BOUYGUES OFFSHORE PRESS RELEASE

LNG : Technigaz and Zachry Construction Corporation sign strategic agreement for North American market

Montigny-le-Bretonneux, France, January 29, 2002 - Technigaz, a wholly-owned subsidiary of Bouygues Offshore (NYSE: BWG - PARIS: BOS.PA), has signed a strategic partnership agreement for Liquefied Natural Gas (LNG) with Zachry Construction Corporation of San Antonio, Texas, United States. The partnership will be known as Technigaz-Zachry.

The marketing and technical agreement covers the design and construction of onshore LNG import projects and tanks, as well as offshore Gravity Base Structure terminals in the United States, Mexico, Canada and the Caribbean.

Founded in 1924, Texas-based Zachry is a leading US construction company, with sales of around \$1.7 billion and more than 14,000 employees in 2001.

The strategic alliance pools Technigaz's recognized turnkey LNG project expertise and broad-based knowledge of the market with Zachry's construction capabilities and strong positions in the Americas. This seamless fit will enable Technigaz-Zachry to play a major role in the high-potential, fast-growing LNG market. The two companies are already working together on a number of tenders for LNG tank construction in the United States and Mexico.

Technigaz operates in the United States through Bouygues Offshore. Additional information may be obtained from:

BOUYGUES OFFSHORE PRESS RELEASE

Bouygues Offshore wins new USD 128.5 million contract in Algeria

Montigny-le-Bretonneux, France, January 31, 2002 – Bouygues Offshore (NYSE: BWG – PARIS: BOS.PA) with Italy's Saipem has won a turnkey contract for an oilfield development project in Algeria. The contract, worth USD 257 million (USD 128.5 million for Bouygues Offshore), was awarded after an public opening process by the Sonatrach / BHP Billiton partnership on behalf of Sonatrach / BHP Billiton / Agip. It covers the Rhourde Ouled Dejmma field and five satellite fields, all located in Berkine Basin, East of Hassi Messaoud.

This contract covers the engineering, procurement and construction of the facilities designed to:

- Gather the oil produced from the six fields.
- Process 80,000 barrels per day of oil.
- Compress gas output for reinjection into the reservoirs.
- Inject water to maintain reservoir pressure.
- Store production before shipment.

The work will be completed within two years.

Commenting on this contract, Hervé Le Bouc, Chairman of Bouygues Offshore stated: "This major contract, the third in Algeria after the expansion of the Mesdar oil terminal in 2001 and the Gassi Touil gas gathering and compression station in 1999, confirms Bouygues Offshore's market leadership in the country, where it operates through its BOS Sofresid Algérie subsidiary".

From design engineering to start-up and maintenance, Bouygues Offshore provides its customers with turnkey projects in offshore-onshore oil and gas contracting, liquefied gases, maritime and river works and chemicals-refining/energy-industry.

Driven by a strong commitment to the energy industry, an on-the-spot presence and a team of talented professionals, we deliver solutions that are safe, innovative and promote the success of our clients and our Company.
