**ASIA PULP & PAPER COMPANY LTD TO VIGOROUSLY RESIST PETITION FOR JUDICIAL
MANAGEMENT ORDER**

Singapore, June 27, 2002—Asia Pulp & Paper Company Ltd (“APP”) confirmed today that a petition had been filed against it in the High Court of the Republic of Singapore on June 23, 2002 to place APP under judicial management under the applicable provisions of the Singapore Companies Act (Chapter 50). The petition for the appointment of judicial managers was filed on behalf of Deutsche Bank AG and BNP Paribas and is currently scheduled to be heard by the High Court of the Republic of Singapore at 10a.m. on July 11, 2002.

APP intends fully and vigorously to resist the petition and ultimately to succeed in enhancing value for all stakeholders. The appointment of judicial managers is inconsistent with the consensual debt restructuring process and puts stakeholders at risk of loss, which may be material. The actions of the petitioners have put the interests of many others, including other financial creditors, suppliers, customers and employees, who support the consensual restructuring, in peril. Nevertheless, APP will seek to continue to strive for an effective and sensible solution with respect to its debt obligations, through a consensual, out-of-court, restructuring process.

APP has considered the contents of the petition and takes issue with a number of allegations made therein, including with respect to the manner in which the consensual debt restructuring process was initiated and has developed. APP plans to respond swiftly and comprehensively to the petition and has instructed its legal advisers accordingly. Specifically, the petitioners appear to justify their actions on the basis of the apparent lack of progress in the debt restructuring discussions. This fails to recognize the sheer size of the creditor group, the number of APP companies, the overall complexity of the restructuring and, importantly, that significant progress has been made in the context of the restructuring discussions. Further, there are complex inter-creditor tensions and conflicts which have the unfortunate, through real, effect of complicating and lengthening restructuring discussions.

Deutsche Bank AG, a petitioner, is a member of the Umbrella Steering Committee formed for the sole purpose of reaching an agreed, consensual, out-of-court, debt restructuring between APP and its financial creditors. As a member of the committee, Deutsche Bank AG has been receiving, over a period of approximately 14 months, information from APP, much of which is confidential, solely for the purpose of reaching a consensual, out-of-court restructuring. APP is surprised that Deutsche Bank AG chose not to step down from the committee prior to taking hostile legal action against APP.

Commenting on the filing of the petition, Teguh Wijaya, Chief Executive Officer, APP, said:

“ The legal action in Singapore runs contrary to everything we have been trying to achieve in the consensual debt restructuring process and needlessly creates significant economic risks for all stakeholders. APP is certain that a consensual, out-of-court debt restructuring offers the best solution for all stakeholders, including financial creditors, employees, suppliers, customers and shareholders. APP intends to continue with the consensual process and I want to assure all APP employees, suppliers, customers and others who have supported APP, and who continue to support us, that we will vigorously resist the petition so as to enhance value for all stakeholders.”

**APP GROUP MEETS JUNE PAYMENT OBLIGATION TO IBRA. IBRA AGREES TO PLAY LEAD
ROLE IN CONSENSUAL RESTRUCTURING**

Singapore, June 29, 2002—Asia Pulp & Paper Company Ltd (“APP”) confirmed today that a payment of US\$90 million was made on June 28, 2002 by its Indonesian operations under the terms of the agreement entered into between the Sinar Mas Group (including APP companies) and The Indonesian Bank Restructuring Agency (IBRA). This payment reduces the amount of debt owing to IBRA which is secured by assets of APP’s Indonesian operations (among other assets). The Sinar Mas Group (including APP companies) has a debt obligation of approximately US\$1.2 billion to IBRA, of which 20%, or approximately US\$240 million was due and payable by June 30, 2002. In addition to the payment made by the Indonesian operations of APP, the Sinar Mas Group, through the Widjaja family, has settled the balance of this installment of the outstandings due to IBRA with assets previously pledged by the Sinar Mas Group to IBRA, not being assets of APP Group.

As part of the arrangements concluded between the Sinar Mas Group (including APP companies) and IBRA on June 28, 2002, IBRA was granted a pledge of the shares in 3 Indonesian subsidiaries, Indah Kiat, Tjiwi Kimia and Pindo Deli. The granting of these pledges was a term of the original agreement reached between IBRA and the Sinar Mas Group (including APP companies) in early 2001 and this term will now be implemented.

IBRA has agreed to take a leading and proactive role in the consensual debt restructuring discussions currently under way between the Indonesian operations of APP and its creditors. IBRA’s agreement to play a leading role in the restructuring is intended to facilitate accelerated discussions with the objective of agreeing the basic commercial terms of the consensual debt restructuring. This is fully consistent with APP’s desire, and requests repeatedly made to creditors, that details regarding the terms of the debt restructuring be discussed and agreed as soon as possible. IBRA and APP recognise the importance of this consensual debt restructuring which, if not reached, may result in those APP entities with debt obligations to, and assets pledged with, IBRA concluding a final consensual debt restructuring in a bilateral arrangement with IBRA.

