Re: Luxor Industrial Corporation
File No: 82-822

Dear Sir or Madam:

We enclose the following for your information and records:

- Quarterly Report for filing of Form 51 - 901F dated 3/31/2002
- News Release dated 1/7/2002
- News Release dated 1/28/2002
- News Release dated 2/27/2002
- News Release dated 3/6/2002
- News Release dated 4/2/2002
- News Release dated 4/10/2002
- News Release dated 5/2/2002
- News Release dated 5/8/2002
- Insider Report for Terry O. Lashman dated 1/9/2002
- Insider Report for Terry O. Lashman dated 2/6/2002
- Insider Report for Terry O. Lashman dated 2/22/2002
- Insider Report for Terry O. Lashman dated 3/5/2002
- Insider Report for Terry O. Lashman dated 3/25/2002
- Insider Report for Terry O. Lashman dated 4/5/2002
- Insider Report for Terry O. Lashman dated 4/18/2002
- Insider Report for Terry O. Lashman dated 5/3/2002
- Insider Report for Terry O. Lashman dated 5/14/2002
- Insider Report for Ken McClelland dated 3/5/2002
- Annual Financial Statement for filing of Form 51 - 901F dated 12/31/2001

We trust you will find the enclosures in order.

LUXOR INDUSTRIAL CORPORATION

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

MARCH 31, 2001

1. Nature of Operations

These financial statements have been prepared on a going concern basis, which assumes that the company will be able to realize its assets and discharge its liabilities in the normal course of business.

The continuing operations of the company are dependent upon its ability to generate profitable operations in the future or to obtain additional funding from other sources.

J.E.J. Holdings Inc., the Company's wholly owned subsidiary, ("JEJ") holds an exclusive worldwide license under patent applications and any resulting patents in the United States of America and Canada, to manufacture, market and distribute a patented engineered bridging system utilized in the building construction industry. JEJ has licensed the North American rights to Western Interlok Systems Ltd.

Western Interlok Systems Ltd., the Company's 100% voting controlled subsidiary, ("WIS") manufactures and distributes a patented engineered bridging system. These products are distributed to building material distributors located in Canada and the United States of America. During the years ended December 31, 1996, 1997, and 1998 the company obtained Canadian and U.S. certification of its brace-bridging system.

Eastern Brake Alert Systems Ltd., a 75% owned subsidiary of the Company, ("EBAS") has acquired the North American manufacturing and marketing rights for an air-brake warning system for the trucking industry. The system monitors the air-brake system and sends a signal to the driver when a problem in the brake system is identified. This system is still in the development stage. There were no expenditures made in the current period.

2. Significant Accounting Policies

a) Consolidation

The consolidated financial statements include the accounts of the company and its subsidiaries. As at end of the period, the company's subsidiaries and its percentage equity interest in each are as follows:

J.E.J. Holdings Inc.	100%
Western Interlok Systems Ltd.	100% voting controlled
Eastern Brake Alert Systems Ltd.	75%

b) Marketable securities

Marketable securities are recorded at cost. Market value at the end of the period is \$60 (2001 -\$88).

c) Inventory

Raw materials are valued at the lower of cost and replacement cost. Work in process and finished goods are valued at the lower of cost and net realizable value. Cost for all inventory is determined on the first-in, first-out method which, for work in process and finished goods, includes the cost of material, direct labour, utilities and freight. Other manufacturing overhead has not been applied because it is not considered material.

d) Loss per share

Loss per share has been calculated using the weighted average number of shares issued during the period. Fully diluted per share information is calculated as if all warrants and options outstanding at the end of the period were converted at the later of the beginning of the year or the date of issuance. The weighted average number of shares outstanding is 18,281,034 (2001 - 18,054,784). Diluted loss per share has not been provided for the first quarter of 2002 and 2001 as it would be anti-dilutive.

e) Share issue costs

Costs associated with the issuance of share capital are charged directly to share capital.

f) Foreign currency translation

All foreign currency transactions are related to the United States. At the end of the period, monetary assets and liabilities resulting from foreign currency transactions are translated into Canadian dollars at 1.50 per US dollar (2001 - 1.50). Revenue and expense items, excepting amortization, are also translated at 1.50 per US dollar (2001 - 1.50).

g) Research and development expenditures

Certain of the expenditures of WIS related to the development and certification of the company's improved brace-bridging system have been deferred. These deferred costs are being amortized to operations over 15 years.

