INSTRUCTIONS

This report must be filed by Exchange Issuers within 60 days of the end of their first, second and third fiscal quarters and within 140 days of their year end. "Exchange issuer" means an issuer whose securities are listed and posted for trading on the Canadian Venture Exchange and are not listed and posted on any other exchange or quoted on a trading or quotation system in Canada. Three schedules must be attached to this report as follows:

SCHEDULE A: FINANCIAL STATEMENTS

Financial statements prepared in accordance with generally accepted accounting principles are required as follows:

For the first, second and third financial quarters:
Interim financial statements prepared in accordance with section 1751 of the CICA Handbook, including the following: balance sheet, income statement, statement of retained earnings, cash flow statement, and notes to the financial statements.

The periods required to be presented, consistent with CICA Handbook section 1751, are as follows:

- a balance sheet as of the end of the current interim period and a comparative balance sheet as of the end of the immediately preceding fiscal year;
- a statement of retained earnings cumulatively for the current fiscal year-to-date, with a comparative statement for the comparable year-to-date period of the immediately preceding fiscal year; and
- income statements and cash flow statements for the current interim period and cumulatively for the current fiscal year-to-date, with comparative statements for the comparable interim periods (current and year-to-date) of the immediately preceding fiscal year.

For the financial year end:
Annual audited financial statements prepared on a comparative basis.

Exchange Issuers with a fiscal year of less than or greater than 12 months should refer to National Policy No. 51 *Changes in the Ending Date of a Financial Year and in Reporting Status* for guidance.

Issuers in the development stage are directed to the guidance provided in CICA Accounting Guideline AcG-11 *Enterprises in the Development Stage* that states "enterprises in the development stage are encouraged to disclose in the income statement and in the cash flow statement cumulative balances from the inception of the development stage."

Issuers that have been involved in a reverse take-over should refer to the guidance found in BCIN #52-701 (previously NIN #91/21) with respect to such transactions including the requirement for disclosure of supplementary information regarding the legal parent's prior financial operations.

SCHEDULE B: SUPPLEMENTARY INFORMATION

The supplementary information set out below must be provided when not included in Schedule A.

1. *Analysis of expenses and deferred costs*
Provide a breakdown of amounts presented in the financial statements for the following: deferred or expensed exploration, expensed research, deferred or expensed development, cost of sales, marketing expenses, general and administrative expenses, and any other material expenses reported in the income statement and any other material deferred costs presented in the balance sheet.

The breakdown should separately present, at a minimum, each component that comprises 20% or more of the total amount for a material classification presented on the face of the financial statements. All other components of a material classification may be grouped together under the heading "miscellaneous" or "other" in the cost breakdown; the total for "miscellaneous" should not exceed 30% of the total for a material classification.

Breakdowns are required for the year-to-date period only. Breakdowns are not required for comparative periods.

Issuers in the development stage are reminded that Section 3(9)(b) of the BC Securities Commission's Rules requires a schedule or note to the financial statements containing an analysis of each of exploration, research, development and administration costs, whether expensed or deferred and if the issuer is a natural resource issuer, that analysis for each material property. Because the analysis required by Rule 3(9)(b) must be included in the financial statements, the information does not have to be repeated in Schedule B. Consistent with CICA Accounting Guidelines AcG-11, staff considers an issuer to be in the development stage when it is devoting substantially all of its efforts to establishing a new business and planned principal operations have not commenced. Further, in staff's view, the lack of significant revenues for the past two years normally indicates that an issuer is in the development stage.

2. *Related party transactions*
Provide disclosure of all related party transactions as specified in Section 3840 of the CICA Handbook.
3. *Summary of securities issued and options granted during the period*
Provide the following information for the year-to-date period:
 - (a) summary of securities issued during the period, including date of issue, type of security (common shares, convertible debentures, etc.), type of issue (private placement, public offering, exercise of warrants, etc.) number, price, total proceeds, type of consideration (cash, property, etc.) and commission paid, and
 - (b) summary of options granted during the period, including date, number, name of optionee for those options granted to insiders, generic description of other optionees (e.g. "employees"), exercise price and expiry date.
4. *Summary of securities as at the end of the reporting period*
Provide the following information as at the end of the reporting period:
 - (a) description of authorized share capital including number of shares for each class, dividend rates on preferred shares and whether or not cumulative, redemption and conversion provisions,
 - (b) number and recorded value for shares issued and outstanding,
 - (c) description of options, warrants and convertible securities outstanding, including number or amount, exercise or conversion price and expiry date, and any recorded value, and
 - (d) number of shares in each class of shares subject to escrow or pooling agreements.
5. *List the names of the directors and officers as at the date this report is signed and filed.*

Handwritten signature and date 12/16

SCHEDULE C: MANAGEMENT DISCUSSION AND ANALYSIS

1. General Instructions

- (a) Management discussion and analysis provides management with the opportunity to discuss an issuer's business, current financial results, position and future prospects.
- (b) Focus the discussion on material information, including liquidity, capital resources, known trends, commitments, events, risks or uncertainties, that is reasonably expected to have a material effect on the issuer.
- (c) For an issuer with active ongoing operations the discussion should be substantive (e.g. generally two to four pages in length); for an issuer with limited operations the discussion may not be as extensive (e.g. one page).
- (d) The discussion must be factual, balanced and non-promotional.
- (e) Where the discussion relates to a mineral project, as defined in National Instrument 43-101 "Standards of Disclosure for Mineral Projects," the disclosure must comply with NI 43-101.

