**WOLVERTON SECURITIES (USA), LTD.
STATEMENT OF MATERIAL INADEQUACIES
AS AT 31ST MARCH, 2002.**

Based on our audit of the above company as at 31st March, 2002, no material inadequacies were found to exist.

**WOLVERTON SECURITIES (USA), LTD.
REPORT ON INTERNAL CONTROL STRUCTURE
AS AT 31ST MARCH, 2002.**

Board of Directors,
Wolverton Securities (USA), Ltd.:

In planning and performing our audit of the financial statements of Wolverton Securities (USA), Ltd., we considered its internal control, including control activities for safeguarding customer and firm assets, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

The management of Wolverton Securities (USA), Ltd. is responsible for establishing and maintaining internal control and the practices and procedures required to provide management with reasonable but not absolute assurance that assets for which the Corporation has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management authorization and recorded properly to permit preparation of financial statements in accordance with generally accepted accounting principles.

Because of inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation of the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including controls for safeguarding customer and firm assets, that we consider to be material weaknesses as defined above.

This report is intended solely for the information and use of the Board of Directors, management and SEC and should not be used for any other purpose.
