PRESS RELEASE

No.Tel.176/PR.000/UHI/02

TELKOM Announces its IDR Bond to the Market TELKOM IDR BOND 2002

Bandung, May 21, 2002 – PT (Persero) Telekomunikasi Indonesia Tbk. (TELKOM) today announced its plans to issue fixed rate IDR Bond in the amount of Rp1.000.000.000.000,00 (one trillion rupiah) with tenor of five years and indicative coupon rate between 17% and 17.5% p.a.

Proceeds from the Bond will be used as follows:

1. Approximately 84% for investment of telecommunication network development using CDMA (Code Division Multiple Access) technology.
2. Approximately 16% for access network.

The bond issue is part of TELKOM's ongoing initiatives to provide greater coverage and quality of its services. In order to meet expected demand and to upgrade and improve the quality of its network, TELKOM plans to engage in a major capital expenditure program over the next five years to develop and expand its network infrastructure, including expanding and upgrading backbone transmission infrastructure and switching and access infrastructure.

TELKOM plans to, among other things, expand its fixed wireless networks in all of its regional divisions by building CDMA digital fixed wireless networks. As CDMA networks are generally more cost-effective and the deployment time for CDMA networks is significantly faster than that of fixed line networks, TELKOM believes this deployment will be significant in the light of anticipated increased competition in the fixed line market.

Acting as Lead Underwriters for the issuance of IDR Bonds are PT Citicorp Securities Indonesia, PT Danareksa and PT Andalan Artha Advisindo Sekuritas.