h) License and patent costs

License and patent costs relate to the cost of the license and related patent costs for the brace-bridging system. These costs are being amortized to operations over 15 years.

i) Financial instruments

The company's financial instruments consist of cash, marketable securities, accounts receivable, accounts payable and advances from related parties. Unless otherwise noted, it is management's opinion that the company is not exposed to significant interest, currency or credit risks arising from these financial instruments. The fair value of these financial instruments approximate their carrying values, unless otherwise noted.

j) Estimates

The preparation of financial statements in conformity with generally accepted accounting principals requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

k) Capital assets

Capital assets are recorded at cost less accumulated amortization. Amortization is provided using the declining-balance method at the rate of 20% for furniture and equipment, 30% for automobile and the straight-line method over the remaining term of the lease for leasehold improvements.

l) Income taxes

Income taxes are accounted for using the future income tax method. Tax benefits have not been recorded due to uncertainty regarding their utilization.

m) Stock-based compensation

The company has approved purchase options which are detailed in note 6. No compensation expense is recognized for this plan when shares or share purchase options are issued. Any consideration paid on the exercise of share purchase options or purchase of shares is credited to share capital. If stock or stock options are repurchased, the excess of the consideration paid over the carrying amount of the stock or stock option cancelled is charged to deficit.

3. Capital Assets

	2002			2001
	Cost	Accumulated Amortization	Net Value	Net Value
Furniture and equipment	\$ 85,384	\$ 56,784	\$ 28,600	\$ 31,804
Leasehold improvements	33,726	33,726		270
Automobile	6,000	4,823	1,177	1,667
License and patents	141,148	44,059	97,089	100,191
	\$ 266,258	\$ 139,392	\$ 126,866	\$ 133,932

4. Research and Development Expenditures

	2002	2001
Balance, beginning of year	\$ 534,546	\$ 583,141
Less: amortization	14,043	14,043
Balance, end of the period	\$ 520,503	\$ 569,098

5. Advances To / From Related Parties

Advances to or from directors and companies controlled by directors are unsecured and have no specific terms of repayment.

6. Share Capital

a) Authorized Capital

99,588,750 common shares without par value

b) Issued Capital

	2002		2001	
	Shares	Amount	Shares	Amount
Balance, beginning of year	18,281,034	\$9,114,340	18,054,784	\$8,859,340
Issued for cash:	-	-	-	-
Balance, end of the period	18,281,034	\$9,114,340	18,054,784	\$8,859,340

c) Securities issued during the period

Date	Common	Price	Proceeds	Type	Consideration	Commissions
Nil						

d) Stock options plan

The company has reserved shares for issuance under its stock option plan. The plan provides for the granting of stock options to directors, officers and eligible employees at the fair market value of the Company's stock at the grant date. Options were granted during the period are as follows:

Date Granted	No. Of Shares	Price	Expiry Date
Nil			

e) Warrants and options outstanding

Description	No. Of Shares	Price	Expiry Date
Series "A" share purchase warrants*	420,000	\$0.75	Aug 1, 2002
Series "A" share purchase warrants*	437,500	\$0.50	Jul 17, 2003
Director and employees stock options	300,000	\$0.40	Mar19, 2006

*Non-transferable warrants are outstanding. Each warrant entitles the holder to purchase an additional share, generally for a two year period from time of issue.

f) Shares held in escrow

As at the end of the period, 245,000 shares are held in escrow. Their release is subject to determination by regulatory authorities.

7. Commitment

The company has agreed to pay a 6% royalty on sales of the brace-bridging system and a 5% royalty on sales of the air-brake warning system to an inventor who is also a director of the company.

8. Related Party Transactions

- a) During the period, the company paid management fees of \$12,000 (2001 - \$12,000) to a company controlled by a director of the company.
- b) During the period, the company reimbursed \$43,406 (2001 - \$42,039) for office, rent, and promotional expenses to a company controlled by a director of the company. At the end of the period, \$74,381 (2001 - \$80,594) was included in advances from related parties.
- c) During the period, the company paid marketing consulting fees of \$18,750 (2001 - \$18,750) to a company controlled by a director of the company.
- d) During the period, the company reimbursed \$9,176 (2001 - \$57) for product promotional expenses to a director. As at the end of the period, \$1,266 (2001 - Nil) was included in advances from related parties.
- e) During the period, a company controlled by a director was paid \$12,336 (2001 - \$12,336) for marketing consulting services.
- f) During the period, the company reimbursed \$3,097 (2001 - \$734) for product promotional expenses to a director. As at the end of the period, \$703 (2001 - Nil) was included in advances from related parties.
- g) During the period the company incurred royalties on the sales of the brace-bridging system of \$13,421 (2001 - \$11,222) (see note 7). As at the end of the period, \$67,110 is payable (2001 - \$10,070).

