**Summary Translation Letter
To the Stock Exchange of Thailand
Date January 9, 2003**

Ref No.SSA007/2003

9th January 2003

Subject: Clarification of Shin Satellite's position vis-à-vis the iPSTAR project

To: The President
Stock Exchange of Thailand

It has come to the attention of Shin Satellite Public Company Limited that there have been rumors and comments in the market over the past few days of the risks of not being able to launch the Thaicom - 4 satellite (which for commercial purpose, is generally referred to as the iPSTAR - 1 satellite) due to the delay in the establishment of the National Telecommunications Commission ("NTC").

Shin Satellite would like to clarify here that it will launch the Thaicom - 4 satellite into the orbital slot 120 degrees East which has been allocated to it by the Ministry of Transport and Communications under the terms of the existing 30 - year concession. The regulation and supervision of the concession have now been transferred to the Ministry of Information and Communications Technology.

Consequently, there are no regulatory risks whatever that will impede the planned launch and service commencement of iPSTAR - 1 satellite.
