INDEPENDENT AUDITORS' REPORT ON FINANCIAL STATEMENTS

The Members
RII Trading, L.L.C.
Chicago, Illinois

We have audited the accompanying statement of financial condition of RII Trading, L.L.C. as of December 31, 2001 and the related statements of operations and changes in Members' capital, and cash flows for the year then ended. These financial statements are the responsibility of the Members. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of RII Trading, L.L.C. as of December 31, 2001, and the results of its operations and its cash flows for the year then ended in conformity with generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The information contained on page 11 is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rule 17-a-5 of the Securities and Exchange Commission. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

RII TRADING, L.L.C.
NOTES TO FINANCIAL STATEMENTS

1. Organization:

RII Trading, L.L.C. (The "Company") was organized under the Limited Liability Company Act of Illinois on October 26, 1999. The business of the Company is to engage in market making activity in the trading of stock, stock options, futures and options thereon, on organized exchanges in the United States. The Company has been registered as a Broker/Dealer with the Securities and Exchange Commission (SEC) and a member of the Chicago Board Options Exchange (CBOE) since 1999. The Company is exempt from certain filing requirements under SEC Rule 17a-5 since it operates pursuant to Rule 15c3-1(a)(6) and the Company does not trade on behalf of customers, effects transactions only with other broker dealers, and clears and carries its trading accounts with a registered clearing member of the Exchanges.

2. Significant Accounting Policies:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amount of assets and liability and disclosures or contingent assets and liabilities at the date of the financial s statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Proprietary securities transactions together with related revenues and expenses are recorded on a trade date basis. Securities and commodities owned are reflected at market value with the resulting unrealized gains and losses reflected in income.

In the normal course of business, the Company enters into transactions in exchange-traded financial futures contracts, including options thereon and options on securities which are used primarily to hedge certain proprietary securities and commodities positions and commitments. The contracts are valued at market with the resulting unrealized gains and losses reflected currently in income.

Computer equipment is stated at cost, and is depreciated over a five-year life, using an accelerated method.

A Limited Liability Company ("LLC") does not pay federal income taxes. Each member is responsible for reporting income (loss) based upon his or her share of the profits of the Company. The Company is subject to Illinois Replacement Tax.

RII TRADING, L.L.C.
NOTES TO FINANCIAL STATEMENTS

3. Financial Instruments:

Substantially all of the Company's assets and liabilities are considered financial instruments as defined by Statement of Financial Accounting Standards No. 107, and are reflected in the statement of financial condition at market or fair values.

Financial Accounting Standards No. 105 requires disclosure of information about financial instruments with off-balance sheet risk and financial instruments with concentration of credit risk. Under this statement, financial futures contracts and options on financial futures contracts are considered to be financial instruments, while commodity futures and options on commodity futures contracts are not. In the normal course of business, the Company enters into transactions in financial instruments with varying degrees of off-balance sheet risk. These financial instruments include corporate equity securities and options, and exchange traded financial futures, including options thereon. The trading conducted is in the normal course of a market maker's operation on an exchange. See Note 6 regarding derivatives.

4. Securities Owned and Sold But Not Yet Purchased:

Marketable securities owned and sold but not yet purchased consist of trading and investment securities at quoted market values, as illustrated below.

	<u>Sold, not yet purchased</u>
Equities	\$ - 0 -
Options	<u>5,100</u>
	<u>\$ 5,100</u>

The options stated above represent derivative financial instruments. See Note 6.

5. Net Capital Requirements:

The Company is subject to the SEC Uniform Net Capital Rule (Rule 15c3-1) which requires the maintenance of minimum net capital and requires that a ratio of aggregate indebtedness to net capital, both as defined shall not exceed 15 to 1 (and the rule of the applicable exchange also provides that equity capital may not be withdrawn or cash distributions paid if the resulting net capital ratio would exceed 10 to 1). Under this rule, the Company is required to maintain "minimum net capital"

RII TRADING, L.L.C.
NOTES TO FINANCIAL STATEMENTS

equivalent to \$100,000 or 6 2/3% of "aggregate indebtedness," whichever is greater, as these terms are defined. At December 31, 2001 the Company had net capital of \$418,449, which was \$318,449 in excess of its required capital.

