Press Release

2002/4/2

Macronix announces new generation DSC SoC

Macronix today (2 April, 2002) announces new generation DSC SoC (DSC-3, or part number MX8871). After having successful business on the powerful DSC SoC (DSC-2) last year, Macronix continuously launches its successor, the DSC-3.

The DSC-3 also supports up to 16 mega-pixel resolution with full pipeline architecture for real-time processing. Thanks to the process shrink from 0.25um to 0.18um, the DSC-3 will consume only 1/3 to 1/4 of the power of DSC-2 at operating mode. One of the other advantages of the DSC-3 is the support of the newly announced 3-field CCD, which claimed to reduce the CCD cost a lot. Besides, the new added features like the interface to Casio digital LCD and the support of software MPEG-4 CODEC and MP3 decoder running on its embedded 32-bit RISC with MAC will highly enhance customers' system features without increasing the system cost.

The overall sales of Macronix DSC products have exceeded 10 million US dollars in the year 2001. Totally 3.5 million units were sold, including high-end DSC SoC, dual-cam SoC, and Auto-focus IC. This market result makes Macronix outperform all the other Taiwanese DSC controller makers and becomes the number 1 DSC controller vender in Taiwan.

One of Macronix's major customers is Minolta, who launched a series of DiMAGE products based on Macronix's DSC-2. With the successful penetration of Minolta's high resolution DSC in the market, Macronix DSC SoC has shared more than 10% of worldwide DSC market in the 3 mega-pixel resolution and above.

In the coming quarters in this year, Macronix will announce 2 more new DSC SoC to penetrate the low resolution and cost-oriented market. In addition to the good forecast to the DSC SoC business, Macronix also looks forward to the success of its ISP (Integrated Solution Provider) business model by providing more products, including Flash memory, EPROM, Mask ROM, and Auto-focus IC, and services to the DSC customers.

Press Release
2002/4/8

Macronix Announced Sales Revenue of March 2002

Macronix International Co. Ltd. (NASDAQ:MXICY) today announced the March unaudit financial result, the Net Sales is NT\$1,001 million, which sales revenue grew 7.95% to compare with February. The Q1 sales accumulation was NT\$2,832.4 million.

MACRONIX INTERNATIONAL CO., LTD.

Press Release
2002/4/26

Macronix Announces 2002 First Quarter Results

Hsin-Chu, Taiwan, R.O.C. (April 26, 2002) Macronix International Co., LTD. (TAIEX: 2337; NASDAQ: MXICY) today announced its first quarter audited financial results ended Mar 31, 2002. All figures were prepared in accordance with Taiwan GAAP.

Net sales revenue reached NT\$2,832 million, down 35% sequentially and 59% year-over-year. The reduction was primarily due to weakness in the video games market (seasonal effect) and pricing pressure in Flash products. As a result, gross profit was down to -NT\$239 million. Operating expenses were kept at NT\$1,278, down 8% sequentially and 5% year-over-year. Operating income came at -NT\$1,517 million and net income was -NT\$2,720 million, representing an EPS of -NT\$0.81.

In terms of product mix, Mask ROM accounted for 50% of total sales, compared to 60% in 4Q 2001 and 59% in 4Q 2001. The reduction was due primarily to reduction in sales to Nintendo. On the other hand, Flash products accounted for 17% of total sales; compared to 15% in 4Q 2001 and 9% in 1Q 2001. however, weak ASP led to a modest decrease in sales revenue. Multimedia products accounted for 13% of total sales, increased from 11% in 4Q 2001 and 4% in 1Q 2001. The increase was due to introduction of new products for games market, digital still camera and other consumer applications. The System-on-Chip products accounted for 12% of total sales, compared to 9% in 4Q 2001 but a reduction from 23% in 1Q 2001. The somewhat mixed result in SoC was due to a reduction of shipment to Mitsubishi but healthy demand from Philips.

With the exception of sales to Nintendo, Macronix experienced healthy demand from its key customers such as HP and Philips. Also, Macronix began working with multiple divisions at Sony for various product applications. In the first quarter of 2002, Macronix's top 10 customers accounted for 56% of its total sales.

The sales by geography in the first quarter of 2002 was broken down into: 49% to Japan, 40% to Asia, 7% to America and 4% to Europe. Sales to Japan was lower compared to previous quarters as a result of reduced sales to Nintendo.

Macronix's fab capacity utilization rate was at around 50% in the first quarter of 2002, reduced from 70% in 4Q 2001. The reduction was due to inventory control and decline in Mask ROM production.

The following table a summary of our financial highlights.

	2002/Q1	2001/Q4	2001/Q1	Change QoQ*	Change YoY*
Net Sales Revenue	2,832	4,324	6,833	(35%)	(59%)

Safe Harbor Statement under the provisions of the United States Private Securities Litigation Reform Act of 1995

This news release contains forward-looking statements, as defined in the safe harbor provisions of the United States Private Securities Litigation Reform act of 1995. These forward-looking statements, including the statements generally can be identified by phrases such as Macronix or the Company "believes", "expects", "anticipates", "foresees", "forecast", "estimates" or other words or phrase of similar import. Similarly, such statements describe the Company's business outlook, recent highlights and the projections of capacity expansions. Although the company believes the expectations reflected in such forward-looking statements are based upon reasonable assumptions, it can give no assurance that its expectations will be attained. A description of certain of the risks and uncertainties, which could cause actual results to differ materially from those indicated in the forward-looking statements can be found in the section captioned " Risk Factors" in the Company's 2000 Annual Report on Form 20-F filed with the U.S. Securities and Exchange commission on June 30,2001. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

2002 Forecasts Filed with the Taiwan Securities and Futures Commission

As required by the Taiwan SFC, Macronix has published the following forecasts for the year ended 12/31/2002.

2002 Financial Forecasts

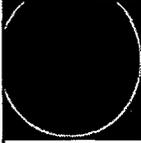

- Net Sales revenues of NT\$ 25,059 million
- Gross Profit of NT\$7,004 million
- Operating Expenses of NT\$5,706 million
- Income Before Taxes of NT\$127 million
- Earnings per share of NT\$ 0.25

Key financial assumptions behind are:

- Unit volume growth of 38% YoY
- Overall ASP decline of 14% YoY
- Annualized FAB utilization rate at 65%
- Flat operating expenses
- Stable inventory levels and exchange rates

Key business outlook:

- Sequential quarterly growth due to seasonal and general market demand
- Gross margin recovery and increase FAB utilization in 2H
- Continued diversification of customer base and establishment of new key accounts
- New cost-competitive Flash products will gain market share
- Over 60 new products introduction evenly distributed across business units
