FJA AG:

**Order for migration and a service portal from VPV and Generali
New lines of business support growth successfully**

The FJA AG consulting and software company (Security Code Number 513010) for insurance and financial services providers has received orders with a total value of about 3 million Euro from Vereinigte Postversicherung (VPV), Stuttgart, and Dialog-Lebensversicherung, Augsburg, which is part of the Generali Insurance Group. A letter of intent to this effect has just been signed.

The VPV commissioned FJA with the migration of life insurance policies from former Kölner Postversicherung into the FJA standard software "Life Factory", which had already been installed at VPV. By these means VPV is able to achieve an accelerated Return of Investment for its DP-investments.

Dialog-Lebensversicherung placed an order with FJA for the delivery of an internet based service portal for their insurance brokers. Based on the standard software "FJA Service Portal" this software solution will offer brokers electronic insurance application processing as well as extensive information and data transmission services.

These two orders will substantially enforce FJA's growth in new business lines outside investment activities of the insurance industry caused by the recent pension reform.
