NOTES TO FINANCIAL STATEMENTS

December 31, 2001 and 2000

Hackett Associates, Inc. (the "Company") was incorporated in Pennsylvania in November, 1986, and is a broker-dealer registered with the U.S. Securities and Exchange Commission (SEC), and is a member of the National Association of Securities Dealers (NASD).

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Exemption from SEC Rule 15c3-3:

The Company is exempt from Securities and Exchange Commission Rule 15c3-3 under Sections k(2)i and k(2)ii.

The Company is exempt under k(2)i because it carries no margin accounts, promptly transmits all customer funds and delivers all securities received in connection with its activities as a broker or dealer, does not otherwise hold funds or securities for, or owe money or securities to, customers and effectuates all financial transactions between the broker or dealer and its customers through one or more bank accounts, each designated as "Special Account for the Exclusive Benefit of Customers of Hackett Associates, Inc."

The Company is also exempt under Section k(2)ii because as an introducing broker or dealer, it clears all transactions with and for customers on a fully disclosed basis with a clearing broker or dealer, and it promptly transmits all customer funds and securities to the clearing broker or dealer which carries all of the accounts of such customers and maintains and preserves such books and records pertaining thereto.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Company to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Cash:

At year-end and various times throughout each year, the Company had cash balances in excess of the federally insured limit of \$100,000 in deposit accounts.

Investments:

Investment securities are valued at market value.

Accounts Receivable:

Accounts receivable represent amounts due from various mutual funds, annuities, and investment companies. The Company has a concentration of credit risk because all receivables are due from companies involved in the mutual fund, investment industry, and insurance industry. These companies are located throughout the United States.

Revenue Recognition:

Commission income and the related commission expense and overrides are recorded on a trade-date basis, as securities transactions occur. All other expenses are recorded as incurred.

Statement of Cash Flows:

For purposes of the Statement of Cash Flows, the Company has defined cash equivalents as highly liquid investments, with original maturities of less than 90 days that are not held for sale in the ordinary course of business.

Independent Auditor's Report on Internal Control

In planning and performing our audits of the financial statements and supplemental schedule of Hackett Associates, Inc. (the "Company"), for the years ended December 31, 2001 and 2000, we considered its internal control, including control activities for safeguarding securities, in order to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

Also, as required by Rule 17a-5(g)(1) of the Securities Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in Rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under Rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of Rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

1. Making quarterly securities examinations, counts, verifications, and comparisons
2. Recordation of differences required by Rule 17a-13
3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the Company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of controls and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the company has responsibility are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with accounting principles generally accepted in the United States of America. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in internal control or the practices and procedures referred to above, error or fraud may occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

Our consideration of internal control would not necessarily disclose all matters in internal control that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control, including control activities for safeguarding securities that we consider to be material weaknesses as defined above.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2001 and 2000, to meet the Commission's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, NASD, and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 in their regulation of registered brokers and dealers, and should not be used for any other purpose.
