Re: Sasol Limited (the "Company")
File No. 82-631

SUPPL

Dear Madam or Sir:

Pursuant to Rule 12g3-2(b) promulgated under the Securities Exchange Act of 1934, as amended, we hereby submit to the Securities and Exchange Commission, on behalf of the Company, the following documents:

1. Announcement regarding Profit Statement and Declaration of Dividend for the year ended June 25, 2001.
2. Form CM15: Return of allotment of shares for August 28, 2001 to September 4, 2001;
3. Form CM15: Return of allotment of shares for September 5, 2001 to September 17, 2001;
4. Form CM15: Return of allotment of shares for October 3, 2001, to October 18, 2001;
5. Form CM15: Return of allotment of shares for October 25, 2001 to November 21, 2001;
6. Form CM15: Return of allotment of shares for November 23, 2001 to December 14, 2001;
7. Form CM15: Return of allotment of shares for December 18, 2001 to January 14, 2002;

dw 6/3

May 31, 2002

Page 2

8. Form CM15: Return of allotment of shares for January 18, 2002 to February 7, 2002;
9. Form CM15: Return of allotment of shares for February 14, 2002 to March 12, 2002;
10. Form CM15: Return of allotment of shares for March 13, 2002 to April 11, 2002;
11. Announcement which appeared in the Beeld, the Business Day and The Star's Business Report (profit statement and declaration of dividend); and
12. Announcement regarding Profit Statement and Declaration of Dividend for the Half-Year Ended December 31, 2001.

Kindly acknowledge receipt of the enclosed material by date-stamping the attached copy of this letter and returning it to the undersigned in the enclosed self-addressed, postage-paid envelope. Please call me at 212-318-3092 should you have any questions.

Very truly yours,

A handwritten signature in black ink, appearing to read "Steven I. Suzzan /mm". The signature is fluid and cursive, with a large initial "S" and a stylized "I".

Five years
10.6

BEST AVAILABLE COPY

The financial statements of the Group for this financial year have been prepared in accordance with International Accounting Standards (IAS). Comparative figures have been restated to conform to IAS. The effect of adjustments is shown below. (A billion is defined as one thousand million).

FINANCIAL OVERVIEW

A highly commendable performance for the year ended 25 June 2001 resulted in all major businesses achieving record results. This performance should be seen in the context of strong growth in sales, operating profit, attributable earnings and capital expenditure over the last five years.

The factors which primarily contributed to the increase in earnings in the past year compared to the previous year were:

- A higher oil price (up 37% to an average of US\$26.50 a barrel compared to the previous year), and strong refining margins.
- A 18% weakening in the rand/dollar exchange rate.
- Strong sales volumes into both local and international markets.
- Continuing improvement in operational stability on most plants.
- Significant productivity and efficiency improvements, and cost reductions, across all businesses.

Sales increased by 60% from R25 782 million to R41 289 million. In pursuit of a set strategic objective, foreign sales reached 37% of total sales and are confidently expected to exceed 50% in the next financial year. Sales of chemicals by Sasol Chemical Industries (SCI) amounted to 51% of total sales, which is also in line with a strategic objective to increase chemical sales to 50% of total turnover.

Operating profit of R10 773 million increased by 71% and exceeded R10 billion for the first time. At prevailing exchange rates, this is the second consecutive year that operating profit has exceeded US\$1 billion.

Renewal and cost optimisation programmes throughout all operations are a critical part of an ongoing and entrenched management philosophy to achieve continuous improvement. Productivity and efficiency improvements again contributed materially to the increase in operating profit.

During the year, the Group completed its largest and most significant acquisition. A Euro 1.3 billion asset and share purchase agreement was concluded with RWE-DEA Aktiengesellschaft für Mineralöl und Chemie (RWE-DEA) for that company's entire chemicals business, Condea, with effect from 1 March 2001. Condea has since been renamed Sasol Chemie.

