#### Forward Looking Statements

-----

The Company and its representatives periodically make written and spoken forward-looking statements and projections, including those contained in the annual and quarterly reports to shareholders. Substantial risks and uncertainties exist with respect to such factors as the maintenance of client relationships, client credit risk, complying with terms of debt agreements, the performance of capital markets, changes in interest rates, changes in foreign currency exchange rates, the retention of key management and availability of employees for hire, changes in labour and other laws to which the Company is subject, the impact of terrorism on consumer and business behavior, competition, and overall economic performance, as well as various other risk factors that will be listed from time to time in the Company's reports or other forms of public disclosure whether written or oral. Because of these risks and uncertainties, actual results could differ materially from those contained in the Company's projections or other forward-looking statements. The Company cautions readers when making decisions to consider the risks and uncertainties inherent in relying on forward-looking statements made by the Company and its representatives at this or any other time.