9. Income Taxes

The company has approximately \$5,000,000 of losses available to reduce taxable income of future years. The benefit of these losses has not been recorded in the financial statements.

10. Comparative Figures

Certain comparative figures have been reclassified to conform with the presentation adopted in the current year.

LUXOR INDUSTRIAL CORPORATION

QUARTERLY REPORT
THREE MONTHS ENDED MARCH 31, 2002

MANAGEMENT DISCUSSION

Product Sales

Sales for the quarter ending March 31, 2002 were \$242,158, up 20% compared to \$201,808 for the same period of 2001.

A record 19,433 IBS 2000® units were sold in April, 2002. The previous monthly record was 16,348 units in June, 2001. It was also the first time that monthly sales exceeded \$100,000.

The overall increased sales pace is a continuation of the growth trend that began in the second half of 2000. The Company is confident the sales of IBS 2000® can be increased to the level necessary for the profitable operation of the Company.

The Company is continuing to pursue its objective of appointing new distributors for its IBS 2000® products in active housing markets throughout the United States. Improved cash flow is allowing the Company to move forward on enacting its marketing program. Continuing activities in addition to the selection of distributors, include direct contact with builders, advertising in key industry publications, development of collateral materials and design software programs and the procurement of the necessary engineering approvals for both engineered and conventional wood products across North America.

Product Distribution

Luxor began 2002 with eighteen distributors. In Canada, Weyerhaeuser Canada Limited in British Columbia and Goodfellow Inc. and Jager Industries Inc. in Ontario. In the United States, Vandermeer Forest Products, Inc. and Hampton Distribution Companies in Washington; International Wood Products and Hampton Distribution Companies in Oregon; Snively Forest Products in Colorado; Dixie Plywood in Texas; Boise Cascade Corporation in Georgia; Mid-State Lumber Corp.; Eastern Engineered Wood Products, Holbrook Lumber Company and P&R Truss Co. in the North East; Snively Forest Products, Atlantic Forest Products, Inc., North American Products, Inc. and Universal Forest Products in the mid Atlantic.

In March 2002, Snively Forest Products located in Dallas, Texas joined as a distributor.

Strategic Alliances

In March 2002, Trus Joist™, a Weyerhaeuser Business, released version 6.0 of its TJ Beam® design software containing floor performance enhancement factors for Luxor's patented IBS 2000® Load Sharing Connectors™. Luxor has been advised that approximately 12000 copies of the program will be distributed to registered Trus Joist™ designers.

Previously, Trus Joist™ approved Luxor's patented IBS 2000® Load Sharing Connectors™ for use with its TJI® joists. The approval followed an extensive testing program to evaluate the floor performance contribution attained from various floor restraint devices. Luxor's IBS 2000® was the only proprietary product to be approved by Trus Joist™.

The market for Engineered Wood I-Joists has grown to exceed 40% of North America's housing starts. Weyerhaeuser, with the recent purchase of Willamette Industries, has an estimated 55% market share making it the leading supplier within this industry sector. The release of the design software therefore gives Luxor access to a market opportunity that is approximately 2.5 times greater than the Canadian housing industry.

Luxor is now pursuing specification opportunities for its IBS 2000® Load Sharing Connectors™ with architects, engineers and dealers designing with the Trus Joist™ software as part of its expanded IBS 2000® marketing program. Luxor is continuing to develop product distribution and representation opportunities to achieve more direct contact with builders and designers using engineered and conventional wood joist floor systems.

Business Development

In April of 2001, Luxor released its IBS 2000® Floor Navigator™ Design Analysis Software. The Floor Navigator™ is Luxor's first public release of its floor analysis program. The Floor Navigator™ program provides floor designers with both structural and performance information required to specify Luxor's patented IBS 2000® Load Sharing Connectors™. The addition of the software program to Luxor's growing list of design tools improves Luxor's ability to demonstrate the capability of its IBS 2000® Connectors to build better floors for less.

