These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL STRUCTURE REQUIRED BY SEC RULE 17a-5

To the Members of:
Thor Capital, LLC

We have audited the financial statements of Thor Capital, LLC for the year ended December 31, 2002 and have issued our report thereon dated January 29, 2003. As part of our audit, we made a study and evaluation of the Company's internal control structure to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. The purpose of our study and evaluation, which included obtaining an understanding of the accounting system, was to determine the nature, timing and extent of the auditing procedures necessary for expressing an opinion on the financial statements.

Also, as required by Rule 17a-5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company in making the periodic computations of aggregate indebtedness and net capital under SEC Rule 17a-3(a)(11), and the procedures for determining compliance with the exemptive provisions of Rule 15c3-3. We did not review the practices and procedures followed by the Company in making quarterly securities examinations, counts, verifications and comparisons, and the recordation of differences required by SEC Rule 17a-13 or in complying with the requirements for prompt payments for securities under Section 8 or Regulation T of the Board of Governors of the Federal Reserve System, because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities. During the year ended December 31, 2002, the Company was in compliance with the conditions of its exemption from Rule 15c3-3 and no facts came to our attention to indicate such conditions had not been complied with during the year.

The management of the Company is responsible for establishing and maintaining an internal control structure and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures, and of the practices and procedures referred to in the preceding paragraph, and to assess whether those practices and procedures can be expected to achieve the Commission's above mentioned objectives. The objectives of an internal control structure and the practices and procedures are to provide management with reasonable, but not absolute, assurance that assets for which the Company has responsibility are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial

statements in accordance with generally accepted accounting principles. SEC Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of inherent limitations in any internal accounting control procedures or the practices and procedures referred to above, errors or irregularities may nevertheless occur and not be detected. Also, projection of any evaluation of them to future periods is subject to the risk that they may become inadequate because of changes in conditions or that the degree of compliance with them may deteriorate.

Our study and evaluation made for the limited purpose described in the first paragraph would not necessarily disclose all material weaknesses in the structure. Accordingly, we do not express an opinion on the internal control structure of Thor Capital, LLC taken as a whole. However, our study and evaluation disclosed no condition we believed to be a material weakness.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the Commission to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2002, to meet the Commission's objectives.

This report is intended solely for the use of management, the Securities and Exchange Commission, and the National Association of Securities Dealers, Inc. and should not be used for any other purpose.
