Interim Report 2002

Mid

Chairman's Statement

The first six months of 2002 presented us with difficult trading conditions. Nevertheless I am pleased to report a solid Group performance for the six months ended 30 June 2002.

During 2001, as market conditions deteriorated, the Group's quarterly revenue (gross profit) fell sequentially from the end of the first quarter. As we reported at our Annual General Meeting in May 2002, the Group's revenue of £49.5m in the first quarter of 2002, whilst below that of the first quarter of 2001, represented a marked slowing in the sequential rate of decline. In the second quarter we achieved increased revenue of £51.4m. This very welcome increase arrests the already slowing downward trend and provides firm evidence of the strength of our brand in difficult times.

Turnover for the six months ended 30 June 2002 was £197.8m (2001: £247.2m) and revenue was £100.9m (2001: £136.5m). Operating profit was £17.8m (2001: £42.0m before exceptional items). Profit before tax was £18.0m (2001: £38.2m before exceptional items) and earnings per share were 3.2p (2001: 6.7p before exceptional items).

We believe these results demonstrate our ability to respond effectively to rapidly changing market conditions, keeping a tight control on costs, whilst continuing to focus on the identification and development of new opportunities for the longer term. In the first six months of 2002 new offices were opened in Rotterdam, Stockholm and Brussels and existing businesses were extended into more locations. We started the year with 2,657 staff operating from 109 offices in 14 countries. Mostly through a process of natural attrition, at 30 June 2002, staff numbers have been reduced to 2,440 (2001: 2,929) operating from 115 offices in 16 countries.

The challenging market conditions, whilst impacting virtually all elements of the Group's businesses, had a greater effect on permanent rather than temporary recruitment. In the first half of 2002 the mix of the Group's turnover and revenue between permanent and temporary placements was 39:61 (2001: 47:53) and 70:30 respectively (2001: 77:23). Despite the challenging conditions the Group's gross margin on temporary placements increased slightly to 24.6% (2001: 24.3%).

United Kingdom

Turnover of the UK operations was £105.8m (2001: £133.1m), revenue was £51.9m (2001: £68.6m) and operating profit was £10.3m (2001: £20.4m). Revenue in the first quarter of 2002 increased over that achieved in the last quarter of 2001. Second quarter revenues were similar to those in the first quarter despite an unusually quiet June, which was affected by the long Golden Jubilee weekend and the World Cup.

Finance and Accounting revenue was 22% lower than the first half of 2001; Marketing and Sales was 26% lower whilst the Other disciplines were 15% lower. These lower revenues mainly reflect the weakness of the banking and TMT sectors. In our newer disciplines of retail, human resources and engineering, despite themselves facing difficult market conditions, year on year revenue growth has been achieved.

Continental Europe

Turnover of the Continental European operations was £66.3m (2001: £84.7m), revenue was £35.2m (2001: £52.7m) and operating profit was £4.4m (2001: £17.4m). All of our Continental European operations have experienced extremely difficult conditions in the last six months particularly our permanent recruitment business in France. Notwithstanding the challenging environment which we have faced, we remain committed to sensible and well structured plans to further develop our European network. In the first half new offices were opened in Rotterdam, Stockholm and Brussels. Our temporary recruitment business, Page Interim, has now been extended to Germany and The Netherlands.

Asia Pacific

Turnover of the Asia Pacific operations was £22.6m (2001: £27.3m), revenue was £11.3m (2001: £13.4m) and operating profit was £3.5m (2001: £3.7m). Activity levels in the region were very low at the end of 2001 and into the first quarter of 2002, particularly in Sydney, Hong Kong and Singapore. There has, however, been some improvement in conditions in the second quarter of 2002. The Tokyo office, which opened in June 2001, has progressed well and covered its costs in the first half of 2002.

Americas

Turnover was £3.1m (2001: £2.0m), revenue was £2.5m (2001: £1.8m) and we recorded an operating loss of £0.3m (2001: £0.5m profit). Market conditions in New York continue to be difficult, although our New Jersey office, which opened in December, is performing to plan. In Sao Paulo the office continues to increase revenue and generate profits.

Cashflow

The Group started the year with net cash of £14.3m. In the first half we generated £17.5m from operations and, after tax of £8.4m, net capital expenditure of £1.3m and dividends of £8.5m, we ended the period with £14.2m of net cash. Interest income in the first six months was £0.1m (2001: £3.8m payable).

