Highlights

- **TDBH**, at the end of 2001 reached a positive EBITDA of R\$16,9 million, and registered a 9,5% EBITDA Margin in the first year it has worked as an independent Company.
- The Corporate Communication services segment, added more than 9.500 new terminals X.25, X.28, Data Voice and Frame-Relay. Its plant, reaching 23,300 terminals in service, presented a 41% growth in relation to the same period of the last year. To the Internet Service, more than 192,252 access and circuits were installed reaching 150,995 ADSL, representing 73% of the present Network in service of 262,456 access.

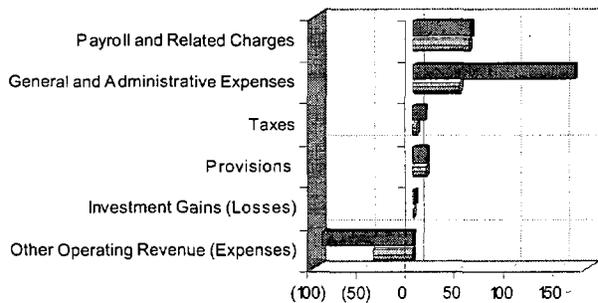

Highlights about revenues

Net operating revenue accumulated for the year 2001 reached R\$177.4 million, showing a R\$119.0 million or 204.0% growth in comparison to the same period of the last year (pro-forma). This is justified by the registered growth in the business volume during 2001. This satisfactory revenue increase reflects the success in tapping new business opportunities.

Operating Expenses / Other Operating Revenues Highlights

Operating Expenses / Other Operating Revenues accumulated till December 2001 presented a R\$103.3 million growth, equivalent to 180.7% compared to the same period of the last year (pro-forma). In the 4Q01, compared to the 4Q00, a R\$20.0 million or 91.7% growth was registered. The net operating revenue increased by 175.9% in the 4Q01 related to the 4Q00, due to the growth registered in the operating activities of the Company.

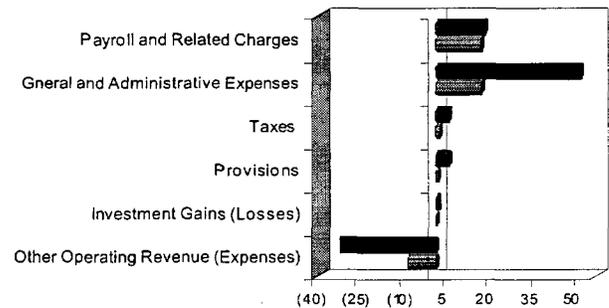

Operating Expenses - Annual

Until Dec/2000

Until Dec/2001

Operating Expenses - Quarter

4Q00

4Q01

The changes are justified as follows:

- **Personnel Expenses** representing a R\$2.4 million growth compared to the same period of the last year is mainly explained by a 5% salary increase in September 2001. In the 4Q01 compared to the 4Q00 showed a R\$1.0 million growth, by the same reasons of the annual increase.
- **General and administrative expenses** in the year 2001 grew R\$117.9 million compared to the same period of the last year. In the 4Q01, the G&A expenses grew R\$34.4 million, compared to the 4Q00. This is due to increased expenses with materials, fuel for power generators due to electric crises, data processing and plant maintenance. Also contributed to it, the outsourcing of technical and administrative services, expenses with rental of circuits and dedicated lines for Internet that increased when compared to the same period of the last year due to the growth in the operations of the Company.
- **Taxes** till December 2001 compared to the same period in 2000 grew R\$7.9 million. In 4Q01, compared to the 4Q00 grew R\$3.4 million, due to the FUST – Fundo de Universalização dos Serviços de Telecomunicações (representing 1% of the Net Operating Revenue), and the FUNTTEL – Fundo para o Desenvolvimento Tecnológico das Telecomunicações (representing 0.5% of the Net Operating Revenue) and certain taxes on other operating revenues.
- **Provision for bad debt** increased R\$13.3 million till December 2001 when compared to the same period of the last year. In 4Q01, compared to the same quarter of the last year, grew R\$4,1 million. The bad debt provision is established in accordance with the conservatism accounting principle and reflects the growth of the business.
- **Investment Gains (Losses)** presented in the year 2001 an increase of R\$1.7 million in relation to the same period of the last year. Reference is made to the 50% participation in Figueira Administração e Participações S.A. On July 27, 2001 it was spun-off and the operating assets and investments were transferred to Spanish Participações S.A., controlled by T. Data Brasil Holding S/A. On September of 2001, there was the incorporation of the Spanish Participações S/A through Telefônica Empresas S.A, controlled by Telefónica Data Brasil Holding S.A.
- **Other operating revenues (expenses)** had a positive evolution of R\$39.8 million during the year 2001 when compared to the same period of the last year. In 4Q01, compared to the same period of the last year, an increase of R\$23.7 million was recorded. It is related to the data transmission fees accrued from Telesp and voice fees paid to Telesp.