It is noteworthy that the impact of this acquisition on Group earnings was positive for the four months since 1 March 2001.

Following this pleasing addition to Sasol's business portfolio, which provides an ideal strategic fit with existing businesses, gearing rose to 27% at 25 June 2001. This is in line with the financial objective to hold debt between a range of 25% and 30% of total equity. The higher gearing resulted in an increase of R87 million in net interest paid during the year to R275 million.

It should also be noted that R1 119 million was expended on the Group's approved share buyback programme during the year. To date 7% (47 074 900 shares) of issued shares have been purchased at an average price of R51.15 per share. There is presently no intention to trade in these shares. If adjusted for this expenditure, gearing is reduced to 15% of total equity.

The Group is mindful of the need to integrate and settle Sasol Chemie successfully into SCI. Already, prospects for Sasol Chemie are exceeding expectations. As a result, and in support of its stated growth objectives, Sasol is again alert to acquisition opportunities that will add value and substance to its strategically focused business portfolios. It is understood that suitable opportunities can take time to materialise. The balance sheet, forecasted future cash flows and associated funding options provide substantial capacity for the funding of future growth.

Highlights of the Group's financing activities were:

- Arrangement of a syndicated US\$ 400 million revolving credit facility.
- Issuing of R900 million senior secured three-year bonds as part of a R2 billion domestic medium-term note programme launched in June 2000.
- Issuing of a one-year non-listed commercial bond for R1 100 million, which is one of the biggest single placements of commercial paper by a listed company in South Africa.
- Arrangement of a Euro 470 million and US\$165 million syndicated, multi-currency term loan and revolving credit facility.

Earnings per share increased by 81% to 120 cents, and headline earnings per share increased by 85% to 126 cents. The difference of 116 cents per share (R727 million after tax) relates to the amortisation of net negative goodwill of R44 million, less on the sale of property, plant and equipment of R83 million as well as the impairment of the following assets:

- The acrylonitrile (ACN) plant - R354 million.
- The Group's 50% equity interest in Sasol Fibres - R111 million.
- The chlorine plant at Umbogintwini, south of Durban - R57 million.

- Sales up 60% to R41 289 million
- Operating profit up 71% to R10 773 million
- Attributable earnings up 72% to R7 025 million
- Acquisition of Condea earnings positive

The outstanding performance of the Group over the last five years is the direct result of delivery of the Group's growth strategy, and the repositioning undertaken to sustain real growth in the future. This strategy is focused on Sasol becoming a respected global enterprise.

- Crotonaldehyde and add recovery plants - R82 million.
- Foreign oil producing assets - R35 million.
- Other smaller plants - R49 million.

A final dividend of 180 cents per share has been declared. This brings the total dividend declared to 320 cents per share, which represents an increase of 45%.

SASOL SYNTHETIC FUELS (SSF)

Surging ahead on the strength of a high international crude oil price, improved yields and effective cost management initiatives, SSF increased its operating profit by 97% to R7 871 million.

Notwithstanding operating problems experienced during the year on the air separation units, for which sustainable corrective modifications are necessary and underway, SSF continues to improve the quality of its performance year after year. The continuing ability to innovate better production processes, increase effectiveness and profitability, improve safety and environmental standards and motivate employees towards achieving challenging targets is testimony to the status of this business.

SSF successfully completed its first full financial year of running the new-generation Sasol Advanced Synthol (SAS) reactors, without parallel support from the older-generation CFB Synthol reactors. A ninth SAS reactor was recently installed. These reactors will substantially contribute to increased performance and output in future.

