INDEPENDENT AUDITOR'S REPORT

To the Partners of
Glickenhaus & Co.

We have audited the accompanying statement of financial condition of Glickenhaus & Co. (a partnership) as of September 30, 2002. This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the statement of financial condition is free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the statement of financial condition. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall statement of financial condition presentation. We believe that our audit of the statement of financial condition provides a reasonable basis for our opinion.

In our opinion, the statement of financial condition referred to above presents fairly, in all material respects, the financial position of Glickenhaus & Co. as of September 30, 2002 in conformity with accounting principles generally accepted in the United States of America.

Total Liabilities and Partners' Capital	$6,935,850,675

See Notes to Statement of Financial Condition

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Glickenhaus & Co. (the "Company") is a limited partnership primarily engaged as an investment adviser, securities broker-dealer and investment banker, conducting business with institutional and individual clients and other broker-dealers located primarily in the northeastern United States.

The Company maintains cash in bank deposit accounts which, at times, may exceed federally insured limits.

Securities owned, securities sold, not yet purchased, and open futures and options contracts are valued at market value.

Federal and state income taxes have not been provided since the Partners are individually liable for their own tax payments. The Company is liable for the New York City unincorporated business tax.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

2. SECURITIES PUCHASED UNDER AGREEMENTS TO RESELL AND SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE:

Transactions involving securities purchased under agreements to resell ("reverse repurchase agreements") or securities sold under agreements to repurchase ("repurchase agreements") are collateralized financing transactions and are carried at the amounts at which they will be subsequently resold or repurchased plus accrued interest. The agreements provide that the transferor will receive substantially the same securities in return at the maturity of the agreement and the transferor obtains from the transferee sufficient cash or collateral to purchase such securities during the term of the agreement. The estimated fair value of the reverse repurchase agreements approximates the carrying amount, due to the short-term nature of the instruments.

The market value of collateral accepted by the Company under reverse repurchase agreements was $2,468,854,360, substantially all of which has been sold or repledged. Collateral received from counterparties is valued daily, and the Company may require counterparties to deposit additional collateral when appropriate.

Reverse repurchase agreements and repurchase agreements are reported net by counterparty when permitted under Financial Accounting Standards Board Interpretation No. 41, *Offsetting of Amounts Related to Certain Repurchase and Reverse Repurchase Agreements* ("FIN 41"). At September 30, 2002, the Company's assets and liabilities decreased by approximately $962,990,000 as a result of the application of FIN 41.

3. CREDIT FACILITIES:

The Company has unused credit facilities (the "Facilities") with various financial institutions under which the Company can borrow up to $145,000,000. The Facilities bear interest at fluctuating rates based on the federal funds interest rate and are payable on demand. Loans under the Facilities are secured by firm securities.

4. CLEARING AGREEMENT:

Pursuant to a clearing agreement (the "Agreement"), all customer securities transactions are introduced and cleared on a fully disclosed basis through a clearing broker that is a member of the New York Stock Exchange, Inc. (the "NYSE"). Accordingly, the Company operates under the exemptive provisions of Securities and Exchange Commission (the "SEC") Rule 15c3-3(k)(2)(ii).

The Agreement states that the Company will assume customer obligations should a customer of the Company default. As of September 30, 2002, amounts owed to the clearing broker by customers were adequately collateralized by securities owned by the customers.

5. SECURITIES OWNED AND SECURITIES SOLD, NOT YET PURCHASED, AT MARKET VALUE:

At September 30, 2002, securities owned and securities sold, not yet purchased, consist of the following (in thousands):

Securities owned, at market value:	
U.S. Government obligations	$5,206,297
Corporate stock	8,368
Corporate obligations	24,501
Municipal obligations	98,458
Other	7,973
	$5,345,597

Securities sold, not yet purchased, at market value:	
U.S. Government obligations	$2,180,276
Other	10,721
	$2,190,997

Securities owned, pledged to third parties under bank loans or repurchase agreements was $5,363,371,977 at September 30, 2002.

In the opinion of management, in many cases, the use of financial instruments and economic offsetting of similar security positions serve to decrease the Company's overall exposure to market risk.

6. RECEIVABLES FROM AND PAYABLES TO BROKERS, DEALERS AND CLEARING ORGANIZATIONS:

The balances presented as receivables from and payables to brokers, dealers and clearing organizations consist of the following at September 30, 2002 (in thousands):

Receivables from brokers, dealers and clearing organizations:	
Receivables from clearing organizations	$ 7,978
Securities failed to deliver	52,887
	$60,865

Payables to brokers, dealers and clearing organizations:	
Trade date adjustment, net	$ 68,616
Payable to clearing organizations	161
Securities failed to receive	53,008
	$121,785

7. NET CAPITAL REQUIREMENTS:

As a registered broker-dealer and member of the NYSE, the Company is subject to the Uniform Net Capital Rule 15c3-1 (the "Rule") of the SEC. The Company computes its net capital under the alternative method permitted by the Rule, which requires that minimum net capital be equal to the greater of $250,000 or 2% of aggregate debit items arising from customer transactions. At September 30, 2002, the Company had net capital of $106,029,017, which exceeded minimum net capital requirements by $105,779,017.

Proprietary accounts held at the clearing broker ("PAIB assets") are considered allowable assets in the computation of net capital pursuant to an agreement between the Company and the clearing broker which requires, among other things, for the clearing broker to perform a computation for PAIB assets similar to the customer reserve computation set forth in Rule 15c3-3.

8. RELATED PARTY TRANSACTIONS:

Included in other assets are loans to affiliates, which represent entities into which some of the Partners are invested. The loans to affiliates was $23,859,965, including accrued interest, as of September 30, 2002 and is collateralized by properties owned by the affiliates. These loans have no scheduled maturity and bear interest at fluctuating rates based on federal funds interest rates. In management's opinion, the carrying amounts of these loans approximate fair value.

9. COMMITMENTS AND CONTINGENT LIABILITIES:

The Company leases office space under a noncancelable lease agreement expiring on April 30, 2005. The lease is subject to escalation charges based on certain costs incurred by the landlord. Minimum rentals, excluding escalation, under the lease agreement are approximately as follows (in thousands):

Year ending September 30,	
2003	$ 466
2004	466
2005	272
	$1,204

The Company has purchased "split dollar" life insurance policies (the "Plan") for two of the Partners. The Company has a lien against the cash surrender value of the policies, to the extent of premiums paid. Upon termination of the Plan, the Company will be entitled to receive the proceeds for the Plan in the amount of the premiums paid.

10. OFF-BALANCE-SHEET RISK, CONCENTRATION OF CREDIT RISK AND DERIVATIVE FINANCIAL INSTRUMENTS:

In the normal course of business, the Company enters into financial transactions as principal or agent where the risk of potential loss due to market fluctuations (market risk) or failure of the other party to the transaction to perform (credit risk) exceeds the amounts recorded for the transactions.

The Company's policy is to continuously monitor its exposure to market and credit risk through the use of a variety of financial position and credit exposure reporting and control procedures. In addition, the Company has a policy of reviewing the credit standing of each broker-dealer, clearing organization, customer and/or other counterparty with which it conducts business.

The Company's trading activities include purchases and short sales of U.S. Government securities as well as the purchases and sales of financial futures and options on financial futures. Subsequent market fluctuations may require purchasing or selling the securities at prices that may differ from the market value reflected on the statement of financial condition. In many cases, the Company limits its risk by holding offsetting security or option positions.
