FOR RELEASE June 6, 2002

F-Secure delivers security services to Lietuvos Telekomas's customers

F-Secure Corporation (HEX: FSC), and Lietuvos Telekomas today announced an agreement concerning managed security services. Lietuvos Telekomas will provide security as a service to its customers in Lithuania.

The services include anti-virus and firewall solutions based on F-Secure's security products and delivery platform available to the clients via Lietuvos Telekomas's portal service. The solution is automated after the installation. It provides the user with up-to-date virus protection through F-Secure's fastest reaction time on virus outbreaks and frequent database updates. This is first-of-its-kind services in Lithuania. It will be available later this summer.

"We are forerunners in securing our clients' security as the number of Internet users have increased and also the need for anti-virus and firewall solutions has grown rapidly. We want to offer our clients quality products for secure and reliable use of the Internet", says Harri Suokko, Director of the Service Development department of Lietuvos Telekomas.

"As information security is an essential part of today's Internet world, it is important that the solution providers consider the needs of the end users, and offer them a painless way to secure their connection" says Olli Heinonen, Director, Home and Small Business Solutions.

Offering automated security services enables end users to receive Anti-Virus signature updates transparently when connecting to the Internet. Automated and frequent update mechanism is the only reliable way to combat against viruses, worms and Trojan horses.