SASOL MINING

In yet another year of exceptional progress, Sasol Mining increased its operating profit by 62% to a record R577 million. While the business benefited from higher coal export prices, its highly effective renewal process

Dividends

The contribution to the operating profit of the Group was as follows:

	25 June 2001	25 June 2000	% increase
Sasol Synthetic Fuels	7 871	3 999	97
Sasol Oil	1 399	958	46
Sasol Mining	677	317	52
Sasol Chemical Industries	2 198	1 600	37
Sasol Polymers	870	884	1
Sasol Solvents	501	273	84
Sasol Alpha Olefins	334	242	38
Nitrogen businesses	271	169	60
Sasol Chemie	264	—	—
Other	19	55	—
Other	(168)	(89)	—
Capital items and goodwill	11 758	6 638	77
(885)	(348)	—	—
Total	10 773	6 292	71

progressed successfully through all production and support operations. The higher international coal prices increased the export contribution to operating profit to R235 million. Exports remain integral to the business' growth strategy.

The 'new' process has been successful that it has become embedded as a continuous improvement philosophy and has spawned further improvement initiatives. These include enhancements to key activities such as maintenance, information management and human resources development.

It is noteworthy that Sasol Mining was rated in the upper-middle, in a productivity benchmarking exercise completed during the year, involving comparable South African collieries.

SASOL OIL

The upward trend in the performance of Sasol Oil continued during the past year and operating profit increased by 62% to R1 309 million. This pleasing performance resulted from higher refining margins, increased sales volumes, the rand's depreciation against the US dollar and further improved operational and commercial efficiencies. Production and distribution costs were controlled to well below inflation levels. It is estimated that the market for liquid fuels declined by 0.8% during the year. Non-African States also used less fuel. The collapse of the Zimbabwe market was a notable feature.

The Sasol/Total South African joint venture refining company, National Petroleum Refiners of South Africa (Nafra) performed well for almost the entire year. Nafra has long been an exceptionally safe and productive refinery. The most unfortunate fire that occurred near financial year-end is regretted. Two people died and the

crude distillation unit (CDU) was damaged.

Sasol again expresses its condolences to the families of these two persons.

The refinery is likely to return to full production in October 2001. The impact of the incident on operating profit was limited to the insurance excess of R60 million for Sasol. Corrective measures to prevent a recurrence of such an incident are being effected.

The refinery's performance was otherwise pleasing and a 92% product yield achieved was an all-time record. Nafra also achieved major improvements in energy efficiency and reduced atmospheric emissions.

The R700 million Nafra expansion project is expected to achieve its June 2002 commissioning target. It will enable a 22% increase in capacity.

A notable success during the year was the complete change to unleaded petrol in the form of Sasol's Formula 100 Dual Fuel in March 2001. Motorists welcomed the Dual Fuel launch as an innovative way to satisfy their fuel requirements.

The long-standing Main Supply and Blue Pump agreements with South African oil companies have prohibited the Group from operating its own branded service station network. These agreements expire at the end of 2003 following notice given by Sasol in 1999. The Group is progressing with far-sighted plans to have a Sasol branded service station network in place by 2004.

SASOL CHEMICAL INDUSTRIES

Maintaining its excellent track record of the last four years, SCI increased operating profit by 37% to R2 199 million.

This achievement is especially gratifying because many divisions experienced severe margin pressure due to continuing high oil and other feedstock prices. The affected products included polymers, alpha olefins, fertilisers, commercial explosives, waxes and phenolics.

The primary contributions to SCI's performance include:

- Continuing strong customer support and excellent worldwide logistics.
- Further increases in productivity and stringent management of operating costs.
- Higher prices for ammonia and value-added carbon and tar products.
- Overall volume growth in sales of most products.
- The commissioning of new production capacity in South Africa.
- The rand's depreciation against the US dollar.