All design programs provide structural information. Luxor's Floor Navigator™ program is one of the first in the industry to provide performance as well as structural information. Each floor analysis includes Luxor's Floor Performance Rating that quantifies the performance of different floor joist configurations. This provides designers with the floor's level of performance before it is built. The floor performance rating system has proven to be the most valuable sales tool for IBS 2000®. The ability of the Floor

Navigator™ software to provide the Performance Rating as a natural part of the design process will increase the specification of IBS 2000® in floors.

Software has been completed for Boise Cascade Corporation, Louisiana Pacific Corporation and Jager Industries Inc. I-joists as well as for I-joist manufacturers who are Members of the American Plywood Association. Luxor intends to post updates to the program on its website, www.luxorcorp.com.

With the completion of the research and development phase of IBS 2000® and the product's success with I-joists in regional markets, the Company feels that its strategic program goals for this market segment can be met in the forward period.

Corporate Outlook

The Company is proceeding to implement its strategic plan with an emphasis on expanding the sales of its products. The expansion to new markets and the raising of awareness of the IBS2000® product requires significant funding to retain the human resources and produce the required promotional materials. The Company is currently utilizing cash flow from operations to expand distribution. Upon improvement in equity markets, the Company expects to raise the necessary capital to achieve a more rapid rate of sales growth.

Based on sales growth in 2001, the Company is confident that the sales of IBS2000® can be increased to the level necessary for the profitable operation of the company. The Company continues to move forward on enacting its marketing program. Continuing activities include the selection of distributors, direct contact with builders, advertising in key industry publications, development of collateral materials and design software programs and the procurement of the necessary engineering approvals for both engineered and conventional wood products across North America.

In the forward period the Company will also devote a portion of its resources to the development of new products based on its patented technology. The product lines will be related to the current technology for marketing and distribution by Luxor's existing sales network.

Funding

Due to the existing state of equity markets, the Company is not planning to raise significant capital in the short term. Other than obligations to related parties, the Company is able to maintain a positive working capital position.

Other

Additional corporate developments are available on the Company's website, www.luxorcorp.com.

LUXOR INDUSTRIAL CORPORATION

TRADING SYMBOL: (CDNX) LRL.V
TRADING SYMBOL: (OTC) LXRRF

January 7, 2002
PRESS RELEASE 01.2002

12g3(b)#82-822
STANDARD & POOR'S LISTED

Marketing Events in Luxor Industrial Corporation

Gresham, Oregon...IBS 2000® Used to Add Performance to Code Minimum Span. A framing error at Blue Lake Development left an Oregon builder with an 11-7/8" I-Joist stretched to a code maximum 23' span. His search for performance enhancement included the traditional solutions of doubling the joists and adding depth to the joists. The builder elected to use two rows of IBS 2000® because it offered the greatest performance improvement for the least cost.

Gresham, Oregon...IBS 2000® Used by Paragon Properties. Portland area developer, Paragon Properties used IBS 2000® in 9 duplex / fourplex units to achieve lower cost and better performance in their floor systems. The I-joist system was designed by Luxor's distributor, Hampton Distribution Company of Portland. Additional phases will be built in 2002 using the same system.

Portland, Oregon...IBS 2000® Exhibited at the JLC Show. Luxor exhibited its IBS 2000® Joist Connectors at the Journal of Light Construction (JLC) Show. Luxor promoted "A Better Way to Build Floors" as its theme to the 6500 registered builders. The builders enthusiastically received the premise of better performing floors at a lower cost. Builders were able to see IBS 2000® installed in a joist system as part of the Hampton Distribution Company's display. Hampton experienced a very positive response to IBS 2000® from the builders attending their exhibit.

Six Nations, Ontario...IBS 2000® Used at The Six Nations Reserve. IBS 2000® is being used with Jager JSI 14" deep I-Joists in the second floor for a child care/nursery building at the Six Nations Reserve near Brantford. The floor performance rating is a Comfort Plus™. The framers were first time users of the IBS 2000® and commented on how solid the floor was. This structure is unique in that Jager I-Joists are being used along with Temlam LVL, Goodfellow Glulam, Roof Trusses and wood siding.

Kitchener, Ontario...Monarch Construction Uses IBS 2000® at Two New Sites. One and two rows of IBS 2000® Connectors are being used by Monarch Construction with 2 x 8 lumber joists in long span rooms at their Doon South Site and Wyldwood Site. At the Wyldwood Site, IBS 2000® was used to accommodate wider rooms and less beams and bearing walls as spans range up to 15' 8" on the second floor.

