32. The issuer's employees number.

Average number of the issuer's employees including those , working at its branches and agencies, for the period under review: *11 621*

33. Description of the issuer's basic activities.

Till 1992 the sphere of telecommunications was completely under the government control. Decree of the Government of the Russian Federation №1003 of December, 22, 1992 initiated its reorganization. That Decree provided for separation of the following services from the state communication enterprises before their privatization:

- *establishment on the basis of post-offices of state enterprises of the Federal Post Service not subject to privatization;*
- *radio and television broadcasting centers not subject to privatization.*

Other activities were concentrated in the regional communication enterprises reorganized into joint-stock companies with state-owned control packet of shares. To join efforts of regional telecom operators, to attract additional investments into the development of telecom network and to observe its proportional development in accordance with the Decree of the President of the Russian Federation № 1289 of October, 10, 1994, Acts of the Government of the Russian Federation of November, 25, 1994, the Order of the State Property Committee of the Russian Federation № 1225-p of September, 01, 1995, the open joint-stock company "Investment communications company" (OAO "Svyazinvest") was established. OAO "Svyazinvest" charter capital was formed by consolidation of shares owned by the federal government in regional telecom operators. Size of these stakes constituted usually 38% of the charter capital or 51% of voting shares of 76 regional telecom operators, four operators of long-distance communication including OAO "Rostelecom", four telegraph companies, one research institute and two leasing branch establishments.

Modern structure of OAO "Svyazinvest" charter capital was formed in July 1997 when the results of auction for 25% plus one share of OAO "Svyazinvest" were summed up. The company "Mustcom Limited" won the auction for 25% of OAO "Svyazinvest" for 1.875 billion dollars USA.

The company "Mustcom Limited" was established by the Cyprus-based company AFCI Cyprus that in its turn had been established by the group ONEXIM-MFK, George Soros, investment company "Renaissance-Capital" and by investment banks "Deutsche Morgan Grenfell" and "Morgan Stanley".

Currently holding OAO "Svyazinvest" incorporates 79 regional telecom operators and OAO "Rostelecom", the national domestic long-distance and international operator. The holding company's subsidiaries operate public telephone networks which installed capacity is over 27 million telephone lines, they provide services for more than 90% of the country's population. Over 400 thousand people work at the holding subsidiaries. Gross profit in 2000 constituted 72.4 billion rubles or more than 2.5 billion dollars USA. Today Svyazinvest is the largest telecommunication holding in Russia. However, one of its strategic directions is strengthening of competitiveness and further development on the basis of modern infrastructure. The task is to ensure balanced development of each element of the infrastructure, each telecom operator in favor of all subsidiaries. The task of permanent improvement of traditional services and broadening of the spectrum of new services also remains urgent. First of all, it is provision of services based on intelligent networks and data networks.

Public Joint-stock company "Kubanelectrosvyaz" was registered by the Decree of the Head of Krasnodar Administration № 396 of May, 20, 1994 as telecom operator providing telecom services in the Krasnodar Territory which covers the area of 76 thousand square kilometers with population of more than 5 million people.

"Kubanelectrosvyaz" PJSC is a participant of the Association of telecom operators of the North Caucasus in which it enjoys rights and performs duties in accordance with the Association Charter. The Company General Director is elected the President of the Association.

The Krasnodar Territory is the most southern region of Russia. Over 5 million people live there including 54% - in cities and 46% - in the countryside. The average density of population in the Krasnodar Territory is 66,7 persons per 1 square kilometer, that exceeds the average one in Russia by 8 times. The Krasnodar Territory has great population and working potential. It can be considered a region

with high density of population but having reserves for further development {especially in rural areas}.

The basic economic potential of the Krasnodar region consists of agroindustrial complex (one of the largest in Russia), fuel and energy complex (petroleum and petroleum-refining industries, gas and electroenergetic industries), machinery construction, instrument-making, chemical and light industry, health resort and rehabilitation complex, forestry, woodworking and furniture industry, developed transport infrastructure (sea-ports in Novorossiysk, Yeysk, Temruk, port Kavkaz; airports in Krasnodar, Anapa, Sochi; network of railway roads and pipelines), monetary system, numerous scientific and research institutions and developing market structures.