Highlights and notable events during the year include:

- The acquisition of Sasol Chemie and its integration into the existing Alpha Olefin and Solvents divisions to form two global businesses with world-scale status and strong market positions.
- The acquisition of the remaining 50% of Pademil, Phabonwa from AECI and its subsequent integration into Sasol Agri.
- The commissioning of the third hexene train in September 2000 at Secunda, raising annual hexene capacity to about 200 000 tons.
- The restart of the polypropylene plant at Secunda after the fire in February 2000. Sasol Polymers has since consistently run the plant at above design capacity. The division also successfully re-entered local and international markets and emerged from its crisis with its reputation with customers intact.
- The commissioning of the R270 million ethyl acetate plant at Secunda. Utilising novel Sasol developed technology, the plant will produce 50 000 tons a year of product, most of which will be exported.
- The sanctioning of a project to build a 150 000 tone a year n-butanol plant in Sasolburg, using technology licensed from Mitsubishi Chemical Corporation of Japan.

Sasol Chemie

The integration of Sasol Chemie since 1 March 2001 is progressing according to plan. Operating profit for the first four months to 25 June 2001 amounted to R204 million, which is pleasing considering the relatively high feedstock prices for the same period. As mentioned above, the effect of this commendable result, after taking full interest on the acquisition price of Sasol Chemie into account, is positive on the Group's earnings.

SASOL SYNTHETIC FUELS INTERNATIONAL (SSI)

After several years of extensive preparatory work by GSI, a new era of international synthetic fuel ventures is now within reach. In July 2001, approval was given for the start of front-end engineering and design for the Qatar and Nigerian gas-to-liquids (GTL) plants.

The 50:50 Sasol/Chevron global joint venture was finalised in October 2000. Its objective is to develop a GTL industry, based on Sasol technology, and global markets for GTL fuels by designing, building and operating plants at suitable locations to manufacture and market premium grade alternative fuels and their associated products.

The Nigerian plant will have a daily GTL fuel and naphtha production capacity of about 34 000 barrels and is due to be commissioned in 2005. The Qatar plant will have a similar total capacity and is also due to be commissioned in 2005.

Return of allotment of shares

[Section 93(3)]

Registration No. of company
1979/003231/06

Name of company **SASOL LIMITED**

1. Date of allotment of shares **18 December 2001 – 14 January 2002**

2. Authorized capital of company:

No Par Value		Par Value		Nominal Amount of each share	Authorized Capital
Number of Shares	Class of Shares	Number of Shares	Class of Shares		
1,175,000,000	Ordinary			R	R
1,175,000,000	Total			Total	

3. Shares subscribed for in memorandum of association:

No Par Value		Par Value		Nominal Amount of each Share	Total Amount Paid-up
Number of Shares	Class of Shares	Number of Shares	Class of Shares		
7	Ordinary			R	R
Total: 7	Total			Total	

To be completed by company.

Acknowledgement of receipt of return of allotments, dated **17 January 2002**

Name of company **SASOL LIMITED**

Postal address **P O Box 5488**
Johannesburg 2000

Date of receipt by
Registrar of Companies

Date of stamp of companies
Registration Office

Registrar of Companies

4. Number of shares previously issued, paid-up capital and stated capital, including shares subscribed for in the memorandum

No Par Value				Par Value			
Number of Shares	Class of Shares	Issue Price per Share	Stated Capital	Number of Shares	Class of Shares	Nominal amount of each share	Amount of Issued paid-up Capital
		R	R			R	R
666,860,625	Ordinary	2.59	2,679,914,228				
Total: 666,860,625		Total	2,679,914,228	Total: 0		Total	

Summary of issued capital prior to allotment:

Amount of issued paid-up capital

Stated capital

Premium account

Total issued capital

R 2,679,914,228.00

*Before deduction of interim expenses, commission and cost of share issued.