Kitchener, Ontario...Project Commences with Heisler Homes. IBS 2000® Connectors are being used by Heisler Homes at their Deer Ridge Project. IBS 2000® is being used in 16' 6" span areas thereby allowing the builder to maintain 2 x 10 lumber joists in the whole floor rather than going to deeper joists as result of the long span area.

Ancaster, Ontario...Alterra Developments Uses IBS 2000® Over Double Garages. Alterra Developments is using two rows of IBS 2000® Connectors with 2 x 8 lumber joists in bedrooms above double garages in townhouses at their Meadowlands Site.

Marketing Events in Luxor Industrial Corporation IBS 2000® Used in British Columbia to Address Homeowner Complaints

Surrey, British Columbia...IBS 2000® Used to Rectify Homeowner Complaints. IBS 2000® Retrofit Connectors were selected by builders of a 59 unit townhouse project following bounce and deflection related complaints by homeowners. The retrofitting with IBS 2000® satisfied the homeowners and IBS 2000® has been specified by the engineer in subsequent phases of the project.

Walnut Grove, British Columbia...IBS 2000® Used in a 37 Unit Townhouse Project. A 37 unit townhouse project is using 2 x 12 lumber joists with IBS 2000® to achieve spans exceeding 20 feet resulting in savings of more than \$300 per unit. Approximately 1500 units of IBS 2000® will be used.

Issaquah, Washington...IBS 2000® Used to Achieve Performance and Cost Benefits. A Washington State builder opted for an IBS 2000® design solution that provided significantly better performance at no increase in cost. The 12 home project uses IBS 2000® at one joist center wider spacing to achieve cost savings and performance enhancement.

Falls Church, Virginia...Virginia Builder Uses IBS 2000® in Two Projects. A Virginia builder is using IBS 2000® in two projects. One project added two rows of IBS 2000® to reduce the deflection and vibration in a 22 foot span using 16" deep I-joists and carrying a ceramic tile topping. The builder improved the customer's satisfaction with the floor and reduced the probability of costly service work to replace cracked tile and grout. The second project, a garage addition, used three rows of IBS 2000® in a 14' deep I-joist floor to reduce bounce and vibration in the active bonus room above the garage.

Richmond Hill, Ontario...Kylemore Homes Uses IBS 2000® at a New Site. Kylemore Homes is using the IBS 2000® with 2 x 8 lumber joists in townhouses at their Elgin Pond Project in Richmond Hill. Currently, their Angus Glen Development in Markham is using the IBS 2000®.

Toronto, Ontario...IBS 2000® Showcased at Construct Show. IBS 2000® was showcased at the Construct Show in Toronto. This show is one of the biggest construction shows in Canada. Builders, renovators, specifiers, building materials suppliers and exporters were all present.

Ontario...IBS 2000® Showcased at Home Hardware Shows. IBS 2000® was showcased at the Home Hardware Building Centres Contractor Nights in Barrie, London and Ottawa. Hundreds of renovators, contractors and builders were present at each show. Building centres involved were within a three hour radius of each show location.

Ontario...Tormina Homes and Glen Rouge Homes Join Growing List of Builders Using IBS 2000®. Tormina Homes is using IBS 2000® with 2 x 10 lumber joists at their Woodlands Site in Whitby and Glen Rouge Homes is using the IBS 2000® at their Blossoms in Woodmere Site in Pickering.

Luxor Achieves Record IBS 2000® Sales in 2001

Luxor Industrial Corporation is pleased to announce sales for the year ending December 31, 2001 of its patented IBS 2000® Load Sharing Connectors™ were a record \$847,281, up 84% compared to \$535,654 for the year 2000. Sales for the fourth quarter of 2001 were \$148,965, down 18% compared to \$180,750 for the same period of 2000. Fourth quarter sales were adversely affected by the events of September 11 and were less than envisioned prior to September.

Sales for January 2002 were \$82,078, up 34% compared to \$61,392 for January 2001.

The overall increased sales pace is a continuation of the growth trend that began in the second half of 2000. The Company is confident the sales of IBS 2000® can be increased to the level necessary for the profitable operation of the Company.

The Company is continuing to pursue its objective of appointing new distributors for its IBS 2000® products in active housing markets throughout the United States. Improved cash flow is allowing the Company to move forward on enacting its marketing program. Continuing activities in addition to the selection of distributors, include direct contact with builders, advertising in key industry publications, development of collateral materials and design software programs and the procurement of the necessary engineering approvals for both engineered and conventional wood products across North America.