Other Operating Expenses Highlights

- **Depreciation** presented a R\$30.1 million increase until December 2001 in comparison to the same period last year. In 4Q01, compared to 4Q00 it presented a R\$10.7 million growth. Both variations were mainly caused by the growth of the plant in service.
- **Net financial revenues / (expenses):** The operating plant growth caused the increase of the debt ratios and also the increase of the financial expenses. The negative financial results in the year 2001 grew only R\$1.6 million, when compared to the same period of the previous year, due to the debt increase on the period and consequently, the increase on the CPMF expenses. The 4Q01 presented a positive result of R\$5.3 million, partially explained by the exchange rate variation. This result, that contributed positively to the good performance of the Company in 2001, stands for the well succeeded efforts dedicated to the financial management of the Company.

LOANS AND FINANCING: TDBH finished the year 2001 with a net debt of R\$121.4 million, written in current liabilities, and guaranteed by Telefônica Internacional S.A, corresponding to loans provided by the Telefônica S.A. On December 31, 2001, the liabilities were 100% nominated in foreign currency and were mainly dedicated to the expansion and improvement of the services offered. The Company develops a constant and timely effort to shield the liabilities against the effects of eventually unstable financial market conditions and exchange rate risk.

EMPLOYEE PROFIT SHARING showed at the year end 2001 an increase of R\$3.2 million compared to the same period of the previous year. The 4Q01, when compared to the 4Q00, showed an increase of R\$0.8 million due to the salary increase of 5% in 2001 and the new percentage of the employee bonus, that increased from 100% to a maximum of 115% of the salary.

Additional Information

- **Transaction with Associated Companies** – Refer to loans with Telefonica S.A., guaranteed by Telefônica Internacional S.A, and the transference from Telesp to the Society of receivable credits from clients, payable wages and salary to reallocated personnel, payments to suppliers, telecommunication service charges, receivables due to fees from voice transmission services rendered by Telesp to the Company clients and fees payable by the Society to Telesp related to data transmission services rendered to some Telesp clients.
- **Net Equity Merged** - Company merged the net equity spun-off from Telecomunicações de São Paulo S.A. (former holding company of Telefônica Empresas S.A.) represented by amounts receivable from Telefônica Empresas S.A. and the investment held in the capital of that wholly owned subsidiary, at the book values as of December 31, 2000. The subsidiary Telefônica Empresas S.A. was formed on August 3, 2000. At the shareholders' meeting held on November 24, 2000, the capital increase in the amount of R\$198,285 by Telecomunicações de São Paulo S.A. - TELESP, was approved, being: (i) R\$108,285 through checking of assets according to an appraisal report prepared by experts and dated October 27, 2000, including the transfer of authorization of the right to that services; and (ii) R\$90,000 in cash. With the previous authorization of National Telecommunications Agency - Anatel, in the terms of Law 9472 from July 16, 1997, the subsidiary start-up was on December 1, 2000, and until this date the services were provided by its former holding Company. The amounts related to the movement of several balance sheet accounts, part of the capital contribution of the former holding Company, were transferred to the Company at its start-up, representing a liability of R\$16,635 at that date, of which R\$13,934 were spun-off and merged by the Company. On June 27, 2001, through a Contract to Subscribe Shares and that established other agreements, the Company made investments in Figueira Administração e Participações S.A. in the amount of R\$ 495,080, corresponding to 50% of the capital (represented by 3,837,651 common shares and 7,675,302 preferred shares). The Figueira Administração e Participações S.A. was controlled by Banco Itaú S.A. and detains the necessary assets to operate the corporate telecommunication network of said bank. It also detains a 20% participation in voting shares and 100% in non-voting shares of the Galáxia Administração e Participações S.A., a Company that will have the authorization to render telecommunication services classified as Limited Specialized Services (Serviço Limitado Especializado - SLE). On July 27, 2001 the Figueira Administração e Participações S.A. was partially spun-off and had its operating assets and investments in Galáxia Administração e Participações S.A. transferred to the new company, which will be controlled by the Society. Thus, the goodwill and investment value will be determined according to the financial statements that will be prepared having as the date for reference the day of the partial spin-off.