R 2,679,914,228.00

5. Shares comprising this allotment:

No Par Value				Par Value				
Number of Shares	Class of Shares	Issue Price per Share	Stated Capital	Number of Shares	Class of Shares	Nominal amount of each Share	Premium on each share	Total amount of paid-up capital and premium, if any
		R	R			R	R	R
170,900	Ordinary	39.83	6,068,200					
Total: 170,900		Total	6,068,200	Total: 0		Total		

6. (a) Shares allotted otherwise than for cash:

No Par Value				Par Value				
Number of Shares	Class of Shares	Issue Price per Share	Deemed stated capital	Number of Shares	Class of Shares	Nominal amount of each share	Premium on each share	Total amount of capital deemed to be paid-up
		R				R	R	R
Total: 0		Total		Total: 0		Total

APPROVED BY SHARE TRUST ADMINISTRATOR

Baker

Return of allotment of shares

[Section 93(3)]

Registration No. of company
1979/003231/06

Name of company **SASOL LIMITED**

13 March 2002 - 11 April 2002

1. Date of allotment of shares

2. Authorized capital of company:

No Par Value		Par Value		Nominal Amount of each share	Authorized Capital
Number of Shares	Class of Shares	Number of Shares	Class of Shares		
1 175 000 000	Ordinary			R	R
1 175 000 000	Total			Total	

3. Shares subscribed for in memorandum of association:

No Par Value		Par Value		Nominal Amount of each Share	Total Amount Paid-up
Number of Shares	Class of Shares	Number of Shares	Class of Shares		
7	Ordinary			R	R
Total: 7	Total			Total	

To be completed by company.

Acknowledgement of receipt of return of allotments, dated **11 April 2002**

Name of company **SASOL LIMITED**

Postal address **P O Box 5485**
Johannesburg 2000

Date of receipt by
Registrar of Companies

Date of stamp of companies
Registration Office

Registrar of Companies

4. Number of shares previously issued, paid-up capital and stated capital, including shares subscribed for in the memorandum

No Par Value				Par Value			
Number of Shares	Class of Shares	Issue Price per Share	Stated Capital	Number of Shares	Class of Shares	Nominal amount of each share	Amount of Issued paid-up Capital
		R	R			R	R
886 280 875	Ordinary	2.58	2895906555.50				
Total: 886 280 875		Total	2895906555.50	Total: 0		Total	

Summary of issued capital prior to allotment:

Amount of issued paid-up capital

Stated capital

R 2 695 906 555,50

Premium account

*Before deduction of interim expenses, commission and cost of shares issued

Total issued capital

R 2 695 906 555,50

5. Shares comprising this allotment:

No Par Value				Par Value				
Number of Shares	Class of Shares	Issue Price per Share	Stated Capital	Number of Shares	Class of Shares	Nominal amount of each Share	Premium on each share	Total amount of paid-up capital and premium, if any
		R	R			R	R	R
284 750	Ordinary	43,3	11739602.50					
Total: 284750		Total	11739602.50	Total: 0		Total		

6. (a) Shares allotted otherwise than for cash:

No Par Value				Par Value				
Number of Shares	Class of Shares	Issue Price per Share	Deemed stated capital	Number of Shares	Class of Shares	Nominal amount of each share	Premium on each share	Total amount of capital deemed to be paid-up
		R				R	R	R
Total: 0		Total		Total: 0		Total		

(b) The consideration for which the shares have been allotted is as follows*

*A copy of the contract, in writing, constituting the title of the allottee to the allotment, together with any contract of sale, or for service or other consideration in respect of which the allotment was made, must be attached. If the contract is not in writing, a memorandum containing full particulars of such contract must be attached. (For particulars of allottees see overleaf.)

(c) The names and addresses of the allottees:

Name of Allottee	Address of Allottee	Number of Shares	Description of Shares Allotted
SEE ATTACHED ADDENDUM			

7. Issued Capital on Date of this Return:

No Par Value			
Number of shares	Class of shares	Issue price per share	Stated capital
		R	R
666 280 875	Ordinary	2.59	2695905555.50
284 750	Ordinary	43.30	11739602.50
Total: 666565625		Total	2707646158.00

Issued Capital at Date of this Return:

Par Value

- Attributable earnings per share up 50% to 748 cents
(USD up 16% to 80 US cents)

number 45 for the half-year ended 31 december 2001

SASOL

reaching new frontiers

and technology

- *Interim dividend declared up 43% to 200 cents per share*
- *Capital projects approved of R13,2 billion (R12,2 billion committed to Southern Africa)*
- *Sasol Chemie (previously Condea) contributing strongly and earnings positive*
- *Productivity improvements and efficiency gains boost earnings*

The consolidated half-year results presented cover the six-month periods ended 31 December 2001 and 25 December 2000 respectively. The figures for the 2001 results exceed the year-ended 2001 figures.