Agroindustrial complex of the Krasnodar Territory is the largest in Russia producer and supplier of agricultural products and raw materials with developed network of processing, storage and trade. This complex determines to a great extent the Krasnodar Territory economy, employment rate and standard of people's well-being. Diversified industry including over 700 large and medium-size enterprises, joint-stock companies and limited partnerships for the most part, and 3 thousand enterprises of small-scale business, plays an important part in Kuban economy. Processing industries dominate in the structure of industrial production, constituting 40% of aggregate output. At present Kuban has 16 sugar-refineries, 24 tinned food factories, 43 dairy and 23 meat-processing factories, 7 oil and butter factories, 42 multi-activity enterprises of food industry. 2 tea and 2 tobacco factories, 51 specialised wine-growing farms including 34 ones with primary product processing, 11 wineries, 4 distilleries, 24 bakeries, over 1000 small-scale manufactories in subsidiaries of agricultural and industrial enterprises. About 30% of the industrial products are produced by fuel and energy complex. Kuban is the motherland of domestic oil industry. There are two petroleum-refining and one gas-transferring plants in the Krasnodar Territory. Oil extraction doesn't exceed 1.7 mln tons per year, but total volume of oil refining amounts to 4.3 mln tons. Metal-working and engineering industries are represented by more than 100 enterprises producing wood-working and metal-cutting machines, equipment and means of automation, various agricultural machines and equipment with spare parts, electric motors, pumps, oil field and geological survey equipment, compressors, refrigerating machines, production for railway transport, domestic equipment and other products. Largest enterprises in this sphere are located in Krasnodar, Armavir, Tikhoretsk, Novorossiysk, Yeysk, Kropotkin. Most of them have self-contained technological cycle of production output. Capital construction is developing in the Krasnodar Territory, over 400 of big and medium-size contractors and over 4 000 of small-scale ones work in this sphere. Transport of the Krasnodar Territory is represented by large and complicate complex of railway lines, motor roads, canal tracks, railway stations, ports, berths, airports and other objects. Diversified structure of this complex makes it possible to combine and interchange methods of passengers and goods delivery to the Krasnodar Territory. Transport junctions in the Black and Azov seaside are of especial importance. Strong monetary system of the Territory is represented by 40 branches of Sberbank of the Russian Federation with agencies and subsidiaries. Joint ventures are being actively established. About 700 enterprises with foreign investments exceeding 160 mln. dollars USA are registered in the Krasnodar Territory. The most active investors are businessmen from Germany, USA and Turkey. We note a 7,9%-gain of attracted investments.

- *Siemens, Germany*
- *Lucent Technologies, USA*
- *Cisco Systems, USA*

Outlook for availability of these delivery resources : stable

Possible negative factors that can affect the issuer's services market:

- *decline in solvent demand level in case of devaluation of the ruble*
- *keen competition*

Activity practice with respect to reserves.

PJSC "UTK" follows the policy of material reserves' reduction by using normative coefficients of TMC reserves in the branches' budgets. To make the analysis of turnover of reserves they estimate quarterly the factors showing the efficiency of reserves' usage and material expenditures' formation.

For practical usage the branches make quarterly detailed analysis of their financial activity including turnover ratios.

Indices	6 months	6 months
	2000	2001
1. Proceeds	958 647 thousand rubles	1 143 758 thousand rubles
2. Turnover ratio of reserves	5.9	6

Calculations are made for a half-year period.

The issuer's service market: users giving more than 10% of sales proceeds – none.

Seasonal nature of activities.

All the Company's activities are not of seasonal nature.

Competitive environment.

At present competitive environment in the Krasnodar Territory is represented by numerous independent telecom operators following their own price and operating policy. 206 telecom operators have licenses for rendering telecom services in the Krasnodar Territory. In the sphere of traditional telephony the equipped capacity of alternative telecom operators and PJSC "UTK" has the ratio of 6.5% to 93.5%.

At present there are over 15 Internet providers in the Krasnodar Territory. "UTK" PJSC's market share is little more than 60%. This fact proves the decrease of the Company's monopoly share in providing new telecom services. Alternative operators are noted for aggressive marketing policy, active advertising campaigns, mobility of tariffs.

We also have high level of competition in the sphere of providing wireless access to communication network. "UTK" PJSC's shares are 5% in paging service, 80% in PD wireless access service and 22 % in station wireless access of traditional telephony.

It should be noted that market of new telecom services still remains unoccupied.

