Enclosures

Ad hoc release

JUMPtec Industrielle Computertechnik AG, Deggendorf:

- **Second-quarter sales rise by 2% vs. Q1/2002**
- **Growth rate in first half-year sales reaches 7,3% vs. previous year**
- **Outlook on FY 2002 reduced**

Deggendorf, July 26, 2002 - JUMPtec Industrielle Computertechnik AG has reached app. EUR 21.3 million sales in the second quarter 2002 and has thus achieved 2% growth as compared to Q1 2002 sales. With sales of app. EUR 42.2 million (previous year: EUR 39.3 million), in the first half-year JUMPtec reached a sales growth rate of app. 7.3% vs. previous year's period.

Thus JUMPtec could positively separate from the general negative market trend as a result of its solid growth. However the growth rate did not satisfy the primary expectations. The board now expects a growth rate between 10% and 20% depending on the lasting unfavorable market trend, which is expected to increase significantly in FY 2003 as the economic situation will improve.

Detailed financials of the second quarter 2002 will be published on August 30, 2002.
