Strategic Review Update

Following its statement of 21 February, Energis announces that it is in discussions with a number of parties who have expressed interest in the Group's businesses. These will be assessed according to their ability to deliver maximum value for company stakeholders in the context of the overall financial restructuring of Energis.

Energis continues discussions with its lending banks. We are pleased to be able to confirm that these banks have enabled Energis' UK business to draw down funds for short-term liquidity from the existing loan facility.

A group of bondholders have formed a committee and have retained professional advisers to assist them in relation to Energis plc, the ultimate holding company of the Group. These advisers have informed Energis that they represent holders of approximately 50% of the company's outstanding bonds. Energis has already commenced constructive discussions with these advisers and has also informed the trustee for the bonds, The Bank of New York.

Energis intends to seek to develop with its banks, bondholders and other stakeholders a proposal for the consensual restructuring of the Group's balance sheet. In view of the proposed restructuring, Energis has decided not to pay tomorrow the cash interest due, totalling £13.7 million on its £300 million 9.125% senior notes due 2010. The company's key lending banks have indicated their support for this approach. Under the terms of the bonds, Energis has a 30 day grace period to cure the non-payment.

David Wickham, Energis CEO, said: "We are now in constructive discussions with key constituencies to effect a restructuring of Energis' balance sheet. We believe that this is the best way forward for stakeholders to secure the long-term position of the business. Operationally we remain focused on working with our customers, partners, suppliers and employees."

Strategic Review Update

In its statement of 21 February, Energis announced its intention to focus its business around its core UK operations and dispose of its Continental European businesses.

The Board of Energis has considered the options to deliver maximum value for Energis plc stakeholders in the light of expressions of interest received.

The Group is in discussions with potential purchasers of its national businesses in Germany (Energis Ision) and The Netherlands (Energis NV). The Board has decided to continue to support these businesses while discussions progress on their sale.

The Group's wholesale carrier business in Continental Europe, however, requires significant funding which is considered to outweigh any probable sale benefits. Accordingly, in the interest of preserving cash resources, the Board has decided that it cannot provide further funding for Energis Switzerland AG (ECS), which is therefore expected to file for the opening of insolvency proceedings. Energis has informed its lending banks and the ad hoc committee of bondholders of this action.

Energis remains committed to its strong UK business. The lending banks have shown their support for this business and continue to provide funding ahead of their review of Energis' full financial restructuring proposals to secure the long term financial position of the company. Energis continues discussions with the ad hoc committee of bondholders, which is supporting the financial restructuring process.
