250,000 or two percent of "aggregate debit items," as these terms are defined. Net capital and aggregate debit items change from day to day, but at December 31, 2001, the Company had net capital and a net capital requirement of \$1,177,633 and \$250,000, respectively.

NOTE 10 - CLEARING AGREEMENT WITH OFF-BALANCE-SHEET RISK

Effective January 2002, the Company entered into an agreement with another broker/dealer (Clearing Broker/dealer), whereby the Company forwards (introduces) certain customer securities transactions to the Clearing Broker/dealer, fully disclosing the customer name and other information. The processing and, if applicable, any financing pertaining to the introduced securities transactions is performed by the Clearing Broker/dealer. The customer account is therefore maintained and recorded in the books and records of the Clearing Broker/dealer on the Company's behalf. In consideration for introducing customers to the Clearing Broker/dealer, the Company receives commissions and other consideration, less the processing and other charges of the Clearing Broker/dealer. Relating to the processing and other charges, the Company is required to produce annual minimum gross execution and clearing revenue of \$150,000 for the Clearing Broker/dealer. Pursuant to terms of this agreement, the Company is required to maintain minimum net capital as defined by SEC rule 15c3-1 of not less than \$100,000 and maintain minimum coverage on its broker's blanket bond of \$100,000. The Company is to maintain a deposit of \$100,000 with the Clearing Broker/dealer to assure the Company's performance under the agreement. The agreement may be terminated by either party with 90 days prior written notification. However, if the Company terminates the agreement during the first five (5) years, it will be subject to a termination fee ranging from \$100,000 during the first year to \$5,000 during year five. In addition, if the Company terminates this agreement at any time, it will be liable for direct costs incurred transferring accounts held at the Clearing Broker/dealer.

ZIV INVESTMENT COMPANY

NOTES TO FINANCIAL STATEMENTS

YEAR ENDED DECEMBER 31, 2001

NOTE 10 - CLEARING AGREEMENT WITH OFF-BALANCE-SHEET RISK – (Continued)

Additional provisions of the agreement state that the Company is to be held responsible for any losses arising when the customers introduced by the Company to the Clearing Broker/dealer fail to meet their contractual commitments pertaining to the purchase, sale and possible financing of securities transactions. The Company may therefore be exposed to off-balance-sheet risk in the event the customer is unable to fulfill its contracted obligations and it is necessary for the Clearing Broker/dealer to purchase or sell the securities at a loss. The Company's exposure to risk would consist of the amount of the loss realized and any additional expenses incurred pertaining to the transaction or other customer activity.

NOTE 11 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE-SHEET RISK

The Company enters into various transactions involving derivatives and other off-balance sheet financial instruments on behalf of its customers. These financial instruments include options. As a writer of options, the customer receives a premium in exchange for giving the counterparty the right to buy or sell the underlying security at a future date at a contracted price. Market risk related to options is substantially dependent upon the value of the underlying financial instruments and is affected by market forces such as volatility and changes in interest and foreign exchange rates. In addition, customers sell securities they do not own and therefore will be obligated to purchase such securities at a future date. The risk to the customer arises if the market values of the related securities increase subsequent to the date of sale. The Company's exposure to risk would consist of the amount necessary to satisfy the contractual requirement of these financial instruments should the customers fail to meet their contractual obligations.

The Company's customer securities transactions (not introduced to its Clearing Broker/dealer, See Note 11) are transacted on either a cash or margin basis. In margin transactions, the Company extends credit to its customers, subject to various regulatory and internal margin requirements, collateralized by cash and

securities in the customers' accounts. In connection with these activities, the Company executes and clears customer transactions involving the sale of securities not yet purchased, substantially all of which are transacted on a margin basis, subject to individual exchange regulations. Such transactions may expose the Company to significant off-balance-sheet risk in the event margin requirements are not sufficient to fully cover losses that customers may incur. In the event the customers fail to satisfy their contractual commitments, the Company may be required to purchase or sell financial instruments at prevailing market prices to fulfill the customer's obligations. The Company seeks to control the risks associated with its customer activities by requiring customers to maintain margin collateral in compliance with various regulatory and internal guidelines. The Company monitors required margin levels daily and, pursuant to such guidelines, requires the customer to deposit additional collateral or to reduce positions when necessary.

The Company's customer financing and securities settlement activities require the Company to pledge customer securities as collateral in support of various secured financing sources such as bank loans. In the event the counterparty is unable to meet its contractual obligation to return customer securities pledged as collateral, the Company may be exposed to the risk of acquiring the securities at prevailing market prices in order to satisfy its customer obligations. The Company controls this risk by monitoring the market value of securities pledged on a daily basis and by requiring adjustments of collateral levels in the event of excess market exposure. In addition, the Company establishes credit limits for such activities and monitors compliance on a daily basis.
