NEWS RELEASE

April 15, 2002

Canadian Venture Exchange: CPQ

CANPLATS CLOSES \$82,500 PRIVATE PLACEMENT

Vancouver, B.C. -- Canplats Resources Corporation reports the April 9 closing of a private placement of 450,000 shares consisting of 300,000 flow-through common shares at \$0.20 per share and 150,000 common shares at \$0.15 per share. The private placement raised \$60,000 for flow-through purposes and \$22,500 for corporate and administrative requirements. A four-month hold on the issued common shares will expire on August 10, 2002.

Proceeds from the flow-through shares will be combined with funds raised in December 2001 to diamond drill geophysical anomalies on the Voltaire-Johnspine property west of Lake Nipigon in northwestern Ontario. This program is now under way.

The company had recently completed a detailed 2,300 line-kilometer airborne magnetometer survey to better define and model anomalies from earlier surveys. These anomalies are interpreted to have been caused by differentiated basic to ultrabasic sill-like intrusive bodies prospective for copper-nickel-platinum-palladium mineralization.

Canplats has staked or acquired a number of well-located properties in the Nipigon Plate area totalling approximately 3,000 claim units in a district northeast of Thunder Bay, Ontario, of geology favourable for PGE-rich mineralization.