Risk factors (for shareholders):

Economic risks:

- 1. Low tariffs of principal services*
- 2. High cost of digital equipment*
- 3. Risk of devaluation of the Russian ruble regarding world main currencies*
- 4. Physical and moral depreciation of equipment owned by "UTK" PJSC*
- 5. High level of competition (active growth of proceeds and volume of telecom services provided by alternative telecom operators in the Krasnodar Territory)*
- 6. Economic risks inherent in the Russian Federation including high level of macroeconomic instability in the Russian Federation; possibility of changes in the legislation of the Russian Federation that may result in decreasing "UTK" PJSC's profits or increasing taxation of securities profit.*

Social risks:

At present the collective agreement among the Company's management and the employees acts as an instrument of solving social problems on the systematic basis. Longstanding business relations with trade unions allow to settle current social questions by compromise. Salaries and social securities of the Company's employees are the highest in the Southern Federal District. Risk of strikes as a form of social protest and a method of adjusting labor controversies is minimum in the near-term outlook.

Technical risks:

Physical depreciation of certain equipment lowers the quality of the provided services, most obsolete equipment is unable to provide new telecom services.

Ecological risks – none.

33. Description of the issuer's basic activities.

Till 1992 the sphere of telecommunications was completely under the government control. Decree of the Government of the Russian Federation №1003 of December,22,1992 initiated its reorganization. That Decree provided for separation of the following services from the state communication enterprises before their privatization:

- *establishment on the basis of post-offices of state enterprises of the Federal Post Service not subject to privatization;*
- *radio and television broadcasting centers not subject to privatization.*

Other activities were concentrated in the regional communication enterprises reorganized into joint-stock companies with state-owned control packet of shares.

To join efforts of regional telecom operators, to attract additional investments into the development of telecom network and to observe its proportional development in accordance with the Decree of the President of the Russian Federation № 1289 of October,10,1994, Acts of the Government of the Russian Federation of November,25,1994, the Order of the State Property Committee of the Russian

Federation № 1225-p of September, 01, 1995, the open joint-stock company "Investment communications company" (OAO "Svyazinvest") was established.

OAO "Svyazinvest" charter capital was formed by consolidation of shares owned by the federal government in regional telecom operators. Size of these stakes constituted usually 38% of the charter capital or 51% of voting shares of 76 regional telecom operators, four operators of long-distance communication including OAO "Rostelecom", four telegraph companies, one research institute and two leasing branch establishments.

Modern structure of OAO "Svyazinvest" charter capital was formed in July 1997 when the results of auction for 25% plus one share of OAO "Svyazinvest" were summed up. The company "Mustcom Limited" won the auction for 25% of OAO "Svyazinvest" for 1.875 billion dollars USA.

The company "Mustcom Limited" was established by the Cyprus-based company AFCI Cyprus that in its turn had been established by the group ONEXIM-MFK, George Soros, investment company "Renaissance-Capital" and by investment banks "Deutsche Morgan Grenfell" and "Morgan Stanley".

Currently holding OAO "Svyazinvest" has a majority vote in 74 regional telecom operators, OAO "Rostelecom" and OAO "Guiprosvyaz". Besides, OAO "Svyazinvest" owns packets of shares (not control ones) of JSC "Moscow city telephone network" (AO "MGTS" – 28% of voting shares), OAO "Svyaz" of Komi Republic (25% of voting shares), JSC "Kostroma GTS" (37% of voting shares), JSC "Sakhalinsvyaz" (49% of voting shares), JSC "Rusleasingsvyaz" (38% of voting shares). Besides, OAO "Svyazinvest" has a 4%-common stake of commercial bank "Svyazbank", a 5%-common stake of the company "Registrator-Svyaz" and a 25%-common stake in the financial company "Svyaz". It is also a parent company of OAO "Mobile telecommunications" ("MobiTel"), OAO "StartCom", OAO "Rusleasingsvyaz" and others.

The holding company's subsidiaries operate public telephone networks which installed capacity is over 27 million telephone lines, they provide services for more than 90% of the country's population. Over 400 thousand people work at the holding subsidiaries. Today Svyazinvest is the largest telecommunication holding in Russia. However, one of its strategic directions is strengthening of competitiveness and further development on the basis of modern infrastructure. The task is to ensure balanced development of each element of the infrastructure, each telecom operator in favor of all subsidiaries. The task of permanent improvement of traditional services and broadening of the spectrum of new services also remains urgent. First of all, it is provision of services based on intelligent networks and data networks.