Commenting on the arrangements with IBRA, Teguh Wijaya, Chief Executive Officer of APP, said:

“The making of the payment today to IBRA demonstrates that the Sinar Mas Group (including APP companies) are dedicated to settling their respective debt obligations to, and assets pledged with, all creditors as soon as possible. We understand the absolute necessity, and the importance for Indonesia, that IBRA receives timely payment of amounts due to it under the settlement between the Sinar Mas Group (including APP companies) and IBRA. This is in everybody’s interests as The Republic of Indonesia continues to make significant strides in tackling the enormous financial issues which it faces. Our hope is that we will work together in addressing our current debt problems and ultimately enhance value for all concerned, including the many thousands of Indonesians who are employed by the APP group.”

Mr. Wijaya added:

“I am delighted that IBRA has agreed to play a leading and proactive role in our debt restructuring discussions. I have always been of the view that our debt restructuring discussions would receive an enormous boost if a significant creditor(s) agrees to play a proactive role and attempt to provide leadership, as in the case of the restructuring of our debt in China, to what is a very large and diverse group of creditors. Hopefully, this will improve and enhance creditor organization so that we can be successful in agreeing basic restructuring terms as soon as possible and thereby enhance value for all stakeholders.”

- * The average realized selling prices described above should be reviewed in the context of the following:
Until 1Q2001, the average realized sales prices comprised a substantial amount of products for which the sales prices included insurance and freight costs and a small amount of products sold on an FOB basis for which the sales prices did not include insurance and freight costs. From 2Q2001 to 4Q2001, the Indonesian Subsidiaries began to sell an increasing amount of products on an FOB basis because the Indonesian Subsidiaries had difficulties obtaining shipping services after APP declared a standstill of its debt payments in March 2001. From 1Q2002, the Indonesian Subsidiaries gradually increased the amount of products sold on a CIF basis.

**APP ANNOUNCES COMPLETION OF KPMG REPORTING ON FINANCIAL DILIGENCE AND
CASHFLOW PROJECTIONS. RESTRUCTURING DISCUSSIONS PROGRESS UNDER IBRA
LEADERSHIP. APP WELCOMES IBRA STATEMENTS REGARDING OPPOSITION TO
JUDICIAL MANAGEMENT**

Singapore, August 1, 2002—Asia Pulp & Paper Company Ltd (“APP”) confirmed today its understanding that KPMG had, on July 26, 2002, completed all of the reports that it had been engaged to prepare with respect to the consensual restructuring of APP group companies. The completed reports are: (1) phase one financial diligence reports and (2) phase two analysis, by KPMG, of cashflow projections prepared by APP companies. The 9 phase one reports, relating to the 4 main Indonesian operating companies, Purinusa, APP and others are voluminous. The phase two reports provide KPMG’s analysis with respect to cashflow projections prepared by APP companies and APP looks forward to discussing these reports with KPMG and relevant creditors. The confidential reports are to be distributed to the Umbrella Steering Committee and IBRA under the provisions of strict confidentiality arrangements entered into with APP. Commenting on the release of the reports, Teguh Wijaya, Chief Executive Officer of APP said:

“I am pleased that all the KPMG reports have been issued to IBRA and other relevant creditors. This again demonstrates our commitment to a consensual, out-of-court restructuring process. We are fully committed to accelerating debt restructuring discussions so that our target of finalizing a restructuring of the Indonesian operations by September 30 will be met.”

APP also confirmed that further progress was being made in its debt restructuring discussions. Frequent meetings between the Indonesian operations of APP, IBRA and representatives of export credit agencies have been taking place. At these meetings, it was agreed that weekly working group restructuring meetings should continue, under the leadership of IBRA, with a view to meeting the September 30 restructuring plan target date.

APP also welcomed recent statements from IBRA in which IBRA categorically confirmed that it opposes the appointment of judicial managers with respect to APP. APP also noted recent announcements from IBRA, in which IBRA confirmed that it has no intention of replacing the current management of APP group companies.

Mr. Wijaya noted that:

“As I have said in the past, the leadership provided by IBRA is a significant catalyst in the restructuring discussions. We now have an effective working group on the creditor side and a weekly meeting arrangement which will provide focus and a forum in which to engage in detailed restructuring discussions. IBRA has demonstrated tangible and meaningful support for the consensual debt restructuring process by opposing the appointment of judicial managers and through other measures. These are hugely important steps and will hopefully put these discussions on par with those in China which have been progressing very steadily.”
