Press Information

Vienna International Airport November closes with 12.8% plus in passengers

Vienna International Airport handled 12.8% more passengers in November 2002 than in the comparable prior year period. (The events of 11 September triggered a 9.6% drop in passenger volume for November 2001.) Transfers also showed good development with a plus of 15.5%. Flight movements rose by 6.7%, and maximum take-off weight (MTOW) increased by a solid 11.5%. Above-average growth was recorded in the cargo segment with an increase of 15.2%.

During the reporting period from January to November, the number of passengers continued to increase over 2001 and has now reached the prior year level. The number of transfer passengers rose by 10.5%. Flight movements also match prior year results, but maximum take-off weight (MTOW) and cargo volume exhibit shortfalls of 3.1% and 0.8% respectively.