Public Joint-stock company "Southern Telecommunications Company" was registered by the Decree of the Head of Krasnodar Administration №396 of May, 20, 1994 as telecom operator providing telecom services in the Krasnodar Territory which covers the area of 76 thousand square kilometers with population of more than 5 million people.

"Southern Telecommunications Company" PJSC is a participant of the Association of telecom operators of the North Caucasus in which it enjoys rights and performs duties in accordance with the Association Charter. The Company General Director is elected the President of the Association.

The Krasnodar Territory is the most southern region of Russia. Over 5 million people live there including 54% - in cities and 46% - in the countryside. The average density of population in the Krasnodar Territory is 66,7 persons per 1

square kilometer, that exceeds the average one in Russia by 8 times. The Krasnodar Territory has great population and working potential. It can be considered a region with high density of population but having reserves for further development {especially in rural areas}.

The basic economic potential of the Krasnodar region consists of agroindustrial complex (one of the largest in Russia), fuel and energy complex (petroleum and petroleum-refining industries, gas and electroenergetic industries), machinery construction, instrument-making, chemical and light industry, health resort and rehabilitation complex, forestry, woodworking and furniture industry, developed transport infrastructure (sea-ports in Novorossiysk, Yeysk, Temruk, port Kavkaz; airports in Krasnodar, Anapa, Sochi; network of railway roads and pipelines), monetary system, numerous scientific and research institutions and developing market structures. Agroindustrial complex of the Krasnodar Territory is the largest in Russia producer and supplier of agricultural products and raw materials with developed network of processing, storage and trade. This complex determines to a great extent the Krasnodar Territory economy, employment rate and standard of people's well-being. Diversified industry including over 700 large and medium-size enterprises, joint-stock companies and limited partnerships for the most part, and 3 thousand enterprises of small-scale business, plays an important part in Kuban economy. Processing industries dominate in the structure of industrial production, constituting 40% of aggregate output. At present Kuban has 16 sugar-refineries, 24 tinned food factories, 43 dairy and 23 meat-processing factories, 7 oil and butter factories, 42 multi-activity enterprises of food industry. 2 tea and 2 tobacco factories, 51 specialized wine-growing farms including 34 ones with primary product processing, 11 wineries, 4 distilleries, 24 bakeries, over 1000 small-scale manufactories in subsidiaries of agricultural and industrial enterprises. About 30% of the industrial products are produced by fuel and energy complex. Kuban is the motherland of domestic oil industry. There are two petroleum-refining and one gas-transferring plants in the Krasnodar Territory. Oil extraction doesn't exceed 1.7 mln tons per year, but total volume of oil refining amounts to 4.3 mln tons.

Metal-working and engineering industries are represented by more than 100 enterprises producing wood-working and metal-cutting machines, equipment and means of automation, various agricultural machines and equipment with spare parts, electric motors, pumps, oil field and geological survey equipment, compressors, refrigerating machines, production for railway transport, domestic equipment and other products. Largest enterprises in this sphere are located in Krasnodar, Armavir, Tikhoretsk, Novorossiysk, Yeysk, Kropotkin. Most of them have self-contained technological cycle of production output. Capital construction is developing in the Krasnodar Territory, over 400 of big and medium-size contractors and over 4 000 of small-scale ones work in this sphere. Transport of the Krasnodar Territory is represented by large and complicate complex of railway lines, motor roads, canal tracks, railway stations, ports, berths, airports and other objects. Diversified structure of this complex makes it possible to combine and interchange methods of passengers and goods delivery to the Krasnodar Territory.

Transport junctions in the Black and Azov seaside are of especial importance. Strong monetary system of the Territory is represented by 40 branches of Sberbank of the Russian Federation with agencies and subsidiaries. Joint ventures are being actively established. About 700 enterprises with foreign investments exceeding 160 mln. dollars USA are registered in the Krasnodar Territory. The most active

investors are businessmen from Germany, USA and Turkey. We note a 7,9%-gain of attracted investments.

In spring 2001 with a view to reform the whole Russian telecommunications sector Ministry of Communication of RF approved the resolution on reorganization of Svyazinvest holding structure based on consolidation of regional telecom companies and improvement of corporate management system.

Competitive environment.

