Digitale Telekabel AG Announces Acquisition of Development Project  
in Washington State

BERLIN, GERMANY--Digitale Telekabel AG ("DTA" or "the company") (Nasdaq:DTAGY) announced that it has reached agreement to acquire a property ("the property") in Washington State for a purchase price of approximately \$2.65 million (U.S.), subject to adjustment, to be paid in cash.

The 17.23-acre property is located within the city limits of Federal Way, Wash., approximately half-way between Seattle and Tacoma, Wash. Its current owner has begun developing a combined mini-storage, warehouse and office facility at the site, and zoning and environmental approvals have been applied for and largely received. The company will be assuming a \$350,000 (U.S.) mortgage as part of the transaction.

The property is being acquired from an affiliate of the company's majority shareholder. Completion of the purchase is subject to several conditions, including receipt of an appraisal for the property which is satisfactory to the company and approval of the acquisition by the company's supervisory board elected at the company's Sept. 24, 2002 shareholders' meeting.

Closing of the transaction is expected to occur on or prior to Sept. 30, 2002.

Michael Smith of the company's management board commented, "We are very pleased to announce this acquisition as we believe that the Federal Way project is very sound and is a good example of the type of niche real estate development projects we would like to see the company pursue in the U.S. and Germany."