Luxor has spent many years in Research and Development, analyzing wood-frame floor construction, while establishing itself as a leading authority in wood floor performance engineering in North America. Luxor has developed the IBS 2000® Connectors. Luxor markets, manufactures, and distributes the IBS 2000® Load Sharing Connectors™.

Marketing Events in Luxor Industrial Corporation Snavelly Forest Products of Dallas, Texas Joins List of Distributors Selling Luxor's IBS 2000® Load Sharing Connectors™

Dallas, Texas...Snavelly Forest Products to Distribute IBS 2000®. Snavelly Forest Products of Dallas, Texas has placed its first stocking order for Luxor's patented IBS 2000® Load Sharing Connectors™ for I-Joist applications. The Dallas operation is Snavelly's third to distribute IBS 2000® joining their Baltimore and Denver centres. Snavelly will use IBS 2000® in the floor designs of some of the largest homebuilders in the Dallas market including, Arlington based DR Horton Homes, one of the nations top 5 builders.

Houston and Dallas, Texas...Bison Building Materials Ltd. Receives IBS 2000® Design and Sales Training Seminars. Luxor conducted training sessions for its patented IBS 2000® Joist Connectors for the design and sales staff of Bison Building Materials, an active floor systems retailer with operations in Dallas, Houston and San Antonio, Texas. The seminars were focused on IBS 2000® applications for the production based builders that Bison services.

Atlanta, Georgia...Luxor Exhibits at the National Home Builders Show, February 8 to 11, 2002. Luxor Industrial Corporation exhibited its patented IBS 2000® Joist Connectors at the National Association of Home Builders annual show. The four-day show attracts more than 75,000 builders, making it the industry's largest event. Luxor received an excellent reception from the show's attendees. The show provided Luxor with the opportunity to introduce the cost and performance benefits of its IBS 2000® Joist Connectors to several hundred builders including representatives of the country's top 10 builders.

Richmond Hill, Ontario...IBS 2000® Showcased at the Ontario Builder Forum. The Ontario Builder Forum is the major show for builders having building seminars and product exhibitors through the Ontario Home Builder's Association. The response was tremendous for the product. Many builders were using IBS 2000® and advised they would continue to do so. Tex McLeod of McLeod Associates conducted a training workshop on R-2000 Builder. Tex McLeod addressed the merits of IBS 2000® in his seminar.

Maple, Ontario...Coscorp Master Builder Joins Growing List of Builders Using IBS 2000®. One and two rows of IBS 2000® were used with 2 x 10 lumber joists at Coscorp Master Builder's Northdale Site in Maple, Ontario.

Oakville, Ontario...IBS 2000® Used in New Sites with Mattamy Homes and Ballantry Homes. Mattamy Homes, Canada's largest builder, is using the IBS 2000® with 2 x 8 lumber joists at phase 2 of their Upper Glen Abbey West Site. Ballantry Homes is also using the IBS 2000 with 2 x 8 lumber joists at the Upper Glen Abbey West Site. The product is being used for long span rooms (family rooms and bedrooms over double garages) as well as for ceramic tile floors in the kitchen.

For further information contact Joe Kersen or Terry Lashman at (800) 665-2454 or (604) 684-7929, or visit Luxor's website at www.luxorcorp.com.

PRESS RELEASE 05.2002 12g3(b)#82-822
STANDARD & POOR'S LISTED

Trus Joist™, a Weyerhaeuser Business Releases Version 6.0 of its TJ Beam® Design Software Containing Floor Performance Enhancement Factors for Luxor's IBS 2000® Load Sharing Connectors™

Luxor Industrial Corporation is pleased to announce that Trus Joist™, a Weyerhaeuser Business, has released version 6.0 of its TJ Beam® design software containing floor performance enhancement factors for Luxor's patented IBS 2000® Load Sharing Connectors™. Luxor has been advised that approximately 12000 copies of the program will be distributed to registered Trus Joist™ designers.

Previously, Trus Joist™ approved Luxor's patented IBS 2000® Load Sharing Connectors™ for use with its TJI® joists. The approval followed an extensive testing program to evaluate the floor performance contribution attained from various floor restraint devices. Luxor's IBS 2000® was the only proprietary product to be approved by Trus Joist™.