At present competitive environment in the Krasnodar Territory is represented by numerous independent telecom operators following their own price and operating policy. 206 telecom operators have licenses for rendering telecom services in the Krasnodar Territory. In the sphere of traditional telephony the equipped capacity of alternative telecom operators and PJSC "UTK" has the ratio of 6.5% to 93.5%.

At present there are over 15 Internet providers in the Krasnodar Territory. "UTK" PJSC's market share is little more than 60%. This fact proves the decrease of the Company's monopoly share in providing new telecom services. Alternative operators are noted for aggressive marketing policy, active advertising campaigns, mobility of tariffs.

We also have high level of competition in the sphere of providing wireless access to communication network. "UTK" PJSC's shares are 5% in paging service, 80% in PD wireless access service and 22 % in station wireless access of traditional telephony.

It should be noted that market of new telecom services still remains unoccupied.

Gorbachev V.L.

On account of the results of quorum determination I declare "Southern Telecommunications Company" PJSC's Extraordinary General shareholders' meeting open. Questions on agenda items and reports of the speakers should be forwarded to secretariat in written form.

Gorbachev V.L.

Let's go to the discussion of the agenda items.

I shall speak to the meeting on the first item of the agenda.

Key theses of the report:

Question on the Company reorganization is initiated by the Company principal shareholders interested in increasing value and liquidity of their investments in the Company's shares.

10 joint stock companies, providing telecom services on the major part of the territory of the Southern Federal District, take part in the process of reorganization.

The reorganization will be realized through merger of nine joint stock companies into "Southern Telecommunications Company" PJSC.

Necessity of reorganization is caused by:

- shortage of own investment resources;
- increasing pressure of competition;
- drive for maximization of the market value and liquidity of the Company shares;
- drive for maximization of the Company profit and telecom market share.

The Company Board of Directors approved the terms of merger and considered reorganization beneficial for shareholders of all the joint stock companies.

On October, 19 2001 the Board of Directors of "Southern Telecommunications Company" PJSC approved a resolution on calling the present General shareholders' meeting, determined venue, date and time of its conducting, date of making a list of shareholders entitled to participate in the present General shareholders' meeting approved the agenda.

Extraordinary General shareholders' meetings of the merging joint stock companies has already been held by the moment of conducting the present General shareholders' meeting, and the companies' shareholders voted in favor of reorganization.

The secretariat didn't receive any questions on the first item of the agenda and on the report. Sotnikova L.B., Chairman of the Counting commission, takes the floor to explain the voting procedure.

(Voting)

Gorbachev V.L.

We go to the second item of the agenda. Litvinov A.A., Deputy General Director of "Southern Telecommunications Company" PJSC, has the floor.

Litvinov A.A.

Main theses of the report

One of the key and necessary steps towards the merger of telecom operators of the Southern Federal District is definition of the Company declared shares.

As the reorganization takes place through merger of other operators into our Company, it is necessary to issue the Company additional common and preference shares for conversion of common and preference shares of other telecom operators into such shares.

Our Company will not be able to realize the procedures of merger of other operators into it without approval of resolution on declared shares.

The number of declared and preference shares submitted for your consideration was calculated as follows:

Amount of common and preference shares of each incorporated operator was multiplied by corresponding ratio of shares' exchange, and then the results were added together

Besides, the existing number of declared common and preference shares according to the Company's Charter is added to this amount.

Common and preference shares placed within the limits of declared ones have the same rights as common and preference shares which have already been placed among the shareholders.

Gorbachev V.L.

I ask to vote on the second item of the agenda (you should keep the chosen variant in the voting paper № 2, item №1.)

(Voting)

Gorbachev V.L.

We go to the third item of the agenda. Ignatenko N.I., Head of legal department of "Southern Telecommunications Company" PJSC, has the floor.

Ignatenko N.I.

Main theses of the report

The proposed amendments and supplements to the Charter are associated with current reorganization of the Company.

The first part of the amendments is related to the list of the Company's subsidiaries.

9 new subsidiaries were added to the list, the Board of Directors approved a resolution on their establishment on October 19, 2001. Transfer of business of incorporated companies into "Southern Telecommunications Company" PJSC is based on these subsidiaries.

The second part of the amendments is related to definition of new amount of declared common and preference shares.

The third part of the amendments is related to the expansion of the Board of Directors' authority and to the part concerning necessity of the Board of Directors' approval of a person assigned a Director of the Company's subsidiary.