(All figures in R million unless stated)

Overview

The financial year commenced with global economies heading for recession and prices and demand for petrochemicals rapidly weakening.

The events of 11 September 2001 exacerbated these conditions. Oil prices and refinery margins were subsequently adversely affected.

Within this poor trading environment, the Group continued to focus on its primary growth drivers and operating priorities and reaped the reward. For the six months ended 31 December 2001, the directors are pleased to announce an increase in attributable earnings of 47% to R436 million and attributable earnings per share of 50¢ from 340 cents to 74¢ cents.

Sales increased by 64% from R12.0 billion to R27.8 billion. Most of this increase was contributed by Sasol Chemie, which was acquired on 28 February 2001. It is noteworthy that 57% of total sales (R15.8 billion) was from exports and the Group's overseas operations. This exceeds the strategic target of 50% (by 2005), which was set four years ago. Furthermore, sales per employee expressed in US dollars increased by nearly 10%.

The renewal and productivity improvement programmes throughout the Group continued to focus also on efficient, reliable and sustainable plant operations. The ongoing success of these programmes again positively contributed to Group performance and earnings enhancement.

The increase in operating profit of R2 261 million (47%), from R4 786 million to R7 047 million, was achieved despite a reduction in average oil prices of nearly 20% (dated Brent from USD30.46 to USD24.73), and international commodity chemical prices being approximately 25% lower in dollars. The 30% weakening in the Rand/Dollar exchange rate, from an average of R7.17 to R9.25, more than offset the impact of these lower prices.

While the decline in the value of the Rand, notably towards the end of 2001, positively impacted on revenues, it is noteworthy that US dollar attributable earnings per share increased by 16% to 80 US cents. This pleasing performance should be seen in the context of many leading international fuel and petrochemical companies showing a decline in earnings during the comparable period.

This commendable result was achieved as a result of consistent delivery by all major businesses, each of which performed most satisfactorily during the period under review. Of particular significance were the results of Sasol Chemie, which exceeded expectations in depressed European and American markets, and Sasol Mining which achieved exceptional results.

Major capital expenditure on projects approved during the period under review included the Natural Gas project and an acrylic acid and acrylates project. The former will bring natural gas from Mozambique to the Pande and Temane to the industrial heart of South Africa and should, in time, spawn further projects that will significantly contribute to economic development in Southern Africa. Capital expenditure committed on all projects amounted to R13.5 million, of which R12.2 billion is committed to projects in Southern Africa.

Group gearing (net of cash) at 31 December 2001 was 30%, which is within the strategic target of 30 to 40%. This adjusts to 17% if the share repurchase programme, at the average price at which the shares were purchased, is excluded.

Funding requirements during the half-year were met primarily from Group cash funds and normal short-term banking facilities, supplemented by the following debt arrangements at 31 December 2001:

- in south africa:
 - R2 billion domestic medium-term note programme, of which R500 million was utilised.
 - R4 billion commercial paper programme, which has not yet been utilised.
- internationally:
 - USD 400 million syndicated revolving credit facility, of which USD 80 million was utilised.
 - Euro 470 million and USD 165 million syndicated, multi-currency term loan and revolving credit facility specifically arranged for Sasol Chemie. Euro 304 million and USD 157 million respectively were utilised. Payment for Sasol Chemie was made on 28 February 2001.

sasol mining

The transformation of Sasol Mining into a high performing business continues. Operating profit increased by 152% to R641 million. This outstanding achievement was the result of increased coal prices and substantially improved productivity at all the mines.