6. Derivative Financial Instruments:

Statement of Financial Accounting Standards No. 119, "Disclosure About Derivative Financial Instruments and Fair Value of Financial Instruments," requires disclosures about the amounts, nature, terms and fair values of derivative financial instruments. The statement also requires that a distinction be made between financial instruments held or issued for trading purposes and financial instruments held or issued for purposes other than trading. The Company had no positions in derivative financial statements at December 31, 2001.

The Company enters into transactions involving futures contracts, options on futures contracts and options on stock for trading purposes, or to hedge other positions or transactions. These contracts are marked to market daily and involve elements of market risk in excess of the amounts recognized in the statements of financial instruments held or issued by the Company at December 31, 2001. Securities sold, not yet purchased, represent obligations of the Company to deliver the specified securities and thereby creates a liability to repurchase the securities in the market at prevailing prices. Accordingly, these transactions result in off-balance sheet risk as the Company's ultimate obligation to satisfy the sale of securities sold, not yet purchased, may exceed the amount recognized in the statement of financial condition.

The notional or contractual amounts presented below do not necessarily represent the amounts which are potentially subject to risk. In addition, the measurement of risk is meaningful only when all related and offsetting transactions are identified, and the Company generally limits its risk by holding or purchasing offsetting positions. Open contracts or notional amounts at December 31, 2001, are as follows:

	<u>Held</u>	<u>Written</u>
Financial Futures Contracts	\$101,880	\$59,120

The Company's principal trading activities are primarily with brokers and other market makers on exchanges throughout the United States.

RII TRADING, L.L.C.
NOTES TO FINANCIAL STATEMENTS

7. Principal Transaction Revenues:

During 2001 the Company's principal transaction revenues consisted of equity activities (including equity shares, options, futures on stock indexes, options on stock indexes) totaling \$528,061.

8. Receivable From Clearing Organization:

The amount due from clearing organization results primarily from the proceeds of stock and option sales and gains from futures. The Company clears all transactions through a clearing organization pursuant to a clearing agreement. At December 31, 2001, substantially all assets of the Company are deposited with the clearing organization.

RII TRADING, L.L.C.
COMPUTATION OF NET CAPITAL UNDER RULE 15C 3-1
OF THE SECURITIES AND EXCHANGE COMMISSION
DECEMBER 31, 2001

COMPUTATION OF NET CAPITAL

Total Members' capital, end of year	\$ 568,491
Less:	
Non-allowable assets	(6,042)

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL STRUCTURE
REQUIRED
BY SEC RULE 17A-5**

The Members
RII Trading, L.L.C.
Chicago, Illinois

In planning and performing our audit of the financial statements of RII Trading, L.L.C. for the year ended December 31, 2001, we considered its internal control structure, including procedures for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the consolidated financial statements and not to provide assurance on the internal control structure.

Also, as required by rule 17a-5(g)(1) of the Securities and Exchange Commission, we have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by RII Trading, L.L.C. that we considered relevant to the objectives stated in rule 17a-5(g), (1) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and the reserve required by rule 15c3-3(e); (2) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by rule 17a-13; (3) in complying with the requirements for prompt payment for securities under Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; and (4) in obtaining and maintaining physical possession or control of all fully paid and excess margin securities of customers as required by rule 15c3-3.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives of an internal control structure and the practices and procedures are to provide the owner with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control structure or the practices and procedures referred to above, errors or irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving the internal control structure, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

The Company, because of its size and limited personnel, is unable to maintain an adequate separation of the various accounting functions. However, management has informed us that the controller exercises close oversight of accounting records daily, thus offsetting the lack of separation of duties. The study and evaluation disclosed no condition that we believed to be a material weakness.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Commission Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and all other regulatory agencies which rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.

February 26, 2002