2. Description of Business

Provide a brief description of the issuer's business. Where an issuer is inactive and has no business, disclose these facts together with a description of any plans to reactivate and the business the issuer intends to pursue.

3. Discussion of Operations and Financial Condition

Provide a meaningful discussion and analysis of the issuer's operations for the current year-to-date period presented in the financial statements. Discuss the issuer's financial condition as at the date of the most recent balance sheet presented in the financial statements.

The following is a list of items that should be addressed in management's discussion and analysis of the issuer's operations and financial condition. This is not intended to be an exhaustive list of the relevant items.

- (a) expenditures included in the analysis of expenses and deferred costs required under Securities Rule 3(9)(b) and Schedule B;
- (b) acquisition or abandonment of resource properties material to the issuer including material terms of any acquisition or disposition;
- (c) acquisition or disposition of other material capital assets including material terms of the acquisition, or disposition;
- (d) material write-off or write-down of assets;
- (e) transactions with related parties, disclosed in Schedule B or the notes to the financial statements;
- (f) material contracts or commitments;
- (g) material variances between the issuer's financial results and information previously disclosed by the issuer, (for example if the issuer does not achieve revenue and profit estimates previously released, discuss this fact and the reasons for the variance);
- (h) material terms of any existing third party investor relations arrangements or contracts including:

- i. the name of the person;
- ii. the amount paid during the reporting period; and
- iii. the services provided during the reporting period;
- (i) legal proceedings;
- (j) contingent liabilities;
- (k) default under debt or other contractual obligations;
- (l) a breach of corporate, securities or other laws, or of an issuer's listing agreement with the Canadian Venture Exchange including the nature of the breach, potential ramifications and what is being done to remedy it;
- (m) regulatory approval requirements for a significant transaction including whether the issuer has obtained the required approval or has applied for the approval;
- (n) management changes; or
- (o) special resolutions passed by shareholders.

4. Subsequent Events

Discuss any significant events and transactions that occurred during the time from the date of the financial statements up to the date that this report is certified by the issuer.

5. Financings, Principal Purposes and Milestones

- (a) In a tabular format, compare any previously disclosed principal purposes from a financing to actual expenditures made during the reporting period.
- (b) Explain any material variances and the impact, if any, on the issuer's ability to achieve previously disclosed objectives and milestones.

6. Liquidity and Solvency

Discuss the issuer's working capital position and its ability to meet its ongoing obligations as they become due.

How to File Under National Instrument 13-101 – System for Electronic Document Analysis and Retrieval (SEDAR)

BC Form 51-901F Quarterly and Year End Reports are filed under Category of Filing: Continuous Disclosure and Filing Type: Interim Financial Statements or Annual Financial Statements. Schedule A (Financial Statements) is filed under Document Type: Interim Financial Statements or Annual Financial Statements. Schedule B (Supplementary Information) and Schedule C (Management Discussion) are filed under Document Type: BC Form 51-901F (previously Document Type Form 61(BC)).

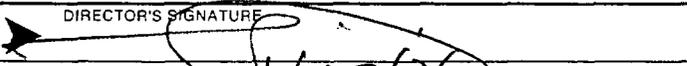

Meeting the Form Requirements

BC Form 51-901F consists of three parts: Instructions to schedules A, B and C, issuer details and a certificate. To comply with National Instrument 13-101 it is not necessary to reproduce the instructions that are set out in BC Form 51-901F. A cover page to the schedules titled BC Form 51-901F that includes the issuer details and certificate is all that is required to meet the BC Form 51-901F requirements. The form of certificate should be amended so as to refer to one or two of the three schedules required to complete the report.

Notes to Consolidated Statements

(Unaudited)

For the nine-month period ended September 30, 2002

1 Interim Financial Statements

While the interim financial statements are prepared by management without audit, they are prepared using the same accounting policies and methods of application as the Company's annual December 31, 2001 audited financial statements. It is suggested that these interim financial statements be read in conjunction with the Company's annual December 31, 2001 audited financial statements.