The market for Engineered Wood I-Joists has grown to exceed 40% of North America's housing starts. Weyerhaeuser, with the recent purchase of Willamette Industries, has an estimated 55% market share making it the leading supplier within this industry sector. The release of the design software therefore gives Luxor access to a market opportunity that is approximately 2.5 times greater than the Canadian housing industry.

Luxor is now pursuing specification opportunities for its IBS 2000® Load Sharing Connectors™ with architects, engineers and dealers designing with the Trus Joist™ software as part of its expanded IBS 2000® marketing program. Luxor is continuing to develop product distribution and representation opportunities to achieve more direct contact with builders and designers using engineered and conventional wood joist floor systems.

Luxor has spent many years in Research and Development, analyzing wood-frame floor construction, while establishing itself as a leading authority in wood floor performance engineering in North America. Luxor has developed the IBS 2000® Connectors. Luxor manufactures and markets the IBS 2000® Load Sharing Connectors™.

Marketing Events in Luxor Industrial Corporation

Luxor's IBS 2000® Showcased in Conjunction with the Trus Joist (a Weyerhaeuser Business) Exhibit at the Contractors Association of Truckee and Tahoe Show.

Lake Tahoe, California...IBS 2000® Showcased at the CATT Custom Builders Show. Luxor presented its patented IBS 2000® Load Sharing Connectors™ in conjunction with the Trus Joist (a Weyerhaeuser Business) exhibit at the Custom Builders Show hosted by the Contractors Association of Truckee and Tahoe (CATT). The two day show attracted association members, building industry professionals and the general public. In this market of high-end luxury homes the attendees supported the addition of IBS 2000® to reduce bounce and vibration in their floors.

Brentwood, California...IBS 2000® Seminar Conducted with the Strauss Design Group. Luxor's staff presented the design benefits of its patented IBS 2000® Load Sharing Connectors™ to twelve members of the Strauss Design Group. The Strauss Group design wood frame residential housing for both production and custom builders. The seminar demonstrated how IBS 2000® can be used to lower cost or improve the performance and serviceability of floors to meet the customer's expectations.

Hamilton, Ontario...IBS 2000® Showcased at the Annual Turkstra Lumber Contractor Night. Ten Turkstra yards participated with many builders, contractors and renovators in attendance. IBS 2000® was showcased by Goodfellow Inc, a Luxor distributor.

Toronto, Ontario...IBS 2000® used at Child Care Centre. IBS 2000® is being used with Jager JSI 14" deep I-Joists for a child care centre in Toronto.

London, Ontario...IBS 2000® Showcased at the Moffat & Powell Contractor Night. Five Moffat & Powell stores participated with about 1000 builders, contractors and renovators in attendance.

Ontario...Laurier Homes, Lakeview Homes and Sundial Homes Join Growing List of Builders Using IBS 2000®. Laurier Homes are using IBS 2000® with 2 x 8 and 2 x 10 lumber joists for long span rooms at their Windsong Site in Markham. Lakewiew Homes are using IBS 2000® with 2 x 8 joists at their Kortright Estates Site in Vaughan. Sundial Homes are using one and two rows of IBS 2000® with 2 x 8 joists for long span areas and rooms at their Hollybank Site in Milton.

Owen Sound, Ontario...IBS 2000® Showcased at the Annual Saugeen Group (Tim-Br-Mart) Contractor Night. Fifteen Tim-Br-Mart stores were represented with several hundred contractors and builders present. There was good response to the IBS 2000® for new construction and retrofit uses.

INSIDER REPORT

(See instructions on the back of this report)

Where freedom of information legislation is in force in the jurisdiction where this form is filed: The personal information requested on this form is collected under the authority and used for the purposes of administering the provincial securities Acts, Bank Act, Cooperative Credit Associations Act, Insurance Companies Act, Trust and Loan Companies Act and Canada Business Corporations Act. Under the CBCA the information provided satisfies the disclosure requirements of section 127. While the federal Privacy Act protects personal information provided, it also permits public disclosure pursuant to section 266 of the CBCA. All information contained in this form will be made available to the public. Federally, this information will be stored in personal information bank number CCA-P-PU-092. In British Columbia, if you have questions about how the freedom of information legislation applies to the personal information collected on this form, call the Manager, Public Information and Records at (604) 660-4827 or write the Manager, 1100-665 Honey Street, Vancouver, B.C. V6Z 3H4.
