Independent Auditor's Report

Board of Directors  
Austam Securities Exchange, Ltd.

I have audited the accompanying statement of financial condition of Austam Securities Exchange, Ltd. as of June 30, 2002, and the related statements of operations, changes in stockholder's equity, and cash flows for the year then ended that you are filing pursuant to Rule 17a-5 under the Securities Exchange Act of 1934. These financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Austam Securities Exchange, Ltd. as of June 30, 2002, and the results of their operations and their cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

My examination was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on Schedules I-III are presented for purposes of additional analysis and is not required as part of the basic financial statements, but as supplementary information required by Rule 17a-5 of the Securities and Exchange Commission. Such information has been subject to the auditing procedures applied in the examination of the basic financial statements and, in my opinion, is fairly stated in all material respect in relating to the basic financial statements taken as a whole and in conformity with the rules of the Securities and Exchange Commission.

**Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

*General*

Austam Securities Exchange, Ltd. (the "Company") was founded in September of 1980 in the business of securities brokerage and investment counseling. The Company is 100% owned by Byran Robarge. The Company is a member of the National Association of Securities Dealers (NASD) and the Securities Investor Protection Corporation (SIPC).

The Company conducts business on a fully disclosed basis whereby the execution and clearance of trades are handled by another Broker/Dealer. The Company does not hold customer funds and/or securities.

Based upon the income reported, the commissions earned from the sales of stocks, mutual funds and investment company shares represent the major portion of the business.

The Company has about fifteen hundred (1,500) clients primarily located in the San Francisco area. For the year ending June 30, 2002, there were approximately fifteen (15) trades, primarily for purchase of mutual funds. One (1) client accounted for approximately 67% of the commissions earned.

*Summary of Significant Accounting Principles*

The presentation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

The Company provides for deferred taxes resulting from timing differences between financial and taxable income. The timing differences results principally from preparing income tax returns on the cash method and financial statements on the accrual method.

Securities transactions are recorded on a settlement date basis.

Trade receivables are stated at face amount with no allowance for doubtful accounts. An allowance for doubtful accounts is not considered necessary because probable uncollectible accounts are immaterial.

**For the Year Ended June 30, 2002**

**Note 1: GENERAL AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**  
**(Continued)**

Certain payments were made to an individual in the year that the Internal Revenue Service could deem to require payroll taxes be recorded and paid. The Company believes it has legitimate defenses and would vigorously defend its position. Accordingly, no contingent provision has been recorded.

**Note 2: INCOME TAXES**

The current provision of \$800 for income taxes is the California franchise tax board minimum. Since the Company has a loss this year, no provision for Federal income taxes has been recorded.

The Company has elected to carry-forward its operating loss at June 30, 2002. This operating loss carry-forward may be applied against future taxable income, resulting in a deferred tax asset of approximately \$168, that expires in the year 2022. A 100% valuation allowance has been established against this asset since management cannot determine if it is more likely than not that the asset will be realized.

**Note 3: PROPERTY AND EQUIPMENT**

The property and equipment are recorded at cost, and consisted of the following at June 30, 2002:

		Depreciable <u>Life Years</u>
Furniture & fixtures	\$ 850	7
Equipment	<u>12,040</u>	5
Total property and equipment	12,890	
Less accumulated depreciation	<u>(12,338)</u>	
Net property and equipment	<u>\$ 552</u>	

Depreciation expense for the year ended June 30, 2002 was \$ 298.

**For the Year Ended June 30, 2002**

**Note 4: COMPUTATION OF NET CAPITAL**

The Company is subject to the uniform net capital rule (Rule 15c3-1) of the Securities and Exchange Commission, which requires both the maintenance of minimum net capital and the maintenance of a maximum ratio of aggregate indebtedness to net capital. Net capital and aggregate indebtedness change day to day, but on June 30, 2002, the Company's net capital of \$6,770 exceeded the minimum net capital requirement by \$1,770; and the Company's ratio of aggregate indebtedness (\$809) to net capital was 0.12 to 1, which is less than the 15 to 1 maximum ratio required of a Broker/Dealer.

**Austam Securities Exchange, Ltd.**

**Supplementary Accountant's Report**  
**on Internal Accounting Control**  
**Report Pursuant to 17a-5**  
**For the Year Ended June 30, 2002**

KEVIN G. BREARD, C.P.A.  
AN ACCOUNTANCY CORPORATION

Board of Directors  
Austam Securities Exchange, Ltd.

In planning and performing my audit of the financial statements of Austam Securities Exchange, Ltd. for the year ended June 30, 2002, I considered its internal control structure, for the purpose for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by Austam Securities Exchange, Ltd. including tests of such practices and procedures that I considered relevant to objectives stated in rule 17a-5(g), in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities, I did not review the practices and procedures followed by the Company in any of the following:

1. Making the quarterly securities examinations, counts, verifications and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control structure and the practice and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration of the internal control structure would not necessarily disclose all matters in the internal control that might be material weakness under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities, that I considered to be material weakness as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purpose in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate material inadequacy for such purposes. Based on this understanding on my study, I believe that the Company's practices and procedures were adequate at June 30, 2002 to meet the SEC's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