Cash mining costs increased by only 1% and productivity at the continuous mining sections improved by 9%. Further improvements in productivity are expected during the second half of the financial year. Targeted rates of return will comfortably be exceeded, which is

testimony to the superb work undertaken in this business since the renewal initiative was launched four years ago. Sasol Mining was honoured by being shortlisted as one of five finalists for the prestigious Financial Times Global Coal Company of the Year Award in New York in December 2001.

sasol synfuels

Notwithstanding lower oil prices and higher coal input costs, operating profit from synthetic fuels increased by 2% to R3 688 million. Excluding the impact of higher coal costs, product cost per ton increased by 4%, which is well within the South African Production Price Index (PPI) movement of 8% during the six months under review.

Good progress was made in terms of improving overall productivity and efficiencies through better production yields and conversion rates. Labour productivity in terms of tons produced per employee also increased.

Production volumes were 5% higher, mainly as a result of better plant stability and the commissioning of the ninth SAS reactor. Capital investment in Secunda is currently directed towards constructing the 15th oxygen train and upgrading the sulphur recovery plants to further increase efficiencies.

sasol oil

Sasol Oil's operating profit of R852 million improved by 12%. While fuel sales volumes were below expectations, sales in the gas business were buoyant and well above the previous period.

The damage caused by the fire at Natsref, in June 2001, was successfully repaired and the refinery was recommissioned during October 2001. The refinery is now operating at the same levels of stability and efficiency that were achieved prior to the incident. Sasol was comprehensively insured for shutdown costs and business interruption losses and the insurance excess was carried in the previous financial year.

The establishment of a retail service station network to meet Sasol Oil's requirements after the expiry of the Main Supply Agreement in December 2003, is progressing well. It is confidently expected that approximately 300 high quality and well situated stations will be operational by mid-2004.

sasol chemical industries

In a global environment of weakening petrochemical prices, the performance of Sasol Chemical Industries (SCI) was most satisfactory. Operating profit increased by 78% to R1 861 million. The increase achieved by the South African based businesses was a pleasing 36%, with the solvents (130%) and nitrogen (69%) businesses showing particularly strong performances.

The extraction of synergies at Sasol Chemie is progressing well. Its operating profit of R435 million was earnings enhancing and better than expected. Its cash flow was strong, enabling a pleasing reduction of financing costs.

The significant surge in operating profit achieved by the nitrogen cluster of businesses comprising ammonia, fertilisers and explosives was a special highlight. Its consolidated operating profit for the

period under review increased by 69% to R233 million. While the weakening of the Rand was an important contributor to this result, improved margin management and operating efficiencies also characterised their performance.

At Sasol Polymers, optimum plant operations and successful marketing into local and overseas markets helped to offset the adverse impact of lower international polymer prices and tight margins. The division's investments in Malaysia were started up successfully and continuous operation at targeted operating levels was achieved by end-February 2002.

sasol synfuels international

A key objective of the Nigerian Gas-to-Liquid fuels venture was achieved in January 2002, when the engineering design package was completed within budget and schedule. This now enables the project team to complete the front-end engineering and design package and cost estimate, which is due for completion in March 2002. Completion of the engineering design package for the Qatar Gas-to-Liquid fuels venture is on track for submission by end-May 2002.

sasol petroleum international

Sasol Petroleum International continued to build its portfolio of activities in Southern and West Africa. The development of the Pande and Temane gas fields in Mozambique was approved in September 2001 as part of the Natural Gas project.

