Paris-La Défense, 22 April 2002

## **PRESS RELEASE**

### **CONTRACT AWARD FOR GIANT AMMONIA/UREA COMPLEX IN OMAN**

Technip-Coflexip (NYSE: TKP and Euronext: 13170), in a 50/50 joint venture with Snamprogetti, has just signed, with Oman-India Fertilizer Company (OMIFCO), a lump sum turnkey contract worth about US \$770 million for the design and construction of a fertilizer complex in Oman.

This complex will be erected at Sur, 150 km south of Mascate. It will consist of two 1,750 ton-per-day ammonia plants using the Haldor Topsoe (a Snamprogetti affiliate) technology as well as two 2,350 ton-per-day urea plants using Snamprogetti's technology and two granulation units. The complex also includes associated utilities, offsites and marine works. It will be the world's largest grass-roots fertilizer complex.

Under the terms of this contract, Technip-Coflexip and Snamprogetti will supply engineering design, equipment and materials, construction management, start-up supervision as well as training of the client's personnel.

Works will be completed within 35 months from the coming into force of the contract. Financing of the project is currently being finalized which will enable the project to soon get under way.

OMIFCO's shareholders are Oman Oil Company (50%), the Indian companies KRIBHCO (25%) and IFFCO (25%).

This major project will contribute to the valorization of the Sultanate of Oman's vast gas resources and will assure export of the total urea production to India, thus strengthening commercial relationships between the two countries.
