INDEPENDENT AUDITOR'S REPORT

The Board of Directors
First Global Securities, Inc.
Pasadena, California

I have audited the accompanying balance sheets of First Global Securities, Inc. as of December 31, 2001 and 2000 and the related statements of revenue, expense and changes in stockholder's equity, and cash flows for each of the two years in the period ended December 31, 2001. These financial statements are the responsibility of First Global Securities, Inc. management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with generally accepted auditing standards. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes the examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion the financial statements referred to above present fairly, in all material respects, the financial position of First Global Securities, Inc. as of December 31, 2001 and 2000, and the results of operations and its cash flows for each of the two years in the period ending December 31, 2001, in conformity with generally accepted accounting principles.

The schedules of calculation of net capital and aggregate indebtedness, reconciliation of computation of net capital, computation for the determination of the reserve requirement and information relating to the possession and control requirements included in this report, although not considered necessary for a fair presentation of financial position, are presented in order to conform to requirements of the Securities and Exchange Commission. This supplemental information has been subjected to the audit procedures applied in the examination of the basic financial statements, and, in my opinion, is fairly stated in all material respects in relation to the basic statements taken as a whole.

INDEPENDENT AUDITOR'S SUPPLEMENTARY
REPORT ON INTERNAL CONTROL STRUCTURE

The Board of Directors
First Global Securities, Inc..
Pasadena, California

In planning and performing our audit of the financial statements of First Global Securities, Inc. (the "Company") for the year ended December 31, 2001, I considered its internal control structure, including procedures for safeguarding securities, in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission, I have made a study of the practices and procedures (including tests of compliance with such practices and procedures) followed by the Company that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a)(11) and in complying with the conditions of exemption from Rule 15c3-3. I did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications, and comparisons, and the recordation of differences required by Rule 17a-13 or in complying with the requirements for prompt payment of securities under section 8 of Regulation T of the Board of Governors of the Federal Reserve System because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control structure policies and procedures and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the Commission's above-mentioned objectives. Two of the objectives on an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded

properly to permit the preparation of financial statements in conformity with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitation in any internal control structure or the practices and procedures referred to above, error and irregularities may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control structure elements does not reduce to a relative low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving the internal control structure, including procedures for safeguarding securities, that I consider to be a material weakness as defined above.

I understand that the practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and the related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2001, to meet the Commission's objectives. In addition, the Company was in compliance with the exemptive provisions of Rule 15c3-3 at December 31, 2001 and, further, no facts came to my attention indicating that the Company was not in compliance with such conditions during the year ended December 31, 2001.

This report is intended solely for the use of management and the Securities and Exchange Commission and other regulatory agencies which rely of Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
