## **Independent Auditors' Report**

Board of Directors of  
Rothschild Investment Corporation

We have audited the accompanying statement of financial condition of Rothschild Investment Corporation as of March 31, 2002 that you are filing pursuant to Rule 17a-5 of the Securities and Exchange Commission. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement based on our audit.

We conducted our audit in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Rothschild Investment Corporation as of March 31, 2002 in conformity with U.S. generally accepted accounting principles.

**Note 1 Nature of Operations and Significant Accounting Policies**

**Nature of Operations**—Rothschild Investment Corporation (the "Company") is a registered securities broker-dealer and registered investment advisor. The Company provides brokerage services to retail and institutional customers located primarily throughout the Midwestern United States, with customer transactions cleared through another broker on a fully disclosed basis. As an investment advisor, the Company provides investment management services to individuals, trusts and retirement plans.

**Use of Estimates**—The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

**Cash Equivalents**—The Company considers short-term, highly liquid investments having a maturity of 90 days or less at the date of purchase to be cash equivalents.

**Furniture, Equipment and Leasehold Improvements**—Furniture and equipment are carried at cost and are depreciated using accelerated methods over the estimated useful lives of the assets. Leasehold improvements are amortized by the straight-line method over the lesser of the term of the lease or the estimated useful lives of the improvements.

**Deferred Income Taxes**—Deferred income taxes are recorded to reflect the net tax effect of differences in the timing of certain expenses between tax and financial reporting, and are measured using the enacted tax rates and laws that will be in effect when such differences are expected to reverse.

**Note 2 Furniture, Equipment and Leasehold Improvements**

Furniture, equipment and leasehold improvements at March 31, 2002 consist of:

Furniture and equipment	\$ 252,712
Leasehold improvements	<u>366,971</u>
	619,683
Accumulated depreciation and amortization	<u>(426,575)</u>
Net	<u>\$ 193,108</u>

**Note 3 Common Stock**

The Company has two classes of common stock. There are 500,000 shares of \$2 par value Class A voting common stock authorized and 266,501 shares issued at March 31, 2002. Net of Class A common shares held in treasury, at par value, there were 202,786 shares outstanding at March 31, 2002.

There are 500,000 shares of \$.10 par value Class B nonvoting common stock authorized and 269,942 shares issued at March 31, 2002. Net of Class B common shares held in treasury, at par value, there were 204,087 shares outstanding at March 31, 2002.

**Note 4 Income Taxes**

Included in other assets is a deferred tax asset of approximately \$127,000 arising from the timing of deductible expenses, primarily deferred rent and depreciation.

**Note 5 Commitments and Contingencies**

The Company leases office space under a noncancelable operating lease agreement that expires March 2004. The future minimum annual rentals, exclusive of additional payments that may be required for certain increases in taxes and operating costs, are as follows:

2003	\$ 179,721
2004	<u>186,027</u>
Total	<u>\$ 365,748</u>

The Company is a named respondent in an arbitration matter arising in the normal course of its business, the outcome which is unknown. In the opinion of management, the Company's liability, if any, in the arbitration would not materially affect its financial position or results of operations.

**Note 6 Profit-Sharing Plan**

The Company has a discretionary profit-sharing plan that covers all eligible employees.

**Note 7 Off-Balance-Sheet Credit and Market Risk**

Securities transactions of customers are introduced to and cleared through the Company's clearing broker. Under the terms of its clearing agreement, the Company guarantees the performance of its customers in meeting contracted obligations. In conjunction with the clearing broker, the Company seeks to control the risks associated with its customer activities by requiring customers to maintain collateral in compliance with various regulatory and internal guidelines. Compliance with the various guidelines is monitored daily and, pursuant to such guidelines, the customers may be required to deposit additional collateral, or reduce positions where necessary.

The Company is exposed to off-balance-sheet counterparty risk resulting from principal transactions in securities. Such risk arises in the event that counterparties fail to satisfy their obligations and the related collateral is insufficient. The Company monitors such risk on a daily basis.

The receivable from and deposit with clearing broker, and cash equivalents of approximately \$1,506,000 held by the clearing broker, represent a concentration of credit risk resulting from the Company's trading and brokerage activities. The Company does not anticipate nonperformance by its customers or clearing broker. In addition, the Company has a policy of reviewing, as considered necessary, the credit worthiness of the clearing broker with which it conducts business.

The Company maintains its cash balances at several financial institutions in Chicago, Illinois. Accounts are insured by the Federal Deposit Insurance Corporation (FDIC) up to \$100,000 per institution. Uninsured cash balances were approximately \$238,000 at March 31, 2002. Management believes that the Company is not exposed to any significant credit risk on cash.

**Note 8 Net Capital Requirements**

The Company is a broker-dealer subject to the Securities and Exchange Commission Uniform Net Capital Rule (Rule 15c3-1). Under this rule, the Company is required to maintain "net capital" equivalent to \$250,000 or 6-2/3 percent of "aggregate indebtedness," whichever is greater, as these terms are defined.

Net capital and aggregate indebtedness change from day to day, but at March 31, 2002, the Company had net capital and net capital requirements of approximately \$1,356,000 and \$250,000, respectively. The net capital rule may effectively restrict the payment of cash dividends.