2 Significant accounting policies

Basis of consolidation

The consolidated financial statements include the accounts of Advent Communications Corp. and its wholly owned subsidiaries, Am-Call Wireless Inc. (formally Am-Call Paging Corp.) and EZPage Communications Inc. (has been discontinued at July 31, 2001) (collectively, "the company").

Inventories

Inventories are valued at the lower of cost and net realizable value.

Capital assets

Capital assets are stated at cost. Amortization is provided at the following annual rates:

Building	4% declining balance
Computer hardware, paging services operating system and terminal	30% declining balance
Signs, furniture, fixtures and equipment	20% declining balance
Leasehold improvements	straight-line over terms of leases

The paging services operating system is used for paging and cellular phone customers in the areas of operator assistance, secretarial, answering, customer billing and recording functions. The cost of the system consists of computer hardware, software, development and staff training costs.

Goodwill and acquired subscriber base

The goodwill arising on consolidation represents the excess of the cost of acquisition over the cost assigned to the Goodwill and acquired subscriber base net identifiable assets of the subsidiaries. Goodwill is amortized on a straight-line basis over five years and was fully amortized in 1997. The acquired subscriber base is amortized on a straight-line basis over five years and was fully amortized in 2000.

Deferred revenue

Deferred revenue represents payments received in advance from customers for pager rentals and monthly air-time charges.

Advent Communications Corp.

Notes to Consolidated Statements

(Unaudited)

For the nine-month period ended September 30, 2002

Customer deposits

Customer deposits represent security deposits for rental pagers to be refunded to customers upon the termination of rental contracts. Except for the portion included in current liabilities, it is considered that such deposits are not refundable within the next 12 months in the normal course of business.

Use of estimates

The preparation of these consolidated financial statements requires management to make estimates and judgements that may affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could differ from those estimates.

Cash and cash equivalents

Cash and cash equivalents consist of cash in bank and bank lines of credit, which are an integral part of the company's cash management.

Earnings per common share

Earnings per common share are calculated using the weighted average number of common shares outstanding during the period.

5 Advances from shareholders

Advances from shareholders bear interest at 5% and have no fixed terms of repayment. These related creditors have indicated that they have no intention of demanding repayment of these advances during the next 12 months. Accordingly, these advances are classified as a non-current liability in the balance sheet.

MANAGEMENT DISCUSSION AND ANALYSIS
September 30, 2002

Schedule C

paging customers and an increase in the churn rate of paging subscriber. This contributed to a decline in the pager rental revenues during the period.

RESULTS OF OPERATIONS

TOTAL REVENUES increased 10.2% to \$6,942,052 for the nine months period ended September 30, 2002 from \$6,300,954 for the same period in 2001. The increase in revenues was due to increases in phone sales, net of a decline in pager sales, airtime and rental income.

During the period, equipment and service plan sales of wireless communications equipment increased by \$759,781, or 13.6% to \$6,717,882 in the first nine months of 2002 from \$5,958,101 in the same period of 2001. The increase in equipment and service plan sales can be attributed to an increase in same-store revenues resulting from more attractive and lower cost service plans offered by carriers.

Pager and airtime rental revenues decreased by \$118,683, or 34.6%, to \$224,170 in the first nine months of 2002 from \$342,853 in the same period of 2001. The decrease was due to reduced pager airtime and pager rental income resulting from fewer paging customers, as the more versatile cellular and PCS services became more affordable.

The other incomes in the first nine months of 2002 were the same compared with the same period of 2001 in the range of \$50,000.

GROSS PROFIT increased by \$215,533, or 13.3% to \$1,834,576 in the first nine months of 2002 from \$1,616,794 in the same period of 2001. As a percentage of total net revenues, gross profit margin increased to 27.7% for the nine months period ended September 30, 2002 from 27.2% in 2001 primarily due to increases in cellular subscriber base with more residual commission, net of decreases in pager rentals and air-time residuals and slightly lower margins on cellular phone sales due to competition.

The gross profit on wireless equipment and service plan sales increased by \$275,737 or 20.6% to \$1,616,294 for the first nine months of 2002 from \$1,340,557 for the same period of 2001. The increase was due to an increase in phone sales. The gross profit on pager rental and air-time residual income decreased by \$66,496 or 29.1% to \$161,713 in the first nine months of 2002 from \$228,208 in the same period of 2001. The decrease in gross profit from pager rental and air-time residual income was a result of lower sales and dropping paging subscriber base, as pagers are being replaced by cellular and PCS products.

EXPENSES

Operating expenses increased by \$87,065, or 5.2% to \$1,677,107 in the first nine month of 2002 from \$1,490,042 in the same period of 2001. The increase in operating expenses was primarily due to an increase in commission and advertising expenses.

As a percentage of total revenues, operating expenses decreased to 24.2% of revenues in the first nine months of 2002 from 25.7% in the same period of 2001. The decrease was a result of both higher revenues and the lower operating expenses, which has resulted in a more efficient operation.