Approval was also granted for the development of the Etame field offshore southern Gabon. First oil is expected in September 2002, and a longer term plan to consolidate a substantial position in West Africa is being pursued.

profit outlook

Although the performance of the USA economy during the last quarter of 2001 was better than expected, uncertainty in world fuel and petrochemical markets prevails. Crude oil and many petrochemical and related feedstock prices are relatively weak although they appear to have stabilised. Nevertheless, Sasol is well positioned to continue to benefit from its well established marketing and technological strengths and ongoing productivity improvement processes.

Assuming no dramatic shifts in world markets or disruptions in the financial sectors, and despite the possibility of a weaker oil price and a slight strengthening of the Rand in the second half of the financial year, the Group expects earnings to show substantial real growth for the full year ending 30 June 2002. Earnings growth in dollars is expected to remain positive.

Sasol intends to continue its share repurchase programme subject to acceptable circumstances prevailing.

corporate governance

Strong corporate governance structures and mechanisms are in place at Sasol and are constantly reviewed to reflect internal corporate changes, legislative changes and national and international developments in relation to corporate governance.

In particular, Sasol subscribes to the Code of Corporate Practices and Conduct contained in the King II Report on Corporate Governance for South Africa which will be released in the first quarter of 2002. All the key principles underlying responsible and effective corporate governance practices and conduct are reflected in Sasol's corporate governance structures and practices.

Sasol's business conduct guide commits the Group to the highest standard of compliance with laws and regulations, and to integrity, and sound behaviour and ethics in dealing with all its stakeholders. An ethics "Hot Line" has been established in order for stakeholders to anonymously report fraud and other crimes and irregularities.

strate

The dematerialisation of Sasol shares, under STRATE, commenced on 19 November 2001. Trading for electronic settlement began on 10 December 2001 and the first electronic settlement took place on 19 December 2001. The dematerialisation process commenced and was completed successfully without material occurrences being reported.

declaration of interim dividend number 45

The directors of Sasol Limited have declared an interim dividend of 200 cents per share (2000: 140 cents per share) for the half-year to 31 December 2001. The dividend has been declared in the currency of the Republic of South Africa.

Trading in the STRATE environment requires settlement within five business days, in accordance with the settlement procedures of STRATE, the following dates will apply to the interim dividend:

Last day for trading to qualify for and participate in the interim dividend (cum dividend)	Friday, 5 April 2002
Trading ex dividend commences	Monday, 8 April 2002
Record date	Friday, 12 April 2002
Dividend payment date (electronic and certificated register)	Monday, 15 April 2002

Dividend cheques in payment of this dividend to certificated shareholders will be posted to shareholders on or about Monday, 15 April 2002. Electronic payment to certificated shareholders will be undertaken simultaneously.

Shareholders who have dematerialised their share certificates will have their bank accounts, which are linked to their Central Securities Depository Participant or Broker's safe custody accounts, credited on Monday, 15 April 2002.

In the case of certificated shareholders, notice of any change of address of shareholders must reach the transfer secretaries, Mercantile Registrars Limited, on or before Friday, 5 April 2002. Shareholdings may not be dematerialised or rematerialised between Thursday, 28 March 2002 and Friday, 12 April 2002, both days inclusive.

By order of the board

N.L. Joubert

Company secretary

notes to the financial statements

This interim announcement has been prepared in compliance with the Listings Requirements of the JSE Securities Exchange South Africa, in accordance with International Accounting Standard (IAS) 34 on Interim Financial Reporting and the requirements of the South African Companies Act. The unaudited results should be read in conjunction with the 2001 annual financial statements. Where appropriate, comparative figures have been restated to facilitate improved disclosure. The accounting policies adopted are consistent with those applied in the previous year.

During the year, IAS 39 Financial Instruments: Recognition and Measurement was adopted. The standard requires that all financial assets and financial liabilities are recognised on the balance sheet at fair value. Fair value adjustments on non-trading financial assets are reported in equity until the financial asset is sold. Hedge accounting has been applied to capital projects and long-term external loans. The financial year end of the Group has been changed from 25 June to 30 June with the effect from the 2002 financial year.
