2. An exhibit filed pursuant to a continuing hardship exemption, or any other document filed in paper under cover of Form SE (other than an exhibit filed pursuant to a temporary hardship exemption), as allowed by Rule 311 of Regulation S-T, may be filed up to six business days prior to, or on the date of filing of, the electronic format document to which it relates but shall not be filed after such filing date. If a paper document is submitted in this manner, requirements that the document be filed with, provided with or accompany the electronic filing shall be satisfied. Any requirements as to delivery or furnishing the information to persons other than the Commission shall not be affected by this Instruction.

credit ratings and other statistical analysis (the "Computational Materials") which have been prepared by JPMS in reliance upon information furnished by the issuer. They may not be provided to any third party other than the addresser's legal and financial advisors for purposes of evaluating and making investment decisions. Numerical assumptions were used in preparing the Computational Materials which may or may not be reflected therein. As such no assurance can be given as to the Computational Materials' accuracy, appropriateness or completeness in any particular context, nor as to whether the Computational Materials reflect the assumptions upon which they are based without present market conditions or future market performance. These Computational Materials should not be considered as either projections or predictions, or as legal, tax, financial, or accounting advice. Any weighted average loss, yield, and principal payment schedule shown in the Computational Materials is based on payment assumptions and changes in such payment assumptions may materially affect such weighted average loss, yield, and principal payment schedule. In addition it is possible that payments on the underlying assets will occur at times other or faster than the rates shown in the Computational Materials. Furthermore, unless otherwise provided, the Computational Materials assume no loss on the underlying assets and no interest shortfall. The spreads characterizing the securities have been offered from those shown in the Computational Materials due to differences between the actual underlying assets and the hypothetical underlying assets used in preparing the Computational Materials. The principal amount and designation of any security described in the Computational Materials are subject to change prior to issuance. Neither JPMS nor any of its affiliates makes any representation or warranty as to the actual rate or timing of payments on any of the underlying assets or the payments or yields on the securities.
