SYNERGY INVESTMENT GROUP, LLC
NOTES TO FINANCIAL STATEMENTS

NOTE 1 – ORGANIZATION

Synergy Investment Group, LLC (the "Company") is registered as a broker-dealer with the Securities and Exchange Commission (the "SEC") and is a member of the National Association of Securities Dealers, Inc. (NASD). The Company was formed on June 24, 1998 and received its broker-dealer status June 25, 1999. As a limited liability company, members have limited liability for certain acts. The Company's charter will terminate in the year 2099. The Company has offices in the southeastern United States and throughout the United States. The Company's primary source of revenue is providing brokerage services and electronic trading facilities to customers, who are predominantly middle and upper income individuals and small and middle-market businesses.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Cash and Cash Equivalents

The Company considers highly liquid investments with original maturities of less than ninety days to be cash equivalents. At December 31, 2001, \$50,038 of the Company's cash balance is on deposit at a clearing broker and is therefore restricted.

Securities Transactions

Securities transactions, commission revenue and commission expenses are recorded on a trade-date basis. Unrealized gains and losses on securities transactions, if any, are included in riskless principal transactions in the statement of operations. Marketable securities are recorded at market value.

Property and Equipment

Property and equipment is recorded at cost. Minor additions and renewals are expensed in the year incurred. Major additions and renewals are capitalized and depreciated using the straight-line method over the estimated useful lives of the related assets, which range from five to forty years. Leasehold improvements are amortized over the lesser of their economic useful lives or the expected term of the related lease.

Investment Advisory Income

Investment advisory fees are received in advance on a quarterly basis but are recognized as earned.

Use of Estimates

The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SYNERGY INVESTMENT GROUP, LLC
NOTES TO FINANCIAL STATEMENTS

NOTE 7 – CONTINGENCIES AND COMMITMENTS

Management has funded the operations of the Company primarily from capital provided by the parent. The ongoing operations of the Company are contingent upon the parent company's ability to maintain the equity infusion in the Company.

In some instances, the Company can be held liable for trades that have not been closed by certain representatives of the Company. No provision has been made in these statements, as management believes the likelihood of such an occurrence is remote.

The Company is a defendant in lawsuits incidental to its securities business. Management of the Company, after consultation with outside legal counsel, believes that the resolution of these lawsuits will not result in any material adverse effect on the Company's financial position.

NOTE 8 – CONCENTRATIONS OF CREDIT RISK

The Company does not carry accounts for customers or perform custodial functions related to customers' securities. The Company introduces all of its customer transactions, which are not reflected in these financial statements, to its clearing broker, which maintains the customer's accounts and clears such transactions. Additionally, this clearing broker provides the clearing and depository operations for the Company's proprietary securities transactions. These activities may expose the Company to off-balance-sheet risk in the event that the customers do not fulfill their obligations with the clearing broker, as the Company has agreed to indemnify the clearing broker for any resulting losses.

The Company performs ongoing credit evaluations of its customers' financial condition as part of the lending process. No single customer accounts for greater than one percent of total revenue.

The Company's cash consists primarily of funds in money market accounts and time deposits. At certain times the Company has cash balances in excess of federally insured limits. Concentration of credit risk with respect to cash is limited due to the fact the Company restricts investing cash to only highly rated financial institutions.

NOTE 9 – RETIREMENT PLAN

Effective in 2001, the Company implemented a Simple IRA Plan for the benefit of their employees. The Company must make a matching contribution to the Plan equal to the salary reduction contribution of each employee up to a maximum of three percent of each employee's compensation. The Company's contribution for the year ended December 31, 2001 was \$9,391.

NOTE 10 – FUNDING FROM PARENT COMPANY

The Company is wholly owned by Vision Trek, LLC. Vision Trek, LLC has attracted investment capital for their business. At December 31, 2001 the Company had received \$671,600 from Vision Trek as an infusion of capital, including \$225,000 during the year ended December 31, 2001.

At December 31, 2001 the Company had net capital, as defined, of \$57,307, which exceeded the minimum net capital requirements by \$43,385. The Company's ratio of aggregate indebtedness to net capital was 3.64 to 1 at December 31, 2001.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL ACCOUNTING
CONTROL REQUIRED BY SEC RULE 17a-5**

The Managers and Member
Synergy Investment Group, LLC

In planning and performing our audit of the financial statements and supplemental schedules of Synergy Investment Group, LLC ("the Company"), for the year ended December 31, 2001, we considered its internal control, including control activities for safeguarding securities, to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the criteria stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications and comparisons;
2. Recordation of differences required by Rule 17a-13; and
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System.

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with U.S. generally accepted accounting principles. Rule 17a-5(g) lists additional criteria of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal control or the practices and procedures referred to above, misstatements due to errors or fraud may occur and not be detected. Also, projections of any evaluation of internal control to future periods are subject to the risk that internal control may become inadequate because of changes in conditions, or that the effectiveness of its design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including procedures for safeguarding securities, that we consider to be material weaknesses as defined above.

We understand that practices and procedures that meet the criteria referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001 to meet the SEC's objectives.

This report is intended solely for the information and use of the managing members, management, the SEC, the NASD and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and is not intended to be and should not be used by anyone other than these specified parties.