- **Funds Provided for Future Capitalization** – On June 27, 2001 Telefônica Data do Brasil Ltda. was credited R\$ 495,1 million and it refers to funds for a future capital increase of the Company. The said amount was employed to subscribe shares of Figueira Administração e Participações S.A.

SUBSEQUENT EVENT – CHANGE IN STRUCTURE

According to relevant Fact published on October 10, 2001, it was submitted to the shareholders and quota holders a corporate restructuring proposal, which consists of the incorporation of WEST VILLAGE by SPANISH and the incorporation of the last one by TEMPRESAS, wholly owned subsidiary of TDBH. The corporate restructure aims to reduce costs, specially the cost related to logistics, accounting, sales efforts and administrative costs. It shall also simplify internal routines and maximize the use of the available resources. The corporate restructuring shall make possible for TEMPRESAS the utilization of the tax benefits derived from the amortization of the goodwill held by WEST VILLAGE. The restructuring shall be implemented as follows: (a) Capital Contribution at West Village, with investments withheld at the controlled Spanish, according to its accounting values. (b) The incorporation of West Village by Spanish. In order to avoid that the amortization of the premium registered in the WEST VILLAGE's account affects negatively the dividends' flow of SPANISH's shareholders, WEST VILLAGE will constitute a provision, which seeks to maintain the integrity of the assets of the company. The shareholders of the controlled company will receive one stock issued by Spanish per each share capital held. The total amount of the goodwill shall be registered in a deferred asset account of SPANISH and it will have a special reserve to goodwill as counterpart during the incorporation of the shareholders' equity. (c) Spanish will be incorporated by Telefônica Empresas S.A. and the treatment will be given to the goodwill, the goodwill special reserve and the provision to maintain the integrity of the assets of the company. The Company will receive, due to the extinction and incorporation, a new stock issued by Telefônica Empresas S.A. per each stock previously held. There will not be, as a result of said restructuring, changes in the voting rights, dividends and shareholders' equity rights. The amounts to be used to this restructuring shall be evaluated based on the book value of the involved companies and the valuation of an specialized company, database September 30, 2001 and October 10, 2001 (West Village case) as a support. The said restructuring does not need the ANATEL approval but it shall be communicated about.

Shareholders' Equity - Share Capital

The Share Capital of TDBH on December 31, 2001 was R\$207.8 million, represented by 165,322,469,526 common shares and 328,342,876,111 preferred shares, all book entry shares and without nominal value. The Company is authorized to increase its share capital to the limit of 700.000.000.000 shares either common or preferred. The Board of Directors is the competent agent to decide about this matter and consequent issuance of new shares, within the limit of the authorized capital. In such issuance of shares it is not mandatory to issue new ON and PN shares in any given proportion so far as the final result maintains the legally prescribed 2/3 voting to non voting maximum limit.

Background

A Telefônica Data Brasil Holding S.A. was established on January 30, 2001, as the result of a partial spin-off of the net equity of Telecomunicações de São Paulo S.A. - TELESP, represented by investment in the wholly-owned subsidiary Telefônica Empresas S.A. and receivables of the mentioned subsidiary, approved by a Stockholders' Meeting held on the same date. In the spin off of Telecomunicações de São Paulo S.A. - Telesp and incorporation of the Company, a share of the same type of the new Company was issued for each share owned by Telesp shareholders, with the same rights of the previous outstanding shares. On May 8, 2001 the Company filed at

Comissão de Valores Mobiliários (the Brazilian Security Exchange Commission) and became a "listed company".
