Group highlights 2Q 2002

COPENHAGEN, Denmark, August 1, 2002

- The TDC Group today reported 2Q 2002 EBITDA of DKK 3,493m, up 18%. Net income¹ totaled DKK 535m, up from DKK 140m.

Capital expenditures excluding share acquisitions totaled DKK 1,924m, a 25% reduction compared with 2Q 2001.

Net debt was DKK 34.7bn by the end of 2Q 2002, unchanged from the beginning of the year.

"We achieved solid results in the second quarter of 2002 despite a consistently tough environment," says Henning Dyremose, President and CEO of the TDC Group. "We expect to fulfill our Outlook for 2002 as we continue our strong execution of plans and

strategy. Our key priorities are to further improve our market position and earnings in the Danish operations while continuing the solid progress of TDC Switzerland."

Group net revenues declined 1.4% to DKK 12,723m compared with 2Q 2001. The reduction reflects the restructuring of Talkline and deconsolidation of Ben. On a comparable basis, net revenues grew 2.9%.

EBITDA rose 18% or DKK 533m to DKK 3,493m, driven primarily by TDC Mobile International and TDC Switzerland which, compared with 2Q 2001, improved their EBITDA by DKK 269m and DKK 325m, respectively. Adjusted for restructuring of Talkline and deconsolidation of Ben, EBITDA grew 14%.

EBIT rose 51% to DKK 1,304m, driven mainly by improvements in TDC Mobile International and TDC Switzerland.

¹Excluding one-time items and fair value adjustments of minority passive investments.

Net financials² improved 13% to DKK (331)m, reflecting development in exchange rate adjustments.

In April 2002, TDC issued a EUR 750m (DKK 5.6bn) 10-year bond loan with a coupon of 6.50%. The proceeds from the offering were used to refinance short-term borrowings.

Income before income taxes² rose to DKK 973m from DKK 483m in 2Q 2001. This strong improvement is related to the improvements in TDC Mobile International and TDC Switzerland mentioned earlier.

Income taxes² totaled DKK 483m compared with DKK 445m in 2Q 2001, reflecting improved income before income taxes, partly offset by capitalization of tax assets in TDC Switzerland.

Net income² rose to DKK 535m compared with DKK 140m in 2Q 2001. This significant improvement is related to operating improvements.

Cash flow from operations in 2Q 2002 declined 26% to DKK 2,154m, reflecting higher EBITDA offset by higher interest paid and an increase in working capital. However, this decline is more than offset by lower cash flow to investing activities including lower capital expenditures, divestment of assets and dividends from associated enterprises.

One-time items comprised a gain of DKK 114m and related to reversal of unused restructuring provisions in Talkline and an impairment charge in Tele Danmark InterNordia. The after-tax impact of one-time items was DKK 9m.

Fair value adjustments of minority passive investments were DKK 270m, and related primarily to fair value adjustment of Bel-

gacom's shares in Ben. The fair value adjustment of Ben shares is tax-free.

Net income including one-time items and fair value adjustment of minority passive investments in 2Q 2002 totaled DKK 865m, up from DKK 143m in 2Q 2001.

TDC's total pro rata customer base was unchanged at 13.1m, compared with 2Q 2001. The number of mobile users grew 3.6% to 6.4m, Internet subscribers grew 1.2% to 1.4m and the number of cable-TV subscribers increased 7.0% to 866,000. This growth was offset by a 5.6% decrease in the number of landline customers to 4.5m, due partly to the restructuring of Talkline. Adjusted for restructuring of Talkline and deconsolidation of Ben, the total number of customers grew 7.1%.

By the end of 2Q 2002, the Danish ADSL roll-out plan was complete and 95% of all Danish households are now covered. TDC's domestic broadband customer base increased 71% since the beginning of the year to a total of 215,000, comprising 187,000 ADSL customers and 28,000 high-speed cable modem customers.

²Excluding one-time items and fair value adjustments of minority passive investments.

TDC Tele Danmark Group

TDC Tele Danmark's activities cover mainly Danish landline operations and convergence solutions.

1. Other includes mobile telephony, operator services and other services.

TDC Tele Danmark's net revenues declined 0.2% to DKK 4,773m, reflecting an increase in revenues from terminal equipment and Internet services as well as a reduction in revenues from landline telephony, data communications services and leased lines.

TDC Tele Danmark landline telephony net revenues decreased 2.5% to DKK 2,869m. Net revenues from domestic subscriptions rose 4.9% to DKK 1,178m, and reflected a modest price increase for quarterly subscriptions implemented by early 2002.

Net revenues from domestic traffic declined 8.7% to DKK 1,129m, which reflected a reduction in local call rates as well as a reduction in minute volumes. In the short term, the ADSL roll-out is causing a migration from minute-measured usage to flat-rate ADSL. Consequently, the domestic landline traffic volume decreased 12% in 2Q 2002.

Net revenues from international traffic amounted to DKK 563m compared with DKK 662m in 2Q 2001, reflecting lower transit traffic.

Net revenues from data communications amounted to DKK 162m, down 28%, reflecting a migration from Frame Relay to IP/VPN, which are recognized as Internet service revenues.

Net revenues from terminal equipment, etc. increased 8.2% to DKK 671m, reflecting increased sales in the Nordic countries, more than offsetting a reduction in domestic sales.

Net revenues from Internet services were DKK 329m, up from DKK 129m. These revenues include retail and wholesale revenues from ADSL. By the end of 2Q 2002, TDC Tele Danmark had completed the accelerated ADSL roll-out announced in February 2001. Today, ADSL covers 95% of all Danish households.

Net revenues from leased lines fell 24% to DKK 407m, reflecting substitution with other communications solutions as well as market conditions.

EBITDA in TDC Tele Danmark declined 3.3% to DKK 1,474m, reflecting reduced domestic demand for terminal equipment due to the current economic climate.

Capital expenditures excluding share acquisitions in TDC Tele Danmark totaled DKK 818m, a reduction of 10.4%, primarily reflecting the completion of ADSL roll-out as well as lower capital expenditures for ISDN and trunk network upgrades.

By the end of 2Q 2002, the number of domestic customers, including wholesale, in TDC Tele Danmark had risen 2.9% to 3.6m. The domestic subscriber base includes 2.7m PSTN subscriptions, down 1.8%. ISDN2 subscriptions increased 0.3% to 395,000, and the number of Duét subscriptions rose 2.3% to 266,000.

Net revenues from mobile telephony declined 13% to DKK 3,151m, which was caused by the deconsolidation of Ben and the divestment of Talkline Nederland. On a comparable basis, net revenues declined 2%, resulting from lower mobile revenues in Talkline. Adjusted for the decline in Talkline, net revenues grew 9.9%

Net revenues from landline telephony were DKK 692m and related to Talkline Infodienste.

EBITDA was DKK 860m, up 46%. Adjusted for the restructuring of Talkline and the deconsolidation of Ben, EBITDA grew 21%, primarily reflecting improvements in domestic mobile activities, Connect Austria and Polkomtel.

DKK 443m. The reduction relates to landline and Internet activities in Talkline and Connect Austria.