Share Buy Back

Following a detailed review of the Group's balance sheet and an assessment of the most appropriate uses for the excess cash generated by the business, the Board has taken the decision to instruct its broker to conduct an on-market buy back program. It is the Board's current intention to repurchase up to £40m of shares over the course of the next 12 months. In the Board's view, the earnings accretion and the more efficient capital structure that this will create, will enhance shareholder value.

Dividends

Whilst the Group's profits have declined, our cash position remains strong and the Board has decided to pay an interim dividend of 1.1p (2001: 0.275p) per share on 18 October 2002 to shareholders on the register at 20 September 2002. This represents a maintenance of the dividend level to that paid in 2001 as if the shares had been listed for the whole of 2001.

Current Trading and Future Prospects

Business confidence remains weak, but I believe the Group is well positioned to produce considerably better results when market conditions improve. We are continuing to manage the business on the basis that market conditions will remain challenging but stable for the remainder of this year. We will maintain our tight control over costs, whilst at the same time, ensuring that the longer-term prospects of the business are protected.

Notes to the unaudited financial information

1. Basis of accounting

The consolidated interim financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting and financial reporting standards. The accounting policies are the same as those set out in the financial statements of the Group for the year ended 31 December 2001.

The interim financial statements are unaudited but have been reviewed by the auditors and their report is set out on page 15. The comparative figures for the year ended 31 December 2001 have been extracted from the Group's financial statements which have been delivered to the Registrar of Companies. The auditors' report on those statements was unqualified and did not include a statement under Section 237(2) or (3) of the Companies Act 1985.

(a) Restricted Share Scheme

Bonuses paid by the Group's previous parent company, Spherion Corporation, historically formed part of the remuneration of the Group's senior executives. On flotation this arrangement ceased with Spherion granting Restricted Shares to certain senior executives. The Restricted Shares represent 6% of the issued ordinary shares of the Group owned by Spherion prior to flotation. The grant of Restricted Shares gives rise to National Insurance and social security liabilities amounting to £6.0m based on the flotation price of 175p. These liabilities are expected to be payable in March 2004 when the shares vest to those senior executives.

(b) Disposal of Plusbox Limited

As a result of the restructuring prior to flotation, on 28 February 2001, the Group disposed of its 100% investment in Plusbox Limited and its subsidiaries, including Spherion UK plc (formerly Crone Corkill Group plc) generating a net profit before taxation on disposal of £8.4m.

4. Taxation

The charge for taxation is based on the expected annual tax rate of 34.1% (2001: 34.9% before exceptional items) on profit before taxation and amortisation of goodwill.

Notes to the unaudited financial information (continued)

5. Dividends

An interim dividend of 1.1 pence (2001:0.275 pence) per ordinary share will be paid on 18 October 2002 to shareholders on the register at the close of business on 20 September 2002.

Independent review report to Michael Page International plc

Introduction

We have been instructed by the company to review the financial information for the six months ended 30 June 2002 which comprises the profit and loss account, the statement of total recognised gains and losses, the balance sheet, the cash flow statement and the related notes to the statutory financial information 1 to 12. We have read the other information contained in the interim report and considered whether it contains any apparent misstatements or material inconsistencies with the financial information.

Directors' responsibilities

The interim report, including the financial information contained therein, is the responsibility of, and has been approved by the directors. The directors are responsible for preparing the interim report in accordance with the Listing Rules of the Financial Services Authority which require that the accounting policies and presentation applied to the interim figures should be consistent with those applied in preparing the preceding annual accounts except where any changes, and the reasons for them, are disclosed.

Review work performed

We conducted our review in accordance with the guidance contained in Bulletin 1999/4 issued by the Auditing Practices Board for use in the United Kingdom. A review consists principally of making enquiries of group management and applying analytical procedures to the financial information and underlying financial data and based thereon, assessing whether the accounting policies and presentation have been consistently applied unless otherwise disclosed. A review excludes audit procedures such as tests of controls and verification of assets, liabilities and transactions. It is substantially less in scope than an audit performed in accordance with United Kingdom auditing standards and therefore provides a lower level of assurance than an audit. Accordingly, we do not express an audit opinion on the financial information.

Review conclusion

On the basis of our review we are not aware of any material modifications that should be made to the financial information as presented for the six months ended 30 June 2002.
