## **PRESS RELEASE**

### **TECHNIP-COFLEXIP AWARDED EPIC CONTRACT FOR ZAFIRO SOUTHERN EXPANSION OFFSHORE EQUATORIAL GUINEA**

Paris, France – Technip-Coflexip (NYSE: TKP and Euronext: 13170) was awarded a contract, by Mobil Equatorial Guinea, Inc., which includes the procurement, fabrication and installation of more than 48 km of flexible and rigid subsea pipelines for the Zafiro Southern Expansion field, offshore Bioko island, in Equatorial Guinea.

The Zafiro Southern Expansion field is located approximately 40 miles (65 kilometers) northwest of Malabo in water depths of 1400 – 2800 feet (425-850 meters) water depth.

Technip-Coflexip will be in charge of the project management, engineering, procurement, transport and installation of:

- 22 km of 8'' production lines (six lines),
- 4 km of 12'' water injection line (one line),
- 4 km of 6'' water injection line (one line),
- 8 km of 6'' gas lift lines (one line)
- 11 km 14'' export line.

Technip-Coflexip will also procure and install 17 flexible jumpers and two SLEDS.

The flexible pipes will be manufactured at the Group's plant in Le Trait, France, and the Evanton spoolbase, in Scotland, will fabricate the rigid pipeline to be installed by the CSO Apache. The CSO Constructor will install the flexible lines and assist the CSO Apache during the installation of the rigid line and perform layout survey. First oil is scheduled in 2003.

Tom Ehret, Vice Chairman of the Management Board of Technip-Coflexip and President of the Group's Offshore Branch, stated: "We are pleased to offer Mobil Equatorial Guinea, for whom we previously worked on the Zafiro development between 1995 and 1998, Technip-Coflexip Group's broadened capabilities. Our experience in the fabrication and installation of a large range of flexible and rigid pipes and our expertise in managing fast-track EPIC projects were key elements in our winning this contract and in helping our client achieve its objectives."

## **PRESS RELEASE**

### **TECHNIP-COFLEXIP WINS SULFUR RECOVERY PLANT PROJECT IN SAUDI ARABIA**

TECHNIP-COFLEXIP (NYSE: TKP and Euronext: 13170) has been awarded, by Saudi Arabian Oil Company (Saudi Aramco), a lumpsum turnkey contract for the design and construction of a sulfur plant at Riyadh Refinery, Riyadh, Saudi Arabia.

Under the terms of this contract, TECHNIP-COFLEXIP will provide two new 70 metric-tons-per-day sulfur recovery units, sulfur tankage and truck loading facilities, a new sour water stripper unit and a new amine-treating unit. The work also includes upgrading and modifications of the existing facilities.

TECHNIP-COFLEXIP services will include project management, detail engineering, procurement of equipment and materials, construction management, construction, precommissioning and assistance to commissioning.

The installation of the sulfur recovery units will allow reduction of sulfur-dioxide emissions to the atmosphere, thus improving the local environment. Liquid sulfur thus recovered from the sulfur recovery plant shall be passed to storage tanks and loaded to trucks for export.

The overall project will be carried out by TECHNIP-COFLEXIP's engineering center in Abu Dhabi, with the construction being handled by the group's local affiliate TECHNIP SAUDI ARABIA. With more than 650 people, the engineering center of Technip-Coflexip in Abu Dhabi is the largest engineering force in the Middle East, executing major projects from concept to commissioning.

The project is scheduled to begin in April 2002 and completion is slated for April 2004.

\*\*\*

This new success adds to the remarkable list of TECHNIP-COFLEXIP's references in Saudi Arabia, including several other large contracts for Saudi Aramco: Berri, Hawiyah, Abqaiq and Haradh, which are parts of the major gas development program managed by Saudi Aramco.
