## For Immediate Release

### DataMirror Announces Early Adopter Promotion For iCluster™ for EMC Symmetrix®

*New iCluster for EMC Symmetrix Customers Qualify for 15% Discount Off Purchase Price*

**TORONTO, CANADA – (April 24, 2002) – DataMirror** (Nasdaq: DMCX; TSE: DMC), the leading provider of enterprise application integration and resiliency software solutions, today announced a special promotion for early adopters of DataMirror iCluster for EMC Symmetrix, a fully integrated software solution for highly available and resilient business operations in EMC iSeries environments.

Under the terms of this promotion, customers that purchase a license for iCluster for EMC Symmetrix before September 30, 2002 qualify to receive 15% off of their purchase price. Certain other terms and conditions also apply. Please see below for more details.

“Both EMC and DataMirror are committed to providing customers with the highest levels of availability and reliability in the iSeries resiliency space,” said Stewart Ritchie, Vice President, Sales Americas, DataMirror. “Through this special promotion, we are giving early adopters of this solution a chance to be among the first to experience superior availability at the storage level, system level and application level. Until now, customers have not been able to implement a single comprehensive storage level, system level and application-aware mirroring solution. iCluster for EMC Symmetrix has given way to a breakthrough new approach in the iSeries resiliency space.”

#### **About iCluster for EMC Symmetrix**

DataMirror iCluster for EMC Symmetrix is an application-aware solution that is closely integrated with EMC Corporation’s system and storage replication solutions Symmetrix Remote Data Facility (SRDF™) and TimeFinder™. iCluster for EMC Symmetrix provides unprecedented levels of application availability and workload distribution in EMC iSeries environments by capturing iSeries objects and data at the transaction level on the primary system and mirroring them in real-time to the backup iSeries system. This solution can detect primary system failure and invoke operational switching for business continuity, high availability and application resiliency.

#### **Pricing and Availability**

iCluster for EMC Symmetrix is generally available now. For more information, please contact a DataMirror representative by e-mail at [sales@datamirror.com](mailto:sales@datamirror.com) or by calling DataMirror toll-free at 1-800-362-5955.

#### **Terms and Conditions**

The special early adopter discount is available to iCluster for EMC Symmetrix customers who license this solution before September 30, 2002.

## About EMC Corporation

EMC Corporation is the world leader in information storage systems, software, networks and services and the provider of robust and secure information storage infrastructure. As at January 1<sup>st</sup> 2002, EMC employed 20,100 employees. 7,500 employees are located in EMC's head office near Boston. The revenues for 2001 were \$1.5 billion USD. EMC's flagship product is called Symmetrix and delivers the world's highest information storage capacity in a single system — 69.5 terabytes. The EMC Developers Program includes 73 member companies with a combined total of more than 40 EMC-integrated software applications. Since its launch, over 800 companies now use Symmetrix with IBM iSeries (AS/400).
