ENDESA WILL BUILD 500 MW OF WIND INSTALLED CAPACITY IN THE REGION OF VALENCIA

- ENDESA has been awarded this wind power capacity in a bidding promoted by the Generalitat Valenciana
- The awarded company, **Proyectos Eólicos Valencianos S.A.**, a company mainly owned by ENDESA Cogeneración y Renovables, will develop the project with an estimated investment of Euro 450 million.
- MADE, a fully owned ENDESA subsidiary, will be the company in charge of building the aerogenerators that will be installed in the wind farms.
- This Wind Plan in the Valencia Region increases ENDESA Cogeneración y Renovables plans, which amount to 1,500 MW in the next three years.

New York, January 17th 2002. Proyectos Eólicos Valencianos S.A., a company mainly owned by ENDESA Cogeneración y Renovables (ECYR), has been awarded with 500 MW of wind installed capacity, in a bidding promoted by the Generalitat Valenciana

The bidding, initiated in October, included the construction of 1,700 MW of wind installed capacity in 15 sites selected by the Valencian Authorities. 15 wind mills developers competed in the bidding process.

The awarded 500 MW, will mean developing the new installed capacity in three areas with an estimated investment of Euro 500 million.

This project reinforces ENDESA Cogeneración y Renovables leadership in the renewable energy sector, in which is currently operating more than 1,600 MW, and will increase the presence of Endesa on the Region of Valencia.

MADE, a fully owned ENDESA subsidiary, will be the company in charge of building the aerogenerators that will be installed in the wind farms.

ENDESA Cogeneración y Renovables is currently operating more than 600 MW of wind power across Spain, specially in Galicia, Aragón, Castilla-León, Andalucía and the Canary Islands. These Wind Farms in the Valencia Region increase its plans, which amount to 1,500 MW in the next three years.
