## **Independent Auditors' Report**

Members of  
VTRADER, LLC

We have audited the accompanying statement of financial condition of VTRADER, LLC as of December 31, 2001 that you are filing pursuant to Rule 17a-5 of the Securities and Exchange Commission. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of VTRADER, LLC as of December 31, 2001 in conformity with U.S. generally accepted accounting principles.

Members' equity		<u>3,638,414</u>
<b>Total liabilities and members' equity</b>	<b>\$</b>	<b><u>4,439,194</u></b>

**Note 1 Nature of Operations and Significant Accounting Policies**

**Nature of Operations**—VTRADER, LLC (the "Company") is a market maker on the Pacific Exchange located in San Francisco, and is a broker-dealer registered under the Securities Exchange Act of 1934. The operating agreement provides, among other things, that the Company shall dissolve no later than December 31, 2020.

**Use of Estimates**—The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Securities and Derivative Financial Instruments**—Securities and derivative financial instrument transactions are recorded on trade date. Marketable securities and derivative financial instruments are valued at market value, based on quoted market prices, and securities not readily marketable are valued at estimated fair value as determined by management. Resulting unrealized gains and losses are reflected in revenue. Trading gains from principal transactions are recorded net of commissions.

Receivable and payable amounts for securities transactions that have not reached their contractual settlement date are recorded net in the statement of financial condition.

**Fair Value of Financial Instruments**—Substantially all of the Company's assets and liabilities are considered financial instruments and, except for the exchange membership, are reported in the statement of financial condition at market or fair value, or at carrying amounts that approximate fair value because of the short maturity of the instruments.

**Income Taxes**—The Company is taxed as a partnership under the provisions of the Internal Revenue Code and, accordingly, is not subject to federal corporate income taxes. Instead, members are liable for federal income taxes on their respective share of taxable income.

**Note 2 Securities Owned and Sold, Not Yet Purchased**

Securities owned and sold, not yet purchased, at December 31, 2001 consist of:

	Securities Owned	Securities Sold, Not Yet Purchased
Equities	\$ 3,886,193	\$ 250,148
Equity options	264,515	165,605
Preferred stock, nonmarketable	<u>50,000</u>	
Total	<u>\$ 4,200,708</u>	<u>\$ 415,753</u>

**Note 3 Commitments**

Under a lease for office space expiring July 2003, minimum annual rentals, exclusive of additional payments that may be required for certain increases in operating and maintenance costs, are as follows:

2002	\$	50,625
2003		<u>29,992</u>
	\$	<u>80,617</u>

**Note 4 Members' Equity**

The Company's operating agreement provides that the managing member has sole power and authority to carry out management responsibilities and control the day-to-day management of the Company's operations, including distributions and admittance of new members. The entrepreneurial members have no voting rights and do not participate in management of the Company.

Entrepreneurial members are traders that have control over their trading accounts in accordance with their agreements. These members share only in the profits of their respective trading accounts and are not responsible for losses. The managing member may restrict, halt or terminate an entrepreneurial member's trading activities at any time or for any reason.

**Note 5 Financial Instruments with Off-Balance-Sheet Risk**

In connection with its proprietary market making and trading activities, the Company enters into transactions in a variety of securities and derivative financial instruments, primarily exchange-traded equity options, futures contracts, and options on futures contracts. Options held provide the Company with the opportunity to deliver or take delivery of specified financial instruments at a contractual price. Options written obligate the Company to deliver or take delivery of specified financial instruments at a contractual price in the event the option is exercised by the holder. Futures contracts provide for the delayed delivery or purchase of financial instruments at a specified future date at a specified price or yield. These derivative financial instruments may have market risk and/or credit risk in excess of the amounts recorded in the statement of financial condition.

**Market Risk**—Derivative financial instruments involve varying degrees of off-balance-sheet market risk. Changes in the market values of the underlying financial instruments may result in changes in the value of the derivative financial instruments in excess of the amounts reflected in the statement of financial condition. Exposure to market risk is influenced by a number of factors, including the relationships between financial instruments and the volatility and liquidity in the markets in which the financial instruments are traded. In many cases, the use of derivative financial instruments serves to modify or offset market risk associated with other transactions and, accordingly, serves to decrease the Company's overall exposure to market risk. The Company attempts to manage its exposure to market risk arising from the use of these derivative financial instruments through various analytical monitoring techniques.

**Note 5 Financial Instruments with Off-Balance-Sheet Risk, *Continued***

In addition, the Company has sold securities it does not currently own and will therefore be obligated to purchase such securities at a future date. The Company has recorded these obligations in the statement of financial condition at December 31, 2001, at market values of the related securities and will incur a loss if the market value of the securities increases subsequent to December 31, 2001.

**Credit Risk**—Credit risk arises from the potential inability of counterparties to perform in accordance with the terms of the contract. The Company's exposure to credit risk associated with counterparty nonperformance is limited to the current cost to replace all contracts in which the Company has a gain. Exchange-traded derivative financial instruments, such as options, futures, and options on futures, generally do not give rise to significant counterparty exposure due to the cash settlement procedures for daily market movements or the margin requirements of the individual exchanges and clearing brokers.

**Concentration of Credit Risk**—The Company clears most of its trades through one clearing broker. In the event this entity does not fulfill its obligation, the Company may be exposed to risk. This risk of default depends on the creditworthiness of this entity. The Company attempts to minimize this credit risk by monitoring the creditworthiness of this entity.

**Note 6 Net Capital Requirements**

The Company is a broker-dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain "net capital" of 6-2/3 percent of "aggregate indebtedness" or \$100,000, whichever is greater, as these terms are defined. Net capital and aggregate indebtedness change from day to day, but as of December 31, 2001, the Company had net capital and net capital requirements of approximately \$2,669,000 and \$100,000, respectively. The net capital rule may effectively restrict the withdrawal of members' capital.
